Ce document présente un sommaire des notes du discours-programme prononcé le 23 septembre 1991 par Janet E. Halliwell, présidente du Conseil des sciences du Canada à l'Association canadienne de la gestion des recherches lors de la 29e Assemblée annuelle de l'association. Ce discours traite de la contradiction entre notre système universitaire adapté à une économie industrielle moderne et notre économie où la dimension R-D dans le secteur privé et des politiques dans les domaines de la formation technique et de l'apprentissage semble posséder plutôt des caractéristiques d'un pays moins développé.

La Procédure d'évaluation des impacts sur l'environnement : rapport final

Québec : Assemblée nationale, Commission de l'aménagement et des équipements, 1992. 72 p. Bibliogr. ISBN 2-550-26239-5
MICROLOG 93-04310 1 fiche

Ce document présente le rapport de la Commission de l'aménagement et des équipements qui a étudié la procédure d'évaluation et d'examen des impacts sur l'environnement et sa portée. La Commission est, parmi les neuf commissions permanentes de l'Assemblée nationale, celle qui a compétence en matière d'environnement. Ce document aborde la synthèse des mémoires et des commentaires reçus, et l'analyse et les observations de la Commission.

Procédures de suivi et de surveillance environnementale : étude de cas

par S. Collin. Hull, Québec : Conseil canadien de la recherche sur l'évaluation environnementale, 1991. 53 p. Bibliogr. (Rapport manuscrit ; MR8-91)
MICROLOG 93-05339 1 fiche

Cette étude vise à: cerner le concept de suivi, tout d'abord tel qu'il est véhiculé dans les publications traitant de l'évaluation des incidences environnementales, puis tel qu'il est défini par le gouvernement dans ses directives et exigences au promoteur, et finalement, tel qu'il est interprété et mis en application par Hydro-Québec; voir quels devraient être son rôle, ses objectifs et sa portée, et quelle est l'utilité réelle du suivi en tant qu'instrument de gestion de l'incertitude; vérifier la nature du contrôle gouvernemental de la conformité de l'étude de suivi, tel qu'exercé par la direction des évaluations environnementales du ministère de l'environnement; et, constater quelle place est réservée à la population locale, et voir les possibilités d'augmentation de l'implication de la population et des organismes locaux dans les procédures de suivi.

Procedures for administration of mineral aggregate extraction on Ministry of Transportation contracts

by Z.L. Katona and S.I. Szoke. Downsview, Ont. : Ministry of Transportation, Engineering Materials Office, 1993. 36 p. : ill. Bibliogr. (Materials information report ; MI-155) ISBN 0-7778-0830-7
MICROLOG 93-08706 1 fiche

The purpose of this report is to document the updated provincial procedures for obtaining Wayside Permits, Letters of Approval, and to introduce new procedures for obtaining Aggregate Permits under the Aggregate Resources Act and Permits to Extract Aggregates on Indian Reserve Lands under the Indian Act, and approval of Closure Plans under the Mining Act. The procedures for handling wayside pits and quarries on MTO projects has been in effect since 1981. Since this directive was issued, a number of developments have occured. This report reflects the changes to the existing Directive necessitated by these developments.

Proceedings of regional symposiums : preparing a government policy for aboriginal peoples

Montreal : Gouvernement du Québec, Ministère du Conseil exécutif, Secrétariat aux affaires autochtones, 1992. 52 p. ISBN 2-551-150-94-9
MICROLOG 93-04235 1 fiche

The regional symposiums had a twofold purpose, namely to validate the findings of the government on the present situation of the aboriginal peoples of Quebec and on their relations with other Quebecers, and to use information gathered through public consultation as guidelines on which a policy would be based. This document presents responses to the following themes addressed at the symposium: mutual respect through knowledge; autonomy; and working together to prepare a blueprint for the future. It reports the basic points discussed by participants at each of the four symposiums.

Processes, equipment and techniques for the energy efficient recycling of aluminum

F.T. Gerson Limited. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1993. 85 p. : ill. Bibliogr. *CANMET contract: M91-7/232-1993E.* ISBN 0-662-20566-9
MICROLOG 93-06860 1 fiche

The aluminum recycling industry in Canada comprises some 100 non-ferrous scrap collectors, processors, brokers and smelters, with production in 1990 of 140,000 tonnes. A study was carried out to identify the aluminum recycling industry's research and development needs to the year 2010 so that major opportunities can be realized for the more effective use of fossil fuel and electricity with consequent improvements in the efficiency and competitiveness of Canadian aluminum recyclers. An overview is presented of the aluminum recycling industry, surveys of scrap processors, new facilities and techniques, and options for Canadian research and development. Nine research and development programs are identified and ranked by length of time required for development and maturity of technology.

Production and marketing systems for raw milk in Saskatchewan : a study of existing systems with discussion of potential alternatives and recommended options

EXP Consulting Limited. Regina : The Consultants, 1986. 118 p. : ill. *Report done under contract with the Saskatchewan Dept. of Agriculture.*
MICROLOG 93-00471 2 fiche

Study on the present status of, and alternative solution for, control of the production and marketing of raw milk; the management of production quotas; the determination of farm production costs; the status of farm separated cream; and the province's share of the national market for industrial milk. An assessment was made of the way in which administrators, processors and producers view problems related to the various items in the terms of reference by interviewing eight administrators, three processors, a random sample of 39 producers, and a further selected sample of 10 producers. Related programs and policies in other provinces were reviewed and analyzed for information on potential alternatives and as part of a general search for useful program and policy ideas. Draft proposals were reviewed with all segments of the industry and with specially selected consultants.

Productivité, compétitivité, performance commerciale et revenu réel : le lien entre quatre concepts

par J.R. Markusen. Ottawa : Groupe Communication Canada, Edition, 1992. viii, 175 p. : ill. Bibliogr. *L'éd. anglaise (Productivity, competitiveness, trade performance...) : 93-01686/2.* ISBN 0-660-93943-6
MICROLOG 93-01687 2 fiche

Cette étude fait partie d'une série de plusieurs travaux commandés par le Conseil économique du Canada dans le cadre d'un projet de plus grande envergure consacré à la compétitivité et à la performance commerciale. Le projet a pour but, dans ses grandes lignes, d'étudier les raisons pour lesquelles l'industrie canadienne a affiché des performances aussi médiocres au cours des vingt dernières années et de les comparer à celles d'autres pays industrialisés ou nouvellement industrialisés. Plus précisément, l'analyse porte sur les déterminants des relations qui existent entre 1) la productivité, 2) la performance commerciale, 3) le revenu réel et 4) la compétitivité, ainsi que sur leur interprétation. Les relations entre ces concepts sont étudiées sous un angle tant théorique qu'empirique, et on en évoque les répercussions sur le plan de la politique publique.

Productivity of potato seed tubers produced in northern latitudes : final report

by D. Waterer. Regina : Saskatchewan Agriculture Development Fund, 1991. 52 p. : ill. Bibliogr.
MICROLOG 93-08364 1 fiche

Research from several countries indicates that seed potatoes produced in different locations had varying levels of sprout development, shoot vigour, and tuber yield. In general, those produced in cooler environments, higher altitudes, and higher latitudes were physiologically young and produced superior growth and tuber yields. In summer 1986, a project was begun to compare growth and productivity of Norland and Russet Burbank potato seed tubers obtained from sources in Saskatchewan with seed tubers from Minnesota and Nebraska in the United States. The project critically tested the hypothesis that seed tubers produced in cooler, northern regions are superior to seeds from more southerly sites; determined the extent and nature of this Northern vigour phenomenon by studying plant development; and studied the physiological basis of the effect.

Ce rapport constitue un premier compte rendu global sur le profil des blessures des victimes de la route. Il vise à documenter ce phénomène qui comporte de très nombreuses facettes en vue de supporter l'élaboration de programmes de prévention. Les résultats qui concernent le Québec en particulier sont présentés à la section 3 du rapport. On y aborde la méthodologie; la revue de la documentation; et, les résultats et l'analyse.

Profil socio-démographique des canadiens ayant un problème de santé et de limitation de leurs activités

par H. Rostum et E. Thonney. Ottawa : Société canadienne d'hypothèques et de logement, Division de la recherche, 1991. ix, 84 p. : ill. *L'éd. anglaise (A Socio-demographic profile of...) : 92-07096/2 CSI 22545.200.*
MICROLOG 93-03168 2 fiche

Cette étude constitue un profil socio-démographique des Canadiens ayant un problème de santé et de limitation de leurs activités (c'est-à-dire les personnes handicapées). Elle présente, sur la nature et le degré d'incapacité des individus, des renseignements qu'elle met en relation avec les caractéristiques de divers types de ménages et la situation des personnes handicapées en ce qui concerne le logement. Le rapport

comporte plusieurs parties: un apcerçu socio-démographique des personnes handicapées au Canada, un profil des Canadiens, selon la nature et le degré de l'incapacité, les caractéristiques des ménages et la situation sur la plan du logement des personnes qui ont un problème de santé et de limitation de leurs activités. De plus, des statistiques supplémentaires et des renseignements de base sont présentés dans les annexes.

This publication provides information on major trends and developments in the school system of the province. It provides a comprehensive survey from three major perspectives: participation in school, intellectual achievement, and attitudes and opinions (indicators of personal and social development). It determines how successful the system is at keeping students in school; how successful the system is at getting students through school to graduation; how well the students are achieving; and how students and others feel about the quality of their school experience.

Profitability study of the mid-shore snow crab fleet based in New Brunswick and Nova Scotia (Gulf Region) in 1992

by H. Chiasson. Moncton, N.B. : Dept. of Fisheries and Oceans, Gulf Region, Program Coordination and Economics, 1993. 34, 34 p. : ill. (Economic and commercial analysis report ; no. 132) *Bilingual (Etude de la rentabilité...).* ISSN 0843-5626
MICROLOG 93-04911 1 fiche

This study examines the financial and economic performance of the mid-shore snow crab fleet based in New Brunswick and Nova Scotia and operating in the southern Gulf of St. Lawrence during the 1992 fishing season. The report provides a brief history of the crab fishery, indicating the number of fishermen involved, landings by inshore and mid-shore fleets in the past 10 years, and average prices obtained. Details are given of the structure, characteristics, and fishing activities of the mid-shore fleet in the two provinces and its financial and economic performance. An evaluation of the fleet's general debt situation as compared to 1984, when the last study of the crab fleet was conducted, is also given.

Le Progiciel expert en foresterie : étude du lac Traverse

par F. Gougeon. Chalk River, Ont. : Forêts Canada, Institut forestier national de Petawawa, 1993. vi, 17 p. : ill. Bibliogr. (Rapport d'information ; PI-X-108F) *L'éd. anglaise (A Forestry expert package : the Lake Traverse study) : 92-04096/1.* ISSN 0228-0736 ISBN 0-662-98278-9
MICROLOG 93-08720 1 fiche

La détection des changements en régions boisées observées à l'aide d'images satellitaires est traditionnellement accomplie par des rapports de bandes, des améliorations d'images et des classifications multidates. Le Progiciel Expert en Foresterie (PEF) utilise une méthode complètement différente et est un exemple d'une nouvelle philosophie de l'analyse des images: une approche basée sur l'intelligence artificielle. Pour cette expérience, des classifications d'images corrigées géométriquement d'une région près du lac Traverse au Parc Algonquin, en Ontario, ont été obtenues par un processus de classification non- supervisé pour des années et des saisons différentes. Ce document présente le rapport d'information sur le progiciel.

Le Programme climatologique canadien

Ottawa : Environnement Canada ; Energie, mines et ressources Canada, 1993. 31 p. : ill. *L'éd. anglaise (The Canadian Climate Program) sur la même fiche.* ISBN 0-662-98245-2
MICROLOG 93-06947 1 fiche

Le Programme climatologique canadien est un effort de coopération entre organismes fédéraux, les provinces, le milieu universitaire et le secteur privé. La compréhension du climat et de ses incidences passe par la participation de physiciens et de biologistes, mais aussi de spécialistes des sciences sociales et économiques. Grâce au Programme on dispose de mesures des moyennes, extrêmes et tendances des paramètres climatologiques, on avance la recherche sur les processus en jeu, et on élabore des modèles mathématiques permettant de prévoir l'évolution du climat à des échelles de temps allant du mois, au siècle. On décrit le Programme, le Conseil et ses comités. Ensuite, on traite des questions de recherches suivantes: des données et applications climatologiques y inclus l'effet de serre, la recherche et modélisation de l'atmosphère et de l'océan, les répercussions socio-économiques du changement climatique, les relations entre le climat et les écosystèmes du Canada, et la stratégie d'action nationale et programmes en cours.

MICROLOG 93-00474 1 fiche

Ce rapport donne de l'information sur les lacs et les cours d'eau qui constituent le réseau du Programme national de biosurveillance du TADPA du ministère des Pêches et des Océans. Il résume les caractéristiques physiques et chimiques de 36 lacs et 21 cours d'eau de l'Ontario, du Québec, de la Nouvelle-Ecosse et de Terre-Neuve. Une carte de chaque région permet de localiser chaque lac et cours d'eau. La carte est suivie par une brève description de la région avec les voies d'accès et les caractéristiques physiques, chimiques et biologiques du lac ou du cours d'eau. On trouvera aussi des références à de la documentation plus détaillée. Les cartes des lacs et des cours d'eau indiquent où se trouvent les stations d'échantillonnage et quel type de données est prélevé à chacune de ces stations. Tous les lacs, les cours d'eau et les stations d'échantillonnage sont identifiés par une code qui correspond aux normes de la base de données nationale.

Progress in field trials of galloping controls for distribution lines

by D.G. Havard and C.J. Pon. Montreal : Canadian Electrical Association, Section 3-Distribution, 1992. 19 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference*
MICROLOG 93-06033 1 fiche

Galloping refers to the violent motion of overhead power transmission line conductors when subjected to certain wind loads. Field trials of several promising devices for controlling galloping of overhead distribution lines are in progress across Canada. These field trials are supported by the Canadian Electrical Association and many electric utilities. Test sites are set up to permit the behavior of the control devices to be compared to that of untreated conductors during ice storms. Each site is monitored and the motions recorded and filmed by local utility personnel. The installation and operational experience with detuning pendulums, airflow spoilers, interphase spacers, and aerodynamic T-foil control devices are described. A statistical summary of the performance of the devices with sufficient data to draw conclusions is included. Two devices offering a significant measure of galloping control are discussed.

Projecting elementary and secondary school enrollments : a procedural manual

by R.W. Crawford. St. Catharines, Ont. : Brock University, Faculty of Education, 1990. xiii, 157 p. : ill. Bibliogr. *ONTERIS: ON06106.*
MICROLOG 93-05964 2 fiche

Provides school board administrators or planners with a procedural manual for implementing elementary and secondary school enrollment forecasts at the level of a county or regional school system. Provides basic projection techniques which can be carried out without reference to complex mathematical procedures. Takes a step-by-step approach to short- and long-term forecasting methodologies, including: grade-survival models, age-survival models, and regression models. Procedures for developing kindergarten or entry-grade forecasts from fertility and population data are described. Concludes with an evaluation of the effectiveness of projection literature, and a sample format for adapting the projection models to spreadsheet software such as Lotus 1-2-3.

Projections de la population indienne inscrite, 1991-2015

par F. Nault...et al. Ottawa : Affaires indiennes et du Nord Canada, 1993. xiv, 199 p. : ill. Bibliogr. *L'éd. anglaise (Population projections of registered Indians...) : 93-07037/3. CSI 21113.205F.* ISBN 0-662-98195-2
MICROLOG 93-08781 3 fiche

On trouvera dans ce rapport des projections révisées de 1991 à 2015 de la population indienne inscrite du Canada et des régions administratives d'Affaires indiennes et du Nord Canada, par âge, sexe et lieu de résidence (dans les réserves et hors des réserves). Ces projections ont été préparées selon un modèle de projection basé sur la composante cohorte régionale, à partir des données des séries chronologiques ajustées sur les naissances, les décès et la population, pour la période de 1972 à 1990. La section 1 présente une brève évaluation de la qualité des données. Les deux sections subséquentes décrivent les hypothèses sur les composantes et les scénarios choisis. Les sections 4, 5, 6 et 7 respectivement présentent les résultats des projections et quelques analyses, une comparaison avec les projections précédentes, les limites des projections, et une brève référence aux projections non publiées. L'analyse porte en général sur les tendances et les caractéristiques nationales, mais les différences régionales les plus particulières sont aussi mentionnées. Les tableaux en annexe fournissent des chiffres détaillés sur les projections.

Projet de recherche sur le bruit d'appareils ménagers dans les immeubles multi-logements

Décibel consultants. Ottawa : Société canadienne d'hypothèques et de logement, 1992. vi, 102 p. : ill. Bibliogr.
MICROLOG 93-01318 2 fiche

Les personnes demeurant dans des immeubles multi-logements deviennent de plus en plus exigeants en ce qui a trait à l'insonorisation de leurs unités, et plus particulièrement lorsqu'elles en sont propriétaires. Un nombre important de constructeurs limitent au minimum l'utilisation de revêtement de plancher dur afin de réduire la transmission de bruits d'impact. Quant au contrôle à la source du bruit d'appareils sanitaires et ménagers, il n'est pas du ressort des constructeurs d'habitations. Restent alors les vibrations se transmettant directement dans les planchers à partir de ces appareils. Cette étude vise essentiellement à évaluer la pertinence de traitements pour ce dernier aspect.

Projet Radisson-Nicolet-Des Cantons : condensateurs série pour le blocage du courant continu dans quatre lignes à 735 kV : territoire régi par la Convention de la baie James et du Nord québécois : rapport d'avant-projet

Montréal : Hydro-Québec, 1992. vii, 42 p. : ill., ill. pliantes.
MICROLOG 93-08742 1 fiche

L'électrode du site Duncan utilisée pour le poste Radisson occasionne des perturbations sur le réseau de transport d'électricité d'Hydro-Québec. Afin de bloquer la circulation de courant continu qui pourrait limiter considérablement la capacité de transit du réseau, il est nécessaire d'installer des condensateurs série pour le blocage du courant continu dans quatre lignes à 735 kV, partant du poste Radisson, soit: les trois lignes Radisson-Némiscau et la ligne La Grande-2-Chissibi. Ce document contient les renseignements nécessaires à une demande de modification du certificat d'autorisation émis le 6 octobre 1989 pour l'électrode de mise à la terre du poste Radisson. Il vise également à renseigner sur les mesures d'atténuation techniques qui seront mises en place dans le cadre de ce projet.

La Promotion sans concours : rapport

par J.-P. Tremblay. Québec : Commission de la fonction publique du Québec, Direction de la vérification et des enquêtes, 1990. 65 p. (Etude particulière ; no 8889-EP-05)
MICROLOG 93-08282 1 fiche

Après avoir décrit la méthodologie dans une première partie, la seconde partie du rapport présente les résultats généraux de l'étude pour ensuite procéder à leur analyse selon les variables sexe, région, catégorie, classe d'emploi, ministère ou organisme. Le chapitre consacré à chacune d'elles effectue d'abord la répartition des promotions selon cette variable, analyse ensuite le type de promotion à l'intérieur même de chaque variable et, enfin, trace l'évolution des promotions dans les trois parties qui ont été distinguées sur l'ensemble de la période visée par l'étude. Enfin, dans une troisième partie, le rapport effectue une comparaison entre les résultats de cette étude et celle produite par l'Office des ressources humaines qui traçait un portrait statistique de la promotion sans concours depuis la date de son entrée en vigueur, le 1er février 1985, jusqu'au 31 octobre 1986.

Pronghorn antelope in Saskatchewan : status and management strategies

by M. Killaby, D. Dobson and C. Dunn Regina : Saskatchewan Natural Resources, Wildlife Branch, 1992. xvi, 137 p. : ill Bibliogr. (Wildlife technical report , 92-2)
MICROLOG 93-01592 2 fiche

To develop a plan for management of pronghorn antelope, current survey methodology was reviewed as to the most precise techniques available to measure total population, density and distribution. Every square mile within a survey block was classified into one of five land classes based upon the amount of native habitat remaining within its boundaries Aerial census techniques tested over 16 survey blocks included trend lines and stratified block and line transect. These three methods were then compared for their accuracy. The socio-economic costs and benefits were examined to ascertain the net worth of the antelope resource and a list of objectives and strategies were developed for the antelope resource.

Propagation of measurement uncertainty in hydrogeologic data

Intera Technologies Ltd. Ottawa : Atomic Energy Control Board, 1992. v, 104 p. : ill. Bibliogr. (Research report ; INFO-0410)
MICROLOG 93-08416 2 fiche

Evaluation of the impact of measurement errors, associated with hydraulic tests and hydraulic head measurements, on a simple hydrogeological characterization of the groundwater flow system in a fractured rock environment. Probability distribution functions were constructed for the independent (i.e., measurement) variables and the uncertainties in dependent variables (i.e., hydraulic conductivity and hydraulic head) were obtained using a latin hypercube uncertainty propagation technique. Distributions were fitted to the hydraulic conductivity and hydraulic head data which were subsequently used to determine uncertainty in Darcy flux within a fracture zone.

A Proposal of aerodynamic acceptance test for aircraft ground de-icing/anti-icing fluids -- Rev.

by J.-L. Laforte, G. Bouchard and P.R. Louchez. Montreal : Transport Canada, Policy and Coordination, Transportation Development Centre, 1992. viii, 19 p.
MICROLOG 93-04647 1 fiche

Increasing queuing time due to airport traffic (from 3 minutes to 30 minutes) results in a significant delay between de-icing operations and take-off, making aircraft de-icing inadequate under adverse weather conditions. Development of anti-icing fluids which can prevent significant ice formation for more than 30 minutes is difficult because of the lift loss effect due to fluid residue during take-off. A standard procedure to evaluate the extent of lift reduction is required to permit safe use of these products. This proposal is based on correlation data derived at the Von Karman Institute that allows prediction of the decrease in lift performance as a function of the variation of the boundary layer displacement thickness (BLDT) of the air above a fluid film on a horizontal plate. A detailed experimental procedure is described to measure the BLDT value generated on a 1.5 m flat horizontal plate during a wind acceleration simulating aircraft take-off speed.

A Proposal to establish local labour force development boards

Ottawa : Canadian Labour Force Development Board, 1991. 21, 23 p. *Bilingual (Proposition pour l'établissement de commissions ..). ONTERIS: ON06000.*
MICROLOG 93-00608 1 fiche

Sets out a rationale and process for establishing labour force development boards at the local level across Canada. The principles outlined are consistent with the mandate and direction of the Canadian Labour Force Development Board (CLFDB). Local labour force development boards will have a community focus, but they will also be part of the provincial, territorial and national framework. This is reflected in the proposal that boards be designated by the CLFDB and the provincial boards, jointly. Provincial boards should play a role in co-ordinating and

integrating federal and provincial policies and programs, and review and approve local board plans, within the national framework, on an ongoing basis. There should be preliminary, developmental and operational phases to establish the local boards. Outlines the steps for each labour market partner. The CLFDB and its provincial-level counterpart would have an active role in each phase. Employment and Immigration Canada should be available, as required, in cooperation with the CLFDB, the provincial board, and the provincial government.

A Proposal to privatize the Northwest Territories Power Corporation

by F.F. Abbott. Yellowknife : The Territories, 1993. 115 p. : ill.
MICROLOG 93-06352 2 fiche

In 1988, the Government of the Northwest Territories (GNWT) purchased the Federal Government's investment in the Northern Canada Power Commission (NCPC) for $53m. In the purchase agreement, the GNWT made a commitment to examine options for private sector participation in the ownership and operation of the Northwest Territories Power Corp. (NWTPC). In September 1992, a preliminary report reviewing the privatization of the NWTPC was presented and reviewed by the GNWT, which then requested a report. This proposal describes the privatization model in general and how it specifically applies to NWTPC; the valuation and share sale; the proposed transaction structure; the privatization process; issues of concern, including tax, employees, workers' compensation, and the environment; information to be included in a prospectus; consultation with the public; the business incentive policy; and the effect on Nunavut.

Proposal to study the learning styles of native students in the Northwest Territories

by P.J. Gamlin. Toronto : Ontario Institute for Studies in Education, 1988. 24 p. Bibliogr. *ONTERIS: ON05433.*
MICROLOG 93-00616 1 fiche

Presents a developmental theory for the creation of curriculum guidelines and remedial programs for native students. The theory emphasizes the cognitive strengths of native students, who have been found to be field-independent, holistic, metaphorical, and simultaneous in their thinking. They have, therefore, a pronounced ability to generalize knowledge to broader contexts of experience. A study is proposed to show that native students have a unique cognitive style, but the difference is a matter of degree, not a different kind of thinking. Native and non-native students would be compared across grades 1, 3, and 5. 64 students from each grade, split evenly between native and non-native, would be assessed. Results would indicate whether native and non-native students have a similar ability to generalize, and whether neurological development has an impact on this ability. Classroom performance would be compared to the assessment results for all groups, to ascertain the nature of the relationship between cognitive style variable and school achievement. The study would then undertake to translate the cognitive advantages identified into procedures complementary to native students' preferred learning styles. Includes a proposed budget.

Proposition pour l'établissement de commissions locales de mise en valeur de la main-d'oeuvre

Ottawa : Commission canadienne de mise en valeur de la main-d'oeuvre, 1991. 23, 21 p. *Bilingue (A Proposal to establish local...). ONTERIS: ON06000*
MICROLOG 93-00608 1 fiche

Traite de la Proposition de la Commission canadienne de mise en valeur de la main d'oeuvre (CCMMO). Cette commission imprime l'orientation stratégique nationale; conseille le gouvernement fédéral sur les utilisations à des fins productives du Compte d'assurance-chômage; et favorise l'établissement des normes nationales pour la formation et les professions. La Proposition de la CCMMO expose la justification et le processus d'établissement des commissions de mise en valeur de la main d'oeuvre, au niveau local dans tout le Canada. Les commissions provinciales devraient approuver les plans des commissions locales. L'établissement des commissions locales comporterait trois phases de la mise en oeuvre: la phase préliminaire, développement, et fonctionnement. La Proposition expose des étapes précises que les divers partenaires du marché du travail suivraient pour chaque phase. Un comité provincial d'orientation, formé des représentants de la CCMMO et des commissions provinciales, ainsi que d'un fonctionnaire fédéral et d'un fonctionnaire provincial, aura la mission d'orienter et de faciliter le processus. Le personnel et les ressources de l'Emploi et Immigration Canada devraient faciliter ce processus, en étroite collaboration avec la CCMMO, la commission provinciale, et le gouvernement provincial.

Prospects for the mineral industry : exploring public perceptions and developing political agendas

by M.L. McAllister. Kingston, Ont. : Queen's University, Centre for Resource Studies, 1992. v, 34 p. Bibliogr. (Working paper ; no. 50) ISSN 0226-7616 ISBN 0-88757-114-X
MICROLOG 93-00958 1 fiche (Available on fiche only)

The ability of the Canadian mining industry to compete internationally is a subject of concern to those involved in the industry. A diversity of factors are assigned varying degrees of responsibility for the industry's sense of being caught in a web of costs and restraints which it feels powerless to influence. These factors tend to be approached as effects, all from an after-the-fact perspective. An equally important aspect that has been neglected is the political context in which decisions on these issues are made. This document sets the industry's concerns in this context to provide guidance for the direction of their energies into channels where they may have influence over the decision-making process.

La Protection de l'environnement et l'emploi au Canada : document de travail pour le patronat et les syndicats

Ottawa : Centre canadien du marché du travail et de la productivité, 1992. 139, 129 p. Bibliogr. *Bilingue (Environmental protection and jobs...).*
MICROLOG 93-07803 3 fiche

Ce document essaie non seulement d'analyser le lien entre l'emploi et l'environnement au Canada, mais aussi de clarifier les soucis des milieux d'affaires et des syndicats dans ce domaine. Il puise dans les données d'observation et d'analyse canadiennes et internationales les plus récentes sur les liens entre l'emploi et les mesures de protection de l'environnement. Les dirigeants des milieux d'affaires et des syndicats, ainsi que des représentants de groupes environnementaux, des experts des administrations publiques, et des universitaires ont été appelés à présenter leurs vues. Les experts-conseils ont rencontré des représentants de nombreux associations

industrielles et syndicats nationaux. Le document se penche sur les possibilités de perte ou de gain d'emplois, les répercussions sur la qualité des emplois, les répercussions sur les régions et les groupes sociaux, la question de qui paie, l'innovation, l'établissement de normes écologiques dans une économie mondialisée, et la prise de décision en matière d'environnement.

Protection of series compensated transmission lines : modelling and appraising

by M.S. Sachdev and L.R. Tumma. Montreal : Canadian Electrical Association, Engineering and Operating Division, Power System Planning and Operation Section, Transmission and Station Planning and Operations Subsection, 1991. 16 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06111 1 fiche

An enhanced steady state representation for modelling series capacitors protected by metal oxide varistors is developed. Based on this model, an algorithm is proposed for a digital distance relay to protect series compensated transmission lines. The ability of this technique to accurately detect faults is checked using data obtained by computer simulations. The speed with which the algorithm detects faults, that are in the operating zone of a mho-relay, is illustrated using the movement of the trajectories of the calculated impedances from the pre-fault values to the post-fault values.

The Protection of social and economic rights : a comparative study : staff paper

Toronto : Ministry of the Attorney General, Constitutional Law and Policy Division, 1991. 62 p.
MICROLOG 93-02106 1 fiche

This paper examines the ways in which social and economic rights have been protected under national constitutions and under regional and international treaties. It discusses the distinctions that have traditionally been drawn between civil and political as opposed to social and economic rights. It explains that social and economic rights have been protected in a surprisingly large number of states--over one-half of the countries of the world. It also describes the ways in which social and economic rights have been protected and defined under regional and international treaties.

Protestant moral and religious education program

Comité protestant ; advice to the Minister of Education. Sainte-Foy, Que. : The Comité, 1991. 29 p. *French ed. (Le Programme d'enseignement moral et...) on the same fiche.* ISBN 2-550-23373-5
MICROLOG 93-08310 1 fiche

In 1991, the Protestant Associate Deputy Minister asked the Protestant Committee to consider, in light of the changes effected by the Education Act, whether the Protestant Moral and Religious Education program was in need of revision to meet the changing situation. After consultations with representatives from churches, parent organizations and persons at various levels of responsibility in Protestant School Boards, questions were found about its role and what the law states. This document discusses clientele for Protestant Moral and Religious Education, general observations, aims of the program, knowledge of the Bible, celebration/world religions, relationships/ethics, timetabling and teacher assignment.

A Prototype submersible electrofisher : design and user manual

by B. Emmett...et al. West Vancouver, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, West Vancouver Laboratory, 1992. v, 47 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2143) ISSN 0706-6473
MICROLOG 93-00978 1 fiche

The submersible electrofisher was designed to be operated in fresh water by divers properly equipped with SCUBA or snorkel equipment. The device is designed to sample fish habitat that is not accessible by conventional electrofishing equipment, including deep water or areas some distance from the shoreline that cannot be reached with backpack electrofishing equipment. This manual reviews the basic theory of electrofishing, describes the submersible electrofisher and provides documentation for safe and effective operating procedures.

Providing the framework : a forest practices code

Victoria : Forest Resources Commission, 1992. iv, 55 p. : ill. Bibliogr. ISBN 0-7718-9245-4
MICROLOG 93-00354 1 fiche

Over the past three years, the Forest Resources Commission has heard a great deal of support for a legislated Forest Practices Code to guide land management practices and to provide better management of the province's forests. In January 1992, the Commission was given a mandate to make recommendations on the framework for a code, including any legislation or administrative processes required to implement such a code. This paper outlines the Commission's thinking and recommendations on the overall framework and the administrative and legal processes needed to implement a Forest Practices Code. It discusses the legal framework, the scope of the code, administrative arrangements, the need for independent audits, compliance measures, and public participation.

Provincial review : services to 16 and 17 year olds

Edmonton : Alberta Family and Social Services, 1992. 133 p.
MICROLOG 93-08867 2 fiche

This report summarizes the issues identified through 3 months of consultations regarding services for 16 and 17-year-olds. Comments are categorized according to whether they relate to Child Welfare, Supports for Independence or other government departments, and then under the headings of legislation and mandate, workload and availability of services, and policy and procedures. The discussion of each issue is followed by recommendations. The major focus of this report is on the need

for a co-ordinated approach to providing services to 16- and 17-year-olds, who often fall through the gaps in the social service delivery system. Appendices deal with findings, list committee members, list presenting groups and individuals, and provide written responses from other provinces.

Public awareness and attitudes on environmental issues, focus groups and in-depth interviews : research report

Thompson Lightstone & Company Limited. Ottawa : Environment Canada, 1990. 64 p.
MICROLOG 93-01987 1 fiche

In preparation for the announcement of its environment agenda early in 1990, Environment Canada commissioned qualitative research to evaluate the depth of Canadians' concerns about the environment, their expectations of the Federal Government in dealing with the issue,

what trade-offs they are prepared to make to help protect the environment, and to scope out requirements for quantitative research evaluating agenda initiatives. This report presents a detailed analysis of the results of focus groups conducted in eight major centres across Canada, as well as findings of in-depth interviews conducted with industry, science, youth organizations and union leaders. Reports on in-depth interviews with the Rawson Academy of Aquatic Sciences, the Business Council on National Issues, the Canadian 4H Council, the Canadian Labour Congress, the Canadian Petroleum Association, and representatives of the pulp and paper industry are also included.

Public participation in the environmental assessment and review process : the role of intervenor funding

by J. Cooper. Hull, Que. : Canadian Environmental Assessment Research Council, 1988. xi, 156 p. Bibliogr. (Manuscript report ; MR3-88)
MICROLOG 93-05301 2 fiche

This report examines the opportunities for public participation in the federal Environmental Assessment and Review Process (EARP) and the influence of intervenor funding on that input. The EARP is then applied to military flying activities in Labrador and Quebec. Five research questions are posed based on an interpretation of four normative objectives for the EARP and identification of a number of areas of EARP that restrict public access to decision making. The results of the interviews are summarized and evaluated against the normative objectives and against the criteria of representativeness, educational, accountability, fairness, effectiveness, and efficiency.

Putting a safe foot forward : foot comfort and safety at work

by A. Drewczynski. Hamilton, Ont. : Canadian Centre for Occupational Health and Safety, 1990. 6 p. Bibliogr. ISBN 0-660-13804-2
MICROLOG 93-00652 1 fiche

Work related foot injuries include foot injuries from punctures, crushing, sprains, and lacerations, and injuries from slips, trips, and falls. This publication focuses on various aspects of foot problems at work and suggests ways to improve comfort and prevent foot injuries. It looks at causes of foot problems. It also discusses prevention in terms of job and workplace design, flooring, footwear, protective footwear, general foot care, and exercise.

Pyrite deposits of Ontario

by D.F. Hewitt. Toronto : Dept. of Mines, 1967. vii, 64 p. Bibliogr. (Mineral resources circular ; no. 5)
MICROLOG 93-01837 1 fiche

This mineral inventory briefly describes 129 deposits of pyrite in Ontario, 30 in southern Ontario and 99 in northern Ontario, by district or county and by township. An overview of the production and uses of pyrite is also included. For each deposit, information is given on location, minerals present, development, geology, and references.

Qu'advient-il des diplômés et diplômées universitaires? La promotion de 1985, 19 secteurs disciplinaires, 92 disciplines

par M. Audet. Québec : Ministère de l'enseignement supérieur et de la science, 1989. xi, 423 p. *CSI 66131.207.* ISBN 2-551-08473-3
MICROLOG 93-04084 5 fiche

Ce document de la série Relance 1987 fournit les résultats de l'enquête effectuée auprès des diplômés universitaires de l'année 1985. L'enquête portait sur l'intégration des diplômés au marché du travail, les secteurs d'activités où on les retrouve, les caractéristiques de leur emploi et leur perception de la relation études-travail. Y sont principalement abordées les données globales, les données par grands secteurs disciplinaires, et les données par disciplines.

Des Qualifications pour relever le défi : un partenariat de la formation pour l'Ontario

Toronto : Conseil ontarien de formation et d'adaptation de la main-d'oeuvre, 1991. 44 p. *L'éd. anglaise (Skills to meet the challenge...) : 92-04287/1. ONTERIS: ON06285.*
MICROLOG 93-07276 1 fiche

Le Conseil (COFAM) est un organisme indépendant et 'autodirigé' émanant du gouvernement de l'Ontario. Il a pour but de faciliter une transformation radicale des attitudes et des comportements en matière d'acquisition et d'exploitation de compétences professionnelles. Ce document décrit l'organisme, son mandat et ses responsabilités en gestion des services et en matière de programmes. Les programmes et les services du COFAM appartiennent à 4 grandes catégories de mise en valeur de la main-d'oeuvre: formation sectorielle et en milieu de travail; programmes d'apprentissage et services qui s'y rattachent; reconversion ou adaptation de la main d'oeuvre; et programmes de formation d'entrée-retour qui aident les gens à accéder à l'emploi ou à la formation.

Qualité de vie et soins de longue durée en institution : une approche concertée : articles

par M. Hill...et al. Ottawa : Conseil consultatif national sur le troisième âge, 1992. 63 p. Bibliogr. (Ecrits en gérontologie ; 12) *L'éd. anglaise (Quality of life in long-term...) : 93-02831/1.* ISBN 0-662-97370-4
MICROLOG 93-02830 1 fiche

La qualité de la vie des gens qui reçoivent des soins de longue durée dépend du succès du partenariat qui existe entre les bénéficiaires, sa famille, les fournisseurs de services formels et les décideurs. Ce document identifie les questions qui feront que les soins de longue durée seront une ressource de vie et non de survie uniquement. Le document montre comment la qualité de la vie est définie différemment selon les points de vue de chacun. Il discute des politiques, procédures, attitudes et activités qui ont un effet majeur sur la qualité de vie de la clientèle. Il traite aussi d'éléments de programmes existants ou à venir.

Quality assurance and quality control for Hydro-Québec's ambient air monitoring networks

by M. Lambert and L. Varfalvy. Montreal : Canadian Electrical Association, Engineering and Operating Division, Thermal and Nuclear Section, 1993. 11 p. *Presented at Electricity '93 : distribution power quality*
MICROLOG 93-05200 1 fiche

In 1993, Hydro-Quebec will have three air monitoring networks to determine the contribution of some of its thermal power plants to the ambient air quality. They are located in Becancour (gas turbines), Iles-de-la-Madeleine (diesel), and Tracy (conventional oil-fired). To ensure good quality results and consistency between networks, Hydro-Quebec has set up a quality assurance/quality control (QA/QC) program. This paper describes the QA/QC program and the contents of the field operating sections.

Quality assurance status report : paired sampling on the Red River at Selkirk, 1989 to 1992

by D.A. Williamson and C.E. Hughes. Winnipeg : Dept. of Environment, Environmental Management Division, Water Quality Management Section, 1992. iii, 56 p. : ill. (Water quality management report ; no. 92-9) *At head of title: Canada-Manitoba Water Quality Monitoring Agreement.*
MICROLOG 93-05776 1 fiche

Under the terms of the Canada-Manitoba Water Quality Monitoring Agreement, Environment Canada and Manitoba Environment collect water quality data within the Province of Manitoba in a manner that is non-duplicative and that maximizes the data sharing. Both Manitoba and Canada simultaneously collect samples from the Red River at Selkirk each month, using each agency's routine sample collection and handling procedures. The samples are then submitted independently to each agency's laboratories. This report provides an assessment of paired data collected from the Red River at Selkirk from March 1989-October 1992.

Quality of life in long-term care institutions : a concerted approach : papers

by M. Hill...et al. Ottawa : National Advisory Council on Aging, 1992. 58 p. Bibliogr. (Writings in gerontology ; 12) *French ed. (Qualité de vie et soins...) : 93-02830/1.* ISBN 0-662-19474-8
MICROLOG 93-02831 1 fiche

This document identifies concerns involved in making long-term care a resource for living, not just surviving. The authors show how the meaning of quality of life varies depending on one's perspective. They highlight the policies, procedures, attitudes and activities that have a crucial impact on the quality of life of clients and discuss existing and emerging program elements. The authors stress a collaborative approach to fostering autonomy and health, and the development of policies to ensure that quality of life is a central concern in long-term care services.

Quality of life research : an annotated bibliography : a component of the CMHC study 'Modelling quality of life indicators in Canada : a feasibility analysis'

by R.A. Murdie and D. Rhyne. Ottawa : Canada Mortgage and Housing Corporation, Centre for Future Studies in Housing and Living Environments, 1992. 34 p.
MICROLOG 93-07504 1 fiche

This annotated bibliography is the first phase of a three-part feasibility analysis on modelling quality of life (QOL) indicators in Canada. Other phases consist of the development of a QOL model appropriate to the municipal level, and exploration of available data for the model and identification of gaps in the data. Items in the bibliography cover from the early 1970s to the present and deal with various approaches to the subject. All major Canadian studies are included, as well as classic, major, or especially relevant research from the United States and the United Kingdom. Most of the materials are at the urban or intra-urban

levels. Each annotation includes information on the purpose or type of the study, temporal or geographic coverage, QOL definition used, types of indicators employed (including objective and subjective data sets), and the study's contribution to understanding QOL. Entries are presented in chronological order

Quantifying arboreal lichens for habitat management : a review of methods

by S.K. Stevenson and K.A. Enns. Victoria : Ministry of Environment, Lands and Parks ; Ministry of Forests, 1993. vi, 44 p. : ill. Bibliogr. (Integrated wildlife intensive forestry research , IWIFR-42)
MICROLOG 93-06870 1 fiche

Management of arboreal lichens as a forage resource requires methods for measuring their abundance and growth rates. Inventory techniques and biomass sampling techniques for mature stands are reviewed, and methods for monitoring the abundance of lichens in immature stands are discussed. Special problems encountered by researchers include non-normal distributions, high variances, and many zero values. Methods for monitoring growth rates include use of photometrics, studies of biomass on dated twigs, and successive weighing of air-dried thalli.

A Quantitative analysis on the larval mortality by cannibalism in--A Study of comparative biology on Japanese pisces to population analysis, III

by T. Kawai and K. Isibasi. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1982. 24 p. : ill. Bibliogr. (Canadian translation of fisheries and aquatic sciences ; no. 4859) *Originally published in Japanese, in Japan*
ISSN 0704-3716
MICROLOG 93-02591 1 fiche

Since fish have a habit of eating other fish, fish eaters in particular spawn large number of eggs offshore where the nutrient level is lower than on the coast. This paper examines the hypothesis that the reason for large larval mortality is cannibalism of the young by the adults. The paper analyses the relationship between the mouth size of fish and the body length at the post-larval stage. A mathematical model is then developed and tested with yellowtail to obtain the survival rate of the larvae.

Quantitative microstructural studies on creep-cracked main steamline weldment

by H.J. Westwood. Toronto : Ontario Hydro, Research Division, 1992. iii, 26 p. : ill. (Report ; no. 92-210-K)
MICROLOG 93-04392 1 fiche

Metallurgical investigation of a serious failure in a Lakeview main steamline weldment in 1989 showed that the damage was due to the Type IV creep cracking in the fine grain/intercritical region of the weld heat-affect-zone. Three identical welds contained similar, though less advanced damage. One of these has now been subjected to in-depth examination to identify microstructural characteristics that might be able to identify Type IV-susceptible welds in service. Quantitative metallographic studies were carried out on the various microstructural regions of a steamline weldment that had developed Type IV creep damage in service Work included hardness surveys, optical and transmission electron microscopy, image analysis and grain shape analysis.

MICROLOG 93-04908 2 fiche

The Stratford-Conestogo area is located in southwestern Ontario in a central position between Lakes Huron, Erie, and Ontario. The area extends over about 850 sq miles and includes parts of the counties of Wellington, Perth, and Oxford, and parts of the Regional Municipality of Waterloo. This mapping project was undertaken to provide geological background for a detailed soil survey of Waterloo County. Field work involved examination of natural and artificial exposures, including test pits and hand-augered test holes. Shallow seismic exploration was carried out in the southeastern part of the area. Information available from water and gas well records, and from foundation engineering investigations, was also used. This report describes the Paleozoic and Cenozoic geology, the economic geology, and the engineering geology of the area.

Quaternary geology of Prince of Wales Island, Arctic Canada

by A.S. Dyke ... et al. Ottawa : Geological Survey of Canada, 1992. 142 p. : ill., maps. Bibliogr. (Memoir ; 433) *Fold. maps not filmed.* ISBN 0-660-14408-5
MICROLOG 93-02192 2 fiche

This report is the third of a series of regional geological studies of the central Arctic, initially conducted because of the need for information on terrain conditions along a then proposed pipeline corridor. The report describes the surficial geology of a 38,000 sq km island in Canada's central Arctic. Mapping and description of the surficial geology are the basis for reconstructing the preglacial evolution, glacial history, and postglacial history of the area. Large landscape elements are interpreted through temperature conditions at the base of the former ice sheet that covered the area. The maps and interpretations are then shown to have direct and important environmental implications and potential uses in mineral exploration.

Quaternary geology of St. Anthony-Blanc-Sablon area, Newfoundland and Quebec

by D.R. Grant. Ottawa : Geological Survey of Canada, 1992. 60 p. : ill., maps. Bibliogr. (Memoir ; 427) *Fold. maps not filmed.*
ISBN 0-660-14665-7
MICROLOG 93-01820 1 fiche

The area includes the northern extremity of the Northern Peninsula of Newfoundland and part of Quebec and Labrador across the Strait of Belle Isle. The study was conducted because of a need for data on terrain conditions, soil materials and glacial transport required for mineral exploration, the planning of a hydroelectric transmission corridor, for bedrock mapping and forest inventory, and for land capability studies. There is also a shortage of Quaternary geological information in a key area. This report synthesizes earlier accounts, enlarges on certain aspects in the light of new data and concepts, and puts the results in a regional context. Field work was conducted mainly in 1969, with brief topical studies in small areas in 1972 and 1974. Mapping was initiated using airphoto interpretations and was checked where possible on the ground by observation along roads and coasts. Limited helicopter transport helped in a few isolated areas, and one fixed-wing reconnaissance was made.

Marine placer deposits are an important source of various minerals, with beach placer deposits mined for a number including gold and diamonds, and shelf placer deposits dredged for cassiterite and scheelite. The inner continental shelf of Nova Scotia has the geological potential for some of these types of marine placers. This report describes field survey methods and sample analysis to be used with marine placer deposits and the geochemistry of the marine samples. It then gives information on the surficial geology of a type transect off Sheet Harbour and a placer

Quebec's constitutional veto : the legal and historical context

by M. Dunsmuir and B. O'Neal. Ottawa : Library of Parliament, Research Branch, 1992. 12 p. (Background paper ; BP-295E) *French ed. (Le Droit de veto du Québec en...) on the same fiche.* ISBN 0-660-14586-3
MICROLOG 93-01876 1 fiche

Throughout the first half century of Confederation, the issue of a veto on constitutional amendments was a moot point because legal control over amendments to the Constitution Act, 1867 lay with the Parliament of Great Britain. After 1926, however, the Balfour declaration on the independence of the colonies and the subsequent Statute of Westminster, 1931, forced the issue of creating an internal Canadian amending formula. Nonetheless, from 1926 to 1981, there was little discussion of a Quebec veto. In 1982, both the Quebec Court of Appeal and the Supreme Court of Canada held that Quebec had neither a legal nor a conventional right of veto. This document examines the pre-1980 situation of Quebec's constitutional veto, the view of the courts, and the view from inside Quebec.

Quebec : Gouvernement du Québec, Ministère des finances, Conseil du trésor, 1993. vii, 183 p. : ill. *Summary (24 p.) laid in French ed. (Les Finances publiques) . 93 05535/3 CSI 66100 201E* ISBN 2-550-27214-5
MICROLOG 93-05534 3 fiche

In the context of the current slow economic recovery, the government must now redefine its public finance objectives, taking into account the constraints imposed by the high levels of taxation and debt, the unfavourable trend in federal transfers, and the strong structural growth of spending. This document discusses the orientations the government must now pursue while the economy is facing a major industrial redeployment and increased trade globalization. It also looks at the level and type of government intervention that are compatible with continued economic progress.

The Question of rates in Indian taxation

Ottawa : Indian and Northern Affairs Canada, Indian Taxation Advisory Board, 1991. 21,

22 p. *Bilingual (Les Taux d'imposition dans la...)*. ISBN 0-662-58168-7
MICROLOG 93-00704 1 fiche

This paper is meant to invite public comment on recommendations the Indian Taxation Advisory Board wishes to make on factors it should take into account to determine whether a rate contained in First Nation/Band Council real property taxation by-laws is fair and equitable. It outlines the change to the Indian Act in 1988 which broadened First Nation/Band Councils' power to tax and describes the main functions of the Board and one of its permanent committees established to deal with the question of rates. It also describes real property taxation. In addition, it sets out the questions the Board would like answered, as well as a number of tentative conclusions the Board is considering. Finally, it raises possible alternatives to as valorem taxation.

Les Questions et textes de droit se rapportant aux nouvelles techniques de reproduction à l'échelle internationale

par R.J. Cook. Ottawa : Commission royale sur les nouvelles techniques de reproduction, 1991. vii, 13 p. Bibliogr. *L'éd. anglaise (New reproductive technologies...) sur la même fiche.* ISBN 0-662-97058-6
MICROLOG 93-07455 1 fiche

Le Pacte international sur les droits civils et politiques, le Pacte international sur les droits économiques, sociaux et culturels, et la Convention sur l'élimination de toutes les formes de discrimination à l'égard des femmes énoncent tous certains principes que le Canada, à titre de signataire, est obligé de respecter. Le présent document repère les droits matériels susceptibles de s'appliquer aux nouvelles techniques de reproduction; il propose aussi des voies de recherche en vue d'établir les paramètres des dispositions à adopter par les corps législatifs s'ils entendent respecter l'esprit et la lettre des conventions qui lient le Canada. Le droit à la vie; à la liberté et à la sécurité de la personne, de se marier et de fonder une famille, à la vie privée et à la vie de famille; à l'information et à l'éducation; à la santé génésique et aux soins de santé; aux avantages du progrès scientifique; et à la non-discrimination sexuelle, voilà autant de droits susceptibles d'entrer en jeu lorsqu'il est question des nouvelles techniques de reproduction.

Questions juridiques soulevées par la recherche et les traitements faisant appel à des embryons et à des tissus foetaux

par B.M. Dickens. Ottawa : Commission royale sur les nouvelles techniques de reproduction, 1991. viii, 13 p. Bibliogr. *L'éd. anglaise (Legal issues in embryo...) sur la même fiche.* ISBN 0-662-97057-8
MICROLOG 93-07452 1 fiche

Les gamètes, les embryons avant leur implantation (les pré-embryons), les embryons, et les foetus peuvent faire l'objet d'interventions médicales sur la vie humaine avant la naissance. Le Code criminel reconnaît un enfant qui n'est pas encore devenu en être humaine, c'est-à-dire un foetus à terme sur le plan de la gestation ou qui, à tout le moins, peut vivre de façon autonome à l'extérieur de l'utétus, c'est-à-dire qu'il n'est pas complètement sorti vivant de sein de sa mère. La présente étude porte sur les pré-embryons, tant *in vivo* qu'*in vitro*, ainsi que sur les embryons et les foetus *in utero*. Les présente étude traite du sujet selon quatre catégories distinctes: les traitements visant des préembryons, des embryons et des foetus particuliers; les traitements au profit des pré-embryons, des embryons et des foetus en général; les traitements utilisant des tissus embryonnaires ou foetaux au profit des patients et patientes; et le développement de la commercialisation des tissus embryonnaires ou foetaux.

Questions touchant l'ensemble de la région du centre-sud de l'Ontario : document de travail

Toronto : Ministère des affaires municipales, 1993. 27 p. : ill., cartes géogr. *L'éd anglaise (Cross-boundary issues in south central Ontario...) sur la même fiche.*
MICROLOG 93-08440 1 fiche

Au-delà des limites de la région du Grand Toronto, s'étendant d'Orillia jusqu'à Brantford, le centre-sud de l'Ontario est une région aux prises avec des questions d'urbanisation et d'aménagement rural qui défient les limites municipales. Le présent rapport a pour objet d'élucider les répercussions de la croissance à long terme et les questions de viabilisation auxquelles font face les collectivités du centre-sud de l'Ontario. En prenant du recul pour voir la situation dans son ensemble, on sera en mesure de passer en revue les possibilités et les problèmes communs des localités. Le contenu de ce rapport devrait stimuler la discussion sur les solutions que l'on pourrait apporter conjointement à ces problèmes: population et logement, emploi et économie, espaces verts et richesses naturelles, agriculture, transports, services d'eau et d'égouts, peuplement urbain et rural, conséquences des tendances du peuplement, et des propositions visant à résoudre les questions touchant l'ensemble de la région.

R.H. Saunders GS Unit no. 4 : deformation and stress measurements, 1990-91

by D.A. McKay. Toronto : Ontario Hydro, Research Division, 1992. iii, 378 p. : ill. (Report ; no. 91-312-K)
MICROLOG 93-03118 4 fiche

The R.H. Saunders Generating Station was built in the mid to late 1950s near Cornwall, Ontario. The problem of the turbine runner blades rubbing the scrollcase throat ring became a real concern during the mid 1970s when the hydraulic efficiencies of the generating units were adversely effected. Several theories were advanced to explain the problem but none were more than speculation. This project installed an instrumentation system to measure movements at critical locations in and around generator number 4 during a dewatering/watering up cycle. This report gives the results of borehole measurements, measurements taken in the sliding micrometer and trivec holes, the installation and measurement of tape extensometer points, and stress measurements.

R/V W.E. *Ricker* juvenile Pacific cod *Gadus macrocephalus* survey off the southwest coast of Vancouver Island, September 21-October 2, 1992

by C.M. Hand...et al. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1993. iv, 77 p. : ill., maps. Bibliogr. (Canadian data report of fisheries and aquatic sciences , no 899) ISSN 0706-6465
MICROLOG 93-08989 1 fiche

During the period Sept. 21 to Oct. 2, 1992, the R/V W.E. Ricker completed an exploratory survey of juvenile (1 plus years) Pacific cod off the southwest coast of Vancouver Island. The purpose of the survey was to obtain information on the distribution of juvenile Pacific cod with which to design future quantitative surveys, as part of the stock assessment process. A secondary purpose was to conduct a halibut bycatch mortality experiment. A total of 42 hauls were completed in 16 locations. This report contains summaries of the bridge log data and biological data located on the survey, including weights and numbers for species caught and stomach content data. A summary of temperature and salinity profiles are also included.

The Radiation characteristics of an HF log-periodic antenna used for ground wave propagation

by S.A. Saoudy and F. Hartery. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1992. 6 p. : ill. Bibliogr. (C-CORE publication ; no. 92-13) *Paper presented at the Symposium on Antenna Technology and Applied Electromagnetics.*
MICROLOG 93-07750 1 fiche (Available on fiche only)

Northern Radar's Cape Race prototype Ground Wave Radar (GWR) system employs a Log-Periodic Dipole Array (LPDA) as the transmitter antenna. The LPDA is chosen due to its broadband, wide azimuthal beam width and high front back ratio. This document evaluates the radiation characteristics of a wire model that closely represents the LPDA of the Cape Race GWR. The effects on the radiation characteristics of the antenna, due to the inclination from vertical of the dipole elements, are studied. The results are based on the moment method.

Rail intermodal marketing strategies : wholesale versus retail : final report

prepared for Transport Canada ; [by] J. Jones and C. Schwier. Kingston, Ont. : Queen's University, Canadian Institute of Guided Ground Transport, 1991. x, 109 p. (CIGGT report ; no. 90-10) *CSI 97964 205* ISBN 0-88922-092-3
MICROLOG 93-06524 2 fiche (Available on fiche only)

This study quantified the relative importance of retailing and wholesaling within the Canadian intermodal industry and estimated the extent of market penetration of intermodal in this country; surveyed trends in intermodalism in the United States, focusing on the reasons for the differences in intermodal strategy between Canada and the U.S. and on recent examples of retail strategies by certain U.S. railways, and assessed the likelihood of changes in intermodal marketing strategies in Canada in the wake of regulatory reform and changing trade patterns.

Railway colour light signal : preliminary design

prepared for Transportation Development Centre, Transport Canada ; by J.H. Lougheed, D. Wong. Ottawa : Davis Engineering Limited, 1984. xiii, 182 p. : ill. Bibliogr.
MICROLOG 93-01462 3 fiche

Current railway signals require regular replacement of the tungsten lamp and are increasingly prone to failure. This report describes the preliminary design of a replacement signal unit using arrays of high-luminance, narrow-angle light emitting diodes (LEDs) for the light source. Worldwide sources of LEDs were researched and samples obtained and evaluated for luminance, spatial distribution and colour. Several optical concepts were tested, and a progression of lab models were constructed and tested photometrically and visually. Physical and electrical integration with existing CN Rail signalling systems were investigated and chromaticity differences between existing signal specifications and available LEDs were explored and minimized for red and yellow with the green achievable being less blue.

Railway colour light signal, phase II : prototype development, final report

prepared for Transportation Development Centre ; by J.H. Lougheed, D. Wong and L. Davidson. Ottawa : Davis Engineering Limited, 1985. x, 184 p. : ill.
MICROLOG 93-01981 3 fiche

This report describes the second phase of a research project to replace conventional lamps with solid-state light-emitting-diodes (LEDs) in railway colour light signals. Phase II focused on the design and manufacture of prototypes suitable for field viewing. Two concepts were developed, including a retrofit package for existing signals and an optimized array taking full advantage of unique features of LEDs. The report details the development process, the resultant hardware and measured performance. Partial records of major meetings and formal tests are also provided.

Bureau de la sécurité des transports du Canada. Ottawa : le Bureau, 1993. iv, 39 p. : ill. (Rapport d'enquête sur accident aéronautique ; no A90-P0121) *L'éd. anglaise (Aviation occurrence...Canadian Helicopters...) sur la même fiche.*
MICROLOG 93-07331 1 fiche

L'helicoptère Bell 212 servait au transport de skieures dans la région du mont Cariboo (Thunder River) en Colombie-Britannique. Le pilote a atterri sur un piste de ski située sur un glacier pour prendre des skieures et les transporter au sommet du glacier. Le pilote a amorcé un virage lent à droite à basse altitude en vent arrière pour s'éloigner du relief élevé droit devant. Après le virage, le pilote s'est rendu compte que le régime du rotor principal chutait et il a décidé de tenter d'atterrir de nouveau sur le glacier. Au contact avec le sol, les patins se sont enfoncés dans la neige, l'hélicoptère s'est retourné et s'est immobilisé sur le côté gauche. Un violent incendie a éclaté immédiatement après l'impact. Ce rapport d'enquête porte sur cet accident aéronautique et examine les renseignements de base, l'analyse, les conclusions, et mesures de sécurité.

Le Beechcraft C99 airliner effectuait un vol intérieur régulier entre Timmins (Ontario) et Moosonee (Ontario) avec deux pilotes et deux passagers à son bord. Pendant une approche à vue, l'avion s'est écrasé à sept milles à l'est-nord-est de l'aéroport de Moosonee. Il a été détruit par le choc et par l'incendie qui s'est déclaré après l'écrasement. Le commandant de bord et les passagers ont été grièvement blessés; le copilote a subi des blessures mortelles. Ce document donne des renseignements de base, une analyse de l'accident, les conclusions, et les mesures prises et à prendre pour cette accident.

Comme 1re étape de l'examen environnemental de son Plan directeur, la Municipalité régionale d'Ottawa-Carleton a tenu une tribune publique le 20 février 1993. Il s'agissait de recueillir l'avis de la population concernant le projet de cadre pour l'examen environnemental. Ce rapport constitue un résumé des principaux points soulevés par les citoyens lors de la Tribune sur l'environnement. Des fonctionnaires et des consultants ont également participé à la tribune à titre de personnes-ressources dans chaque discussion en atelier.

Rapport de la Réunion d'étude sur le renforcement de l'évaluation environnementale des politiques

par F. Bregha. Hull, Québec : Conseil canadien de la recherche sur l'évaluation environnementale, 1990. 45 p. (Rapport manuscrit ; MR3-90) *L'éd. anglaise (Report on the Workshop..) : 93-05331/1*
MICROLOG 93-05332 1 fiche

Ce document présente le rapport de la réunion d'étude sur le renforcement de l'évaluation environnementale des politiques. Il examine tout d'abord la question d'amputabilité, soit les approches, les buts, et l'évaluation des politiques. Ensuite, il aborde l'accès du public, dont l'accès à l'information et la participation du public. Finalement, il jette un regard sur la façon de mesurer l'efficacité et les considérations d'ordre institutionnel.

2J3KL. Il se présente comme suit: au chapitre II, on fait le point sur la pêche à la morue côtière en 1990. Le chapitre III est consacré aux aspects fondamentaux des objectifs de gestion de la pêche à la morue de la zone 2J3KL. Les principales recommandations du rapport Harris concernant la gestion des pêches sont examinées aux chapitres IV, V, VI et VII. La question de la pêche étrangère dans la zone canadienne et de ses effets sur la morue de 2J3KL est traitée au chapitre VIII. Au chapitre IX, on aborde divers aspects touchant la surveillance et l'application de la réglementation. Le chapitre X est consacré au débat que suscite actuellement la définition de 'véritables' pêches côtières et hauturières. Les questions entourant les permis destinés aux pêcheurs et bateaux de la pêche côtière sont abordées au chapitre XI. Enfin, au chapitre XIII, on fait l'analyse des communications concernant les pêches. Le rapport se termine avec le sommaire des recommandations formulées dans chacun des chapitres.

Le Rapport entre la R-D et la croissance de la productivité au Canada et dans d'autres grands pays industrialisés

par P. Mohnen. Ottawa : Groupe Communication Canada, Edition, 1992. viii, 74 p. Bibliogr. *L'éd. anglaise (The Relationship between R&D ..) : 93-01684/1.*
ISBN 0-660-93944-4
MICROLOG 93-01685 1 fiche

Cette étude se compose de trois parties. La première précise la relation conceptuelle qui existe entre la R-D et la croissance de la productivité, et fait le tour des travaux empiriques publiés sur cette question. L'analyse vise à répondre à trois questions bien précises: quels sont les taux de rendement de la R-D pour la société et le secteur privé? Ces taux varient-ils selon la méthode employée pour les estimer? Les résultats diffèrent-ils selon les secteurs et les pays? La deuxième partie présente les résultats d'une nouvelle étude empirique de la R-D menée à l'étranger et de ses retombées dans le secteur manufacturier canadien, où elle influe sur la productivité. Les contributions respectives de la R-D interne et de la R-D importée sont également évaluées et comparées. La conclusion expose des recommandations de politique publique formulées à la lumière des données recueillies au sujet du rôle de la R-D dans la croissance de la productivité.

Rapport final de la Commission d'enquête sur les locaux scolaires à Ottawa-Carleton

Ontario. Commission d'enquête sur les locaux scolaires à Ottawa-Carleton. Ottawa : la Commission, 1991. v, 120 p. : ill., cartes géogr. *L'éd. anglaise (The Final report of the Commission...) : 93-01232/2. ONTERIS: ON06017*
MICROLOG 93-01247 2 fiche

Traite des locaux scolaires à Ottawa-Carleton. Les données proviennent des mémoires de 600 personnes et groupes, ainsi que de ceux du ministère de l'Éducation et de cinq conseils scolaires, qui ont servi de base à une étude préliminaire, publiées en anglais et en français, le 4 septembre 1990. A l'occasion de trois jours d'audiences publiques et ateliers, organisés par la Commission, dans les deux langues officielles, 175 personnes ont exprimé leurs points de vue. Deux groupes de travail (un formé d'enseignant(e)s et l'autre d'élèves) ont fourni avis et conseils sur le problème de la communauté, de gérer le changement à long terme, dans le domaine des droits et des possibilités d'accès à l'éducation. La stabilité à long terme, pourrait être réalisée par l'application d'une solution immédiate relative à la répartition des installations scolaires; par l'adoption de mesures, destinées à améliorer la collaboration et les activités de planification entre les conseils; et par l'application des dispositions, à long terme, afin d'encourager l'instauration d'un climat stable, favorable à la planification des ressources scolaires et à leur juste répartition. Toute solution passe par une approche axée sur les élèves et par la prise en compte de leurs intérêts et de leurs droits. 13 annexes complètent le document.

Rapport sommaire de l'Etude sur la participation aux activités de loisirs en Ontario

Toronto : Ministère du tourisme et des loisirs, 1990. ii, 14, ii, 14 p. : ill. *Bilingue (Summary report of the Ontario Leisure...).*
MICROLOG 93-00251 1 fiche

Cette recherche a été amorcée dans le but d'étudier les activités auxquelles s'adonnent les Ontariens pendant leurs loisirs. Elle tente de rendre compte de toutes les activités auxquelles s'adonnent les gens lorsqu'ils ne sont pas au travail, à l'école, ou en train de se livrer à des activités essentielles de la vie courante (comme les achats de vivres, la cuisine, les repas, le nettoyage ou le sommeil). Les formes de loisirs étudiées ont été regroupées en 19 grandes catégories (Annexe 1); on a demandé aux personnes interviewées si elles participaient souvent, parfois, rarement ou jamais aux activités de chaque catégorie.

Rate of return model

by A.H.C. Chan and J. Kwik. Toronto : Ontario Hydro, Research Division, 1992. i, 31 p. (Report ; no. 92-17-K)
MICROLOG 93-02933 1 fiche

In response to concerns expressed by the municipal utilities, the Rate Structures Dept. of Energy Management Branch is reviewing the existing rate of return criterion used in municipal utility regulations. Their objectives are to provide a clear explanation of the rationale supporting the criterion, and to determine whether modification is required. Data used in the analysis was 1986-1989 actual data for 310 Ontario municipal electric utilities obtained from the Municipal Utility Data Bank (MUDBANK). In the absence of a model which describes the historical relationship between rate of return and financial and growth variables, a mathematical model was derived that will aid the utilities in identifying the degree to which individual financial components affect their rate of returns.

Rationalization of house energy systems : final report

Caneta Research Inc.. Ottawa : Canada Mortgage and Housing Corporation, Research Division, 1992. 64 p. Bibliogr.
MICROLOG 93-03147 1 fiche

This study determined, through the analysis of household electrical energy use and the assessment of a variety of integrated systems, what options make sense in the rationalization of house energy use. The study also provided good documentation of the energy system rationalization options to facilitate reassessment as technology developments improve performance and/or reduce costs. Three single-family house models spanning a wide range of envelope efficiency levels were assembled within an hour by hour computer model along with as many of the energy system options as could practically be incorporated. Each system was simulated in each house type in three Canadian cities, selected for their diverse climates. The system costs were estimated and the results tabulated and analyzed.

Rationalization study of the Quebec North Shore railways : final report

S.l. : Canada-Quebec Subsidiary Agreement on Transportation Development 1985-1990, 1987. xi, 25 p. : maps.
MICROLOG 93-03114 1 fiche

This report presents the organization, installation and operation of the railways, using an average ore transportation cost since the specific company costs are confidential. It evaluates the capital cost to construct north and south junction-lines between the existing networks and gives a capacity analysis for two operation scenarios. This is followed by a discussion of the corporate and organizational structure of a new rationalized railway, mandated to operate the new railway network. The report determines the operational costs of the rationalized network and calculates its rate of return before income tax; presents the capital cost and the operational savings resulting from the electrification of the rationalized network and evaluates its profit earning capacity; and gives preliminary costs and operation benefits of an automated operation of ore trains.

RBE of tritium beta rays for causes of death other than myeloid leukemia in male CBA/H mice

by D.K. Myers, J.S. Jackson and D.W. Dunford. Ottawa : Atomic Energy Control Board, 1991. 65 p. Bibliogr. (Research report ; INFO-0384)
MICROLOG 93-08401 1 fiche

To help resolve uncertainties as to the most appropriate quality factor for tritium beta rays, a large experiment was carried out earlier to measure the relative biological effectiveness (RBE) of tritiated water compared to X-rays for the induction of myeloid leukemia (ML) in male mice of the CBA/H strain. A total of 279 cases of ML were diagnosed among the 5,206 mice used in the experiment and the RBE of tritium for induction of ML was estimated to be close to 1.2. However, there was also a decrease in average age at death of the remaining mice that did not die of ML. This study estimated the RBE of tritium beta rays for causes of death other than ML in the previous study of male CBA/H mice that had been treated with comparable doses of tritiated water and of X-rays at comparable dose rates.

Re-entry in progress : Canada's transition to noninflationary growth

by D.E.W. Laidler and W.B.P. Robson. Toronto : C.D. Howe Institute, 1993. 16 p. Bibliogr. (Commentary ; no. 51) ISSN 0824-8001
MICROLOG 93-07816 1 fiche

The Canadian economy is undergoing a transition that economists often refer to as "re-entry," from a situation of high inflation and interest rates to one of low inflation and interest rates. This document explains the nature of the re-entry problem and reports on the Bank of Canada's progress in managing Canada's transition to low inflation. It looks at Canada's transition to price stability, the nature of the re-entry problem, interpreting recent money growth, and why the relaxation of policy was delayed. It also provides concluding observations.

Re-evaluating employment equity : a brief to the Special House of Commons Committee on the Review of the Employment Equity Act

Ottawa : Canadian Advisory Council on the Status of Women, 1992. i, 57 p. Bibliogr.
MICROLOG 93-02078 1 fiche

This document evaluates the impact of the Act in the first four reporting years after its implementation. It presents a brief overview of the Act and analyzes the current economic situation of women in the labour force, followed by explanations of their continued labour market inequality. It examines the progress made by women employed in organizations covered by the Act, with particular attention paid to Aboriginal women, disabled women, and women of so-called 'visible minorities.' It also presents an analysis of the relatively weak impact of the Act over the five-year period. It concludes with a series of recommendations aimed at increasing the Act's effectiveness.

Reading in Canada, 1991 : highlights

Ottawa : Ekos Research Associates Inc. ; Communications Canada, 1992. 38, 38 p. . ill. Bibliogr. *Bilingual (La Lecture et les canadiens...). CSI 21102.204.* ISBN 0-662-58892-4
MICROLOG 93-01360 1 fiche

This study was designed to gather up-to-date information on the reading behaviour and opinions of Canadians aged 14 and older. The research describes the current state of consumption and attitudes in today's market, as well as allowing trends analysis based on comparisons with a 1978 readership study. This preliminary highlights report is intended to provide an introduction to some of the major findings of Reading in Canada. It discusses the current status of reading, changes in reading, book reading and buying, and children's reading.

Real property tax 101

by C. Hughes. Victoria : British Columbia Assessment Authority, 1992. 7 p. *This paper was originally presented at the 1992 B.C. Assessment Authority annual seminar.* ISBN 0-7726-7382-9
MICROLOG 93-03882 1 fiche

This document discusses the historic roots of property tax. It looks at the early tax system, the feudal tax system, the modern tax system, and other forms of tax. It then focuses on the tax/assessment system in Canada where property tax is left to local governments. It also looks at taxation in Canada today, principles of property taxation, and components of an ideal property taxation system including administration, accountability, understandability,

neutrality, fairness, and a stable tax base.

Real property taxation : a summary of three alternative systems : poll tax (community charge), proposition 13, land value taxation

by B. Turner. Victoria : British Columbia Assessment Authority, 1992. ii, 22 p. *This paper was originally presented at the 1992 B.C. Assessment Authority annual seminar.*
ISBN 0-7726-7383-7
MICROLOG 93-03884 1 fiche

In British Columbia the real property assessment/taxation system meets most of the criteria of an ideal taxation system. This paper describes how alternative taxation systems that have been implemented compare against criteria for an ideal system. It focuses on the poll tax. It defines the poll tax and compares it with an ideal tax system. It defines proposition 13 and compares it with an ideal tax system. Finally, it discusses land value taxation and compares it with an ideal tax system.

Real-time interpretation of marine resistivity

by W.J. Scott. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1992. 19 p. : ill. Bibliogr. (C-CORE publication ; no. 92-2) *Presented at the Beaufort Sea Granular Resources Workshop.*
MICROLOG 93-07751 1 fiche (Available on fiche only)

This paper describes the development of a real-time interpretation capability for the MICRO-WIP marine resistivity system. The program was carried out for Indian and Northern Affairs Canada. In this program, the MICRO-WIP was rebuilt around a data acquisition system (DAS) and a controlling computer. The system was tested first on a network of resistors designed to simulate conditions observed on a previous survey in the Beaufort Sea. Once the system was proven on the simulator, field trials were undertaken to Okanagan Lake in British Columbia. There the ratios of water resistivity to bottom and sub-bottom resistivities were comparable to those observed in the Beaufort.

Realization of end user controllable protection schemes within a co-ordinated substation control system

by K. Sridharan. Montreal : Canadian Electrical Association, 1992. 8 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06091 1 fiche

This paper describes the tools essential for realization and implementation of protection schemes which are totally designed and controlled by a protection engineer. The scheme may be used within a substation and so take advantage of functions and features available in modern substation control systems. Modern microprocessor based relays and substation control systems permit the user to take advantage of a total system providing protection, control, communication and self-supervision.

Reassessment of the economics of a coast advice system for GO Transit

by G.W. English, T.W. Moynihan and H. Boumeester. Kingston, Ont. : Queen's University, Canadian Institute of Guided Ground Transport, 1989. iii, 19 p. : ill. (CIGGT report ; no. 89-1) *CSI 97964.206.*
ISBN 0-88911-071-9
MICROLOG 93-06522 1 fiche (Available on fiche only)

A team of Australian researchers developed a prototype train-borne computer system that provides visual advice to drivers on fuel efficient driving tactics. The system was tested in Australian service and demonstrated a mean fuel saving of 15% and greatly improved timekeeping. In February 1988, the system was tested on GO Transit revenue service trains in normal service on the Lakeshore route. A one-locomotive, four-coach consist with a cab control cubicle in the last coach was selected for the demonstration. This report describes the testing, the data collection, the model validation, fuel saving predictions, and economic benefits.

Recent Canadian studies on the physiological effects of pulp mill effluent on fish

by J.H. Carey...et al. Ottawa : Environment Canada ; Dept. of Fisheries and Oceans, 1993. 20 p. : ill. Bibliogr.
MICROLOG 93-07183 1 fiche

In December 1991, the federal government announced a Pulp and Paper Regulatory Package that included regulations on the discharge of biochemical oxygen demand, suspended solids and acute toxicity for all pulp and paper mills, as well as placing strict limits on discharges of chlorinated dioxins from pulp and paper mills employing bleaching. During the development of the regulatory package, recent Canadain research confirmed that impacts on wild fish in the receiving environment were associated with the discharge of effluent from Canadian pulp mills. The federal government has set a high priority on identifying the compounds that are responsible for the damage detected in wild fish and on identifying pulping or waste treatment processes that eliminate these effects. This document reviews the data that prompted the federal government studies, and outlines the recent, significant findings on effects of pulp mill discharges in Canadian environments.

Recent observations of air temperature and snow depth in the Mackenzie Valley area and their implications on the stability of permafrost layers

by R.A. Stuart, D.A. Etkin and A.S. Judge Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1991. xx, 178 p. : ill., maps. (Report ; no. 91-2)
MICROLOG 93-00373 3 fiche

Study reviewing atmospheric climate changes in the Mackenzie Valley which are of relevance to the stability of permafrost layers in that region. Changes since 1970 were of particular importance since the most recent work on the climatology of the Mackenzie Valley analyzed data only up to this date. This study was restricted to a review of air temperature, snow depth, and the frost index, which is a measure of the probable presence of permafrost due to climate affects. Only those temperature and snow depth observations available in computer files were analyzed, limiting the study to the post-1940 period.

Recherche en évaluation des incidences environnementales : la problématique reliée à l'évaluation des impacts cumulatifs

par R. Legault. Hull, Québec . Conseil canadien de la recherche sur l'évaluation environnementale, 1989. 156 p. : ill. Bibliogr (Rapport manuscrit ; MR4-89)
MICROLOG 93-06014 2 fiche

La recherche sur l'évaluation des effets cumulatifs s'impose face aux multiples stress que subit l'environnement. La recherche menée jusqu'à maintenant, cependant, a peu influencé les méthodes d'évaluation des effets environnementaux. Pour procéder avec succès à l'évaluation des effets cumulatifs, les praticiens ont besoin d'une méthodologie permettant d'intégrer les diverses méthodes d'évaluation des effets environnementaux tout en définissant à l'avance la corrélation entre les divers effets prévus. Il examine une évaluation environnementale d'un projet de prolongement de corridor routier au Québec, et conclut qu'une évaluation environnementale conventionnelle ne peut se transformer facilement en évaluation des effets cumulatifs.

Reclamation of sterilant affected sites : a review of the issue in Alberta

by M. Cotton and M.P. Sharma. Edmonton : Alberta Land Conservation and Reclamation Council, Reclamation Research Technical Advisory Committee, Oil and Gas Reclamation Research Program, 1992. xii, 64 p. : ill. Bibliogr. (Report ; RRTAC 92-1) ISBN 0-7732-0884-4
MICROLOG 93-03958 1 fiche

In June 1990, a project was initiated to assess the extent of the soil sterilant problem in Alberta and to suggest a research program that would lead to the development of a procedures manual for the reclamation of sterilant affected sites. Sites were identified through a literature review and interviews with government, industry, and research personnel. The project estimated the number of sites requiring reclamation and the types of chemicals used in the past, currently in use, and those scheduled for future use, and described methods for measuring the type and amount of sterilant on an affected site, including soil sampling, soil analysis, and plant bioassays. It also included common methods for reclaiming sterilant affected sites and the concerns of government and industry related to the reclamation of the sites.

Les éditions récentes de 'Recommandations pour la qualité de l'eau potable' ont été mises au point à la suite d'une étude approfondie de la documentation scientifique, technique et médicale de nouveaux paramètres et des paramètres dont la révision s'imposait. Cette édition inclut les recommandations approuvées en juin 1992 par la Conférence des sous-ministres de la Santé. Depuis la dernière

édition aucune indication n'est venue remettre en question la pertinence des valeurs proposées. Par conséquent, on a adoptées ces valeurs et elles apparaissent dans cette édition en tant que recommandations confirmées. Ces lignes directrices et ces recommandations s'appliquent à toutes les sources d'approvisionnement en eau potable, tant publiques que privées. En tout cas elles ne doivent pas être considérées comme des normes ayant force de loi. Le document commence avec une explication des termes pour ensuite continuer avec la description des caractéristiques microbiologiques, des paramètres chimiques et physiques, et de la radioactivité. Il se termine avec la liste des paramètres qui font l'objet d'une revue.

Recommandations pour les cultures légumières, 1992-93

Toronto : Ministère de l'agriculture et de l'alimentation, 1993. 91 p. *Supplément (2 p.) inclus.* ISBN 0836-1428
MICROLOG 93-06957 2 fiche

Ce document présente des recommandations pour les cultures légumières. Pour chaque parasite ou maladie étudiés, on suggère souvent plusieurs antiparasitaires efficaces. Dans la mesure du possible, les produits qui présentent le moins de danger ainsi que ceux dont les producteurs se déclarent satisfaits depuis des années ont été placés en tête de liste; les plus toxiques et les plus récents, moins bien rodés, figurent en fin de liste.

A Recommended waste management activity plan

for the Management Committee Executive, Fraser River Estuary Management Program ; by the Waste Management Activity Program Working Group. New Westminster, B.C. Fraser River Estuary Management Program, Waste Management Activity Program, 1990. xvii, 133 p. : ill., maps. Bibliogr.
MICROLOG 93-01725 2 fiche

The program examined the nature of waste management concerns in the estuary, and developed activities to address the concerns. The report contains the activity plan that discusses recommendations for pollution control activities in the Fraser estuary, and describes an implementation strategy for these activities. Appendices summarize the legislation enabling waste management activities; the background and context of estuarine waste management including the natural characteristics of the Fraser; the nature of contaminants, and information and monitoring initiatives. Areas of concern are categorized by discharge type, based on concerns expressed by member agencies, technical experts, and the public. They include, in order of importance, sewage treatment plants, industrial effluents, urban runoff and combined sewer overflows, agricultural wastes and rural runoff, groundwater contamination, and miscellaneous wastes.

Recovery and management plan for sage grouse in Saskatchewan

by B. Weichel and D. Hjertaas. Regina : Saskatchewan Natural Resources, Wildlife Branch, 1992. vi, 29 p. : ill. Bibliogr. (Wildlife technical report ; 92-5)
MICROLOG 93-01583 1 fiche

This report presents a plan for the retention of sage grouse, a special yet scarce feature of the prairie ecosystem in southwestern Saskatchewan. The report examines what is known of the ecology of the species, its past and current continental and provincial distribution and abundance, and the factors pertinent to restoration potential. Extensive use is made of the literature available from other jurisdictions, a number of which have previously, or still do, allow hunting of sage grouse. The recovery and management plan discusses various options and constraints, and a total of 19 recommendations are included that cover population monitoring, species protection, identification, evaluation, protection and enhancement of habitat, interagency cooperation, and public education and cooperation.

Redfish trawling : feasibility study on trawlers under 19.8 metres long

Quebec : Fisheries and Oceans, Quebec Region, Economic Services Division, 1987. ix, 68 p. (Study ; 87-5A) *French ed. (Chalutage de sébaste...) : 93-03458/1. CSI 21105.280.* ISBN 0-662-94543-3
MICROLOG 93-03454 1 fiche

The increasingly limited availability of fisheries resources is sharpening the focus on the delicate problem of resource allocation, making it necessary to identify the factors that reduce the exploitation of redfish by small trawlers under 19.8 metres (65 feet) and lead to underexploitation of their allocated quota in the Gulf of St. Lawrence. This report profiles the biological, technical and economic aspects of redfish exploitation in Quebec, then analyses the profitability of fishing operations focused on this species by trawlers under 19.8 metres so as to determine the economic feasibility of developing this fishery.

MICROLOG 93-08729 4 fiche

This report provides detailed information about the contributions received and the expenses incurred by the registered committees that participated in the federal referendum on the Constitution of Canada held on October 26, 1992. The report provides a profile of registered committees by province. A synopsis of committee contributions and expenses can be found in the 2d part of this report, while detailed tables setting out the amounts received and spent by each registered referendum committee can be found in the 3d part. Indices conclude the document.

Référendum '92 : contributions et dépenses des comités référendaires enregistrés

Ottawa : Directeur général des élections, 1992. x, 296 p. *Bilingue (Referendum '92 : contributions and expenses...).* ISBN 0-662-59811-3
MICROLOG 93-08729 4 fiche

Ce rapport fournit le détail des contributions reçues et des dépenses engagées par les comités référendaires enregistrés qui ont pris part, le 26 octobre 1992, au référendum fédéral portant sur la Constitution du Canada. On donne un profil des comités référendaires enregistrés. Ensuite on trouve dans la 2e partie du rapport des tableaux synoptiques des contributions et dépenses pour l'ensemble des comités référendaires enregistrés, tandis que la 3e partie présente les tableaux résumant les contributions et dépenses de chacun. Le document se termine avec des indices.

Référendums : l'expérience canadienne dans un contexte international

par M. Dunsmuir. Ottawa : Bibliothèque du Parlement, Service de recherche, 1992. 50 p. Bibliogr. (Etude générale ; BP-271F) *L'éd. anglaise (Referendums : the Canadian...) : 93-01825/1.* ISBN 0-660-93836-7
MICROLOG 93-01826 1 fiche

Les référendums existent depuis longtemps et sous des formes diverses. Ce bulletin se penche sur cette question, soit l'expérience canadienne dans un contexte international en ce qui concerne les référendums. Il se penche surtout sur les points suivants: les lois autorisant les référendums; la présentation du référendum; la formulation de la question; les conséquences d'un référendum; les mesures faisant l'objet d'un référendum; la réglementation du processus référendaire; et, le décompte des suffrages.

Referendums : the Canadian experience in an international context

by M. Dunsmuir. Ottawa : Library of Parliament, Research Branch, 1992. 45 p. Bibliogr. (Background paper ; BP-271E) *French ed. (Référendums : l'expérience...) : 93-01826/1.* ISBN 0-660-14575-8
MICROLOG 93-01825 1 fiche

Discussions of referendums tend to vary in terminology and approach. There is, for example, no definitive breakdown of the various types of referendum. This paper discusses various aspects of a referendum such as who initiates it, its effect, and purpose, and gives examples of how various countries deal with these. Throughout the paper, there are references to Canada's two national referendums (on prohibition, 1898, and on conscription, 1942), to the Confederation referendums in Newfoundland in 1948, and to the various referendum criteria proposed from 1978 to 1980.

Refugee protection : the international context -- Rev.

by M. Young. Ottawa : Library of Parliament, Research Branch, 1992. 11 p. (Background paper ; BP-280E) *French ed (Protection des réfugiés...) on the same fiche Revised November, 1992.* ISBN 0-660-14919-2
MICROLOG 93-07433 1 fiche

There are many people in the world whose lives, liberty or security are in jeopardy Some are threatened by political oppression, natural disasters, or economic conditions that make subsistence difficult or impossible. Still others flee war or civil strife. Such situations may force many individuals to leave their homes to seek refuge or security elsewhere, either in other countries or in different parts of their own country. These individuals may be called refugees. In international and national legal systems and practice, however, the term carries a much more limited and technical meaning. This paper deals with 'refugees' in its more technical sense, currently some 17-18 million people worldwide. It provides an overview of the international system that has developed to protect the human rights of refugees.

Le Régime de rentes du Québec : statistiques, 1992

Québec : Régie des rentes du Québec, Direction de la statistique et du développement des programmes, 1993. 127 p. ISSN 1192-2540 ISBN 2-550-27862-3
MICROLOG 93-07822 2 fiche

La première section de ce document traite des dispositions générales du Régime: y figurent les principaux paramètres du Régime ainsi que l'évolution des entrées et des sorties de fonds et, par voie de conséquence, l'évolution de la caisse du Régime. La seconde section porte surtout sur les cotisants. Elle renferme des statistiques sur l'évolution du nombre des travailleurs et des cotisants au Québec et sur leurs gains moyens. Elle contient aussi des informations sur le partage des droits à la suite d'un divorce, d'une séparation légale ou d'une annulation de mariage. Les autres sections portent sur les bénéficiaires du Régime de rentes du Québec. En plus d'une section générale sur l'ensemble des bénéficiaires, on retrouve des sections spécifiques sur les bénéficiaires d'une rente de retraite, de prestations de survivants, de prestations d'invalidité et, selon une tendance qui s'accentue d'année en année, d'une rente combinée.

Regime switching as a test for exchange rate bubbles

by S. Van Norden. Ottawa : Bank of Canada, 1993. v, 57 p. : ill. Bibliogr. (Working paper ; 93-5) ISSN 1192-5434 ISBN 0-662-20614-2
MICROLOG 93-06851 1 fiche

This paper develops a new test for speculative bubbles which is applied to data for the exchange rate of the Japanese yen, the Deutsche mark and the Canadian dollar against the US dollar from 1977 to 1991. The test assumes that bubbles display a particular kind of regime-switching behaviour, which is shown to imply coefficient restrictions on a simple switching-regression model of exchange rate innovations. Test results are sensitive to the specification of exchange rate fundamentals and other factors.

Regional colleges, partners in rural renewal : report

Saskatchewan. 1992 Regional Colleges Committee of Review. Regina : The Committee, 1993. vii, 78 p. : ill.
MICROLOG 93-07575 1 fiche

The 1992 Regional Colleges Committee of Review was asked to advise the Minister on three areas concerning the 1987 mandate for regional colleges. The three areas were current program offerings, provision for permanent facilities, and the impact of eliminating urban colleges. This report addresses these three areas. It also presents information on governance, accountability, accessibility, coordination, and special undertakings including the Meadow Lake Vocational Centre, Northlands College, and Lakeland Regional College.

Regional development in Canada -- Rev.

by G. Beaumier. Ottawa : Library of Parliament, Research Branch, 1992. 16 p. Bibliogr. (Current issue review ; 88-13E) *French ed. (Le Développement régional au Canada) : 93-00942/1. Revised 12 May, 1992.* ISBN 0-660-14631-2
MICROLOG 93-03138 1 fiche

Almost from the beginning of Confederation, the federal government has implemented programs that affected some regions more profoundly than others. Such programs were never part of a federal regional development policy, however, until the 1960s, when federal politicians became aware of differences in the levels of regional prosperity and accepted the responsibility of eliminating them. This paper reviews federal regional development policy since World War II, a period in which both the federal and provincial governments have expended considerable resources in trying to narrow regional disparities in Canada.

Regional geochemical reconnaissance of Archean metavolcanic-metasedimentary belts in the Pukaskwa region

by W.J. Wolfe. Toronto : Ministry of Natural Resources, Division of Mines, 1976. vi, 54 p. : ill., maps. Bibliogr. (Geoscience report ; 158)
MICROLOG 93-00871 1 fiche

The Pukaskwa region is located on the north shore of Lake Superior between Wawa and Marathon, south and west of Highway 17. The geochemistry project was mainly conducted to collect basic geochemical exploration data to be used for a regional evaluation of base metal potential in the two relatively unexplored Archean metavolcanic-metasedimentary belts that occur. This report describes the location and access of the area; its physical features and general geology; and its geochemistry.

Regional social issues : considerations for 'The Livable region strategy' : a focus paper

prepared for the Technical Advisory Committee, Greater Vancouver Regional District ; by Michael Clague ; in collaboration with Leslie Kemp and Josephine Rekart. Vancouver, B.C. : GVRD Development Services ; Social Planning and Research Council of British Columbia, 1988. iv, 45 p. Bibliogr.
MICROLOG 93-07919 1 fiche

The task of this report is to identify social issues of regional scope in the Greater Vancouver Regional District. This means uncovering matters which represent both potential social problems and social opportunities that will affect the quality of life for the next few years. From these the GVRD and its members can draw goals and strategies for action. The two main tasks set out for this study were to identify the range of social issues which might be considered regional in scope; and to identify the relationship between the social issues and other topics dealt with by the Livable Region Strategy. Information for this study was obtained throught interviews, existing community plans and Statistics Canada documents.

Register of United States barriers to trade

Ottawa : External Affairs and International Trade Canada, 1992. 24 p.
MICROLOG 93-02673 1 fiche

Canada and the United States are each other's principal trading partners. The bilateral Free Trade Agreement has considerably enhanced this relationship and reduced barriers to trade on both sides of the border. Obstacles to the free flow of goods, services, and investment between Canada and the United States remain at the federal, state, and local levels. This register offers an illustrative compendium of the range and complexity of barriers that Canadian business people must cope with daily.

Une Réglementation canadienne adaptée aux réalités de l'heure : réponse du gouvernement au rapport du Sous-comité de la réglementation et de la compétitivité

Ottawa : Conseil du trésor du Canada, Secrétariat, 1993. 47, 42 p. *Bilingue (Responsive regulation in Canada : the government...). Points saillants (10, 8 p.) inclus.*
MICROLOG 93-07105 2 fiche

Dans le Budget de 1992, le gouvernement demandait au Comité permanent des finances de la Chambre des communes d'étudier les répercussions de la réglementation fédérale sur la compétitivité des entreprises canadiennes. Même s'ils endossent le processus et la politique de réglementation établis au cours des sept dernières années, les membres du Comité ont toutefois convenu, dans leur ensemble, qu'il y avait lieu d'y apporter des améliorations. Le présent document décrit la façon dont le gouvernement entend relever le défi d'un monde qui évolue vite, en adaptant davantage le régime de réglementation du Canada aux réalités d'aujourd'hui.

Réglementation et conception des bâtiments au Canada

par R.A. Hewett et G.L. Walt. Ottawa : Conseil national de recherches du Canada, Institut de recherche en construction, 1992. vii, 98 p. : ill. (Compte rendu ; no 17) *Exposés présentés dans le cadre du Regard '91 sur*

la science du bâtiment. L'éd. anglaise (Canada's framework for the regulation and...) : 93-05547/1. ISSN 0835-6548
MICROLOG 93-05548 2 fiche (Available on fiche only)

Ce document analyse les éléments de deux groupes d'activités mises en oeuvre pour déterminer les exigences et vérifier la conformité en matière de bâtiments au Canada. Les parties 1 et 2 résument l'information transmise lors des deux principales séances de la série de séminaires Regard 91 sur la science du bâtiment. Elles font aussi état de plusieurs organismes et donnent une brève description des services qu'ils offrent à l'industrie et des documents qu'ils publient. La partie 3 expose sommairement les codes modèles et les principales normes qui ont une incidence sur la construction des bâtiments et qui sont cités par leur nom ou qui constituent le fondement des lois et règlements provinciaux et territoriaux et des arrêtés municipaux. Elle contient aussi une liste des organismes de réglementation dans chaque province et chaque territoire, avec leurs coordonnées. La partie 4 fournit une liste alphabétique des sigles des organismes mentionnés dans les parties 1, 2 et 3 avec leur adresse, numéro de téléphone et numéro de télécopieur. Il y est aussi fait mention d'autres organismes qui publient des normes citées dans le Devis directeur national ainsi que dans le Code national du bâtiment, le Code national de prévention des incendies et le Code canadien de la plomberie ainsi que des associations qui publient de l'information technique utilisée dans l'industrie de la construction.

La Relance au collégial : situation au 31 mars 1991 des diplômés et diplômées de 1989-90 de l'enseignement collégial : formations préuniversitaire et technique

Québec : Ministère de l'enseignement supérieur et de la science, Direction générale de l'enseignement collégial, Direction de la recherche et du développement des collèges ; Ministère de l'éducation, Direction générale de la recherche et du développement, Direction des études économiques et démographiques, 1992. xiii, 283 p. : ill. *CSI 67322.100.* ISBN 2-550-26244-1
MICROLOG 93-06705 4 fiche

Ce document est une enquête menée auprès des sortantes et des sortants des programmes d'enseignement préuniversitaire et technique dix mois après la fin de leurs études dans un cégep, une école gouvernementale ou un collège privé. L'ouvrage se subdivise en quatre parties. La première regroupe quelques notes méthodologiques qui sont suivies d'une synthèse des principaux résultats. par la suite, le lecteur prendra connaissance des informations concernant les diplômés de la formation préuniversitaire (5 tableaux) et de celles portant sur les diplômés de la formation technique (168 tableaux). Lorsque cela sera pertinent, notamment pour les programmes ayant au moins 50 diplômés, quelques commentaires accompagneront les tableaux. Ces analyses descriptives permettent de faire ressortir les éléments importants et, ainsi, de dégager un constat d'ensemble. L'information retenue varie selon la formation reçue. Ainsi, dans les tableaux portant sur la formation préuniversitaire, l'accent est mis sur la fréquentation universitaire. Les tableaux portant sur la formation technique traitent pour l'essentiel, du marché du travail. En sus, y sont ajoutées quelques indications sur la fréquentation scolaire de ces diplômés du collégial.

The Relationship between Canadian Prairie dry and wet months and circulation anomalies in the mid-troposphere

by J.L. Knox and R.G. Lawford. Saskatoon, Sask. : National Hydrology Research Centre, Atmospheric Environment Service, Canadian Climate Centre, 1989. viii, 54 p. : maps. Bibliogr. (Report ; no. 89-3)
MICROLOG 93-00253 1 fiche

Wet and dry months are identified on the Canadian Prairies from 1946-85 and their relationship with the circulation at the 50 kPa level is investigated. The target area is first subdivided into five zones on the basis of characteristic differences in precipitation climatology, and for each zone in turn, the dates of occurrence of dry and wet months are determined. These events are then grouped according to five 'seasons' and of these, much of the analysis focuses on the spring, defined as April and May, and early summer, June and July. Anomaly fields for the northern hemisphere are constructed at the 50 kPa level by 'season' and zone, and for the dry and wet groupings respectively. The extent to which these teleconnectivities might be used for prediction of dry or wet months is

The Relationship between coal petrography and depositional environments from selected coal basins in Canada

by W.D. Kalkreuth...et al. Halifax : Dept. of Mines and Energy, Mineral Resources Division, 1991. 56 p. : ill., maps. Bibliogr. (Contribution series ; 91-011) *In* International Journal of Coal Geology : *19, 1991.*
MICROLOG 93-06841 1 fiche

Current research in Canada relating to the sedimentology of coal-bearing sequences and the petrographic character of contained seams from selected intermontane and foreland basin settings is reviewed. Formations reviewed include the intermontane Cumberland and Stellarton basins of Nova Scotia, and the Lower Cretaceous Gates Formation in the Western Canada Basin. The approaches to interpretation of the depositional environments of these formations included regional sedimentological data, distribution of organic matter, use of macroscopic character, and use of facies-critical macerals.

The Relationship between counselling intervention and self-esteem in underachieving high school students

by R.M. O'Hara. St. Catharines, Ont. : Brock University, Faculty of Education, 1991. vi, 99 p. : ill. Bibliogr. *ONTERIS: ON06098.*
MICROLOG 93-05959 2 fiche

Examines the impact of a 6-session counselling intervention on the self-esteem of a group of underachieving high school students. Changes in academic results were investigated prior to and after the invervention. Seven subjects were selected on the basis of a noticeable decline in school progress from the late elementary school grades to the early high school grades. All subjects were pretested prior to counselling and posttested upon completion of the 6th counselling session, with the Coopersmith Self-Esteem Inventory. Non-parametric statistical techniques were used to determine change in self-concept between the pre- and post-tests. Chi square was used to determine gender differences.

The Relationship between R&D and productivity growth in Canada and other major industrialized countries

by P. Mohnen. Ottawa : Canada Communication Group, Publishing, 1992. ix, 68 p. Bibliogr. *French ed. (Le Rapport entre la R-D et la...) : 93-01685/1.* ISBN 0-660-14684-3
MICROLOG 93-01684 1 fiche

This study clarifies the conceptual link between R&D and productivity growth and surveys the empirical literature on this topic. The analysis addresses three specific questions: What are the social and private rates of return on R&D? Are they sensitive to the way they are estimated? And do the results differ across industries and countries? It presents the results of a new empirical study of R&D conducted abroad and how that R&D spills over into the Canadian manufacturing sector and affects productivity. Finally it presents a discussion of policy recommendations in the light of the evidence gathered concerning the role of R&D in productivity growth.

Relationships between logging methods, habitat structure and bird communities of dry interior Douglas-fir, ponderosa pine forests of British Columbia

by K.H. Morgan...et al. Delta, B.C. : Canadian Wildlife Service, Pacific and Yukon Region, 1989. ii, 48 p. : ill. Bibliogr. (Technical report series ; no. 71) ISSN 0831-6481
ISBN 0-662-17079-2
MICROLOG 93-00179 1 fiche

In the dry interior Douglas-fir and ponderosa pine forests of British Columbia, logging is conducted on the basis of minimum diameters or as a percentage of various diameter classes. While there have been many studies in the U.S. examining the effects of forestry practices on bird communities, there are only a few studies in Canada. This study determined the densities of breeding bird species in logged and unlogged coniferous forests; analyzed at the bird community, guild and species levels the response to differences and changes in vegetation; and identified the habitat components to which the avifauna was responding.

The Relative importance of competition, microsite, and climate in controlling the stem taper and profile shape in jack pine

by D.M. Morris and R.R. Forslund. Ottawa : National Research Council Canada, 1992. 5 p. Bibliogr. *In* Canadian Journal of Forest Research : *vol. 22, no. 12, 1992.*
MICROLOG 93-06371 1 fiche

Study to identify the relative importance that environmental factors have on the taper and profile shape of mature jack pine stems. A total of 60 dominant trees from six different stands (10 per stand), were felled and measured to determine stem size, taper, and profile shape. Total height, basal age, and diameters at three locations (breast height, 20% total height, and 70% total height) were collected. The last two diameters were then used to calculate stem taper and profile shape. Data on competition (four variables) and microsite (10 variables) were collected. Six climatic variables were interpolated from nearby weather station data.

Reliability criteria review : ranking contingencies

by B.L. Silverstein and D.M. Porter. Montreal : Canadian Electrical Association, Engineering and Operating Division, Power System Planning and Operating Section, Power System Reliability Subsection, 1992. 8 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference*
MICROLOG 93-06077 1 fiche

The foundation of bulk system planning criteria is a table which lists contingencies that planners must examine and which sets the minimum acceptable performance level for those events. The tables were developed based on planners' experience and intuition, but without a formal framework. Historical data and models for multiple outages are used to examine the likelihood of various contingencies. Discussion covers sources of outage data, followed by an examination of line, generator, and transformer failures. The probability of multiple contingencies is calculated, along with an analysis of the impact of cold weather on outages. In conclusion, the contingencies are ranked and developed into a performance table and comments are given for revisions to the Bonneville Power Administration criteria.

Reliability of modern all-film power capacitor banks

by B.K. Gupta, H. Stuckless and C. Konanur. Montreal : Canadian Electrical Association, Engineering and Operating Division, Electrical Apparatus Section, Station Equipment Subsection, 1992. 8 p. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06037 1 fiche

Ontario Hydro has used modern all-film capacitor banks since 1986. Most of these banks are externally fused except four banks which have internally fused capacitors. In general, all-film capacitors have served reliably to date. However, there have been a number of failures. Operating experience with all-film capacitors, failures that have been experienced, capacitor bank protection, accelerated aging tests, and improved quality control tests are discussed.

Rémanence des résidus de fénitrothion dans l'environnement d'une forêt de conifères

par K.M.S. Sundaram et R. Nott. Sault-Ste-Marie, Ont. : Forêts Canada, Institut pour la répression des ravageurs forestiers, 1986. iii, 14 p. Bibliogr. (Rapport d'information ; FPM-X-75F) *L'éd. anglaise (Persistence of fenitrothion...) : 88-01093/1.* ISSN 0704-772X ISBN 0-662-94287-6
MICROLOG 93-02783 1 fiche

La rémanence du fénitrothion épandu par voie aérienne a été étudiée dans divers substrats dans huit parcelles établies dans les forêts du Nouveau-Brunswick. Des échantillons de l'air, de l'eau, des sédiments, des plantes aquatiques, des poissons, du feuillage de sapin baumier, du sol de la forêt et de la litière y ont été prélevés, dans des parcelles non arrosées durant le programme d'arrosages opérationnels en 1982. Ce document se penche sur cette question et examine la rémanence des résidus de fénitrothion dans l'environnement d'une forêt de conifères. Il porte particulièrement sur le choix des parcelles, l'échantillonnage des substrats, les échantillons provenant des parcelles témoins, et les méthodes d'analyse.

Le Remblayage des mines souterraines du Québec

par Département d'ingénierie minière, Université McGill et Unité de recherche et de service en technologie minérale de l'Abitibi-Témiscamingue. S.l. : Entente auxiliaire Canada-Québec sur le développement minéral 1985-1991, 1991. 2 v. : ill. Bibliogr. (Rapport ; LRM 93-018) *Contient: Vol. 1 : Étude technique et économique de la technologie du remblayage pour les mines souterraines du Québec -- vol. 2 : Faisabilité économique et technique des systèmes de remblayage dans les mines souterraines du Québec : compilation des données et modèles de coûts.*
MICROLOG 93-06882 7 fiche

Afin de quantifier les facteurs qui influencent la stabilité du remblai et de minimiser les coûts, il est essentiel d'adopter une approche rationnelle et pratique, qui permettra aux exploitants d'utiliser efficacement cette technologie. Fondamentalement, cette approche consiste à déterminer la composition du remblai et la quantité d'au nécessaire pour produire un mélange dont les propriétés physiques et mécaniques permettraient de générer la résistance voulue tout en partant de notions de géométrie de chantier jusqu'à l'analyse des coûts qui est clairement représentée par un nomogramme. Les nomogrammes de ce rapport illustrent des exemples caractéristiques qui pourront servir de référence lors de la planification et l'évaluation d'un projet de remblayage.

Remote hydro study

ShawMont Newfoundland Limited. Ottawa : Energy, Mines and Resources Canada, Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1993. iv, 182 p. : ill., fold. map, maps. Bibliogr. *CANMET contract: M91-7/225-1993E.* ISBN 0-662-20424-7
MICROLOG 93-05445 3 fiche

Study reviewing and updating ShawMont's 1979 study of small scale hydro for Newfoundland and Labrador. Standardized hydrologic and costing methods were used and search criteria developed. In Phase I a total of 84 sites were identified and costed in 25 study areas. Phase II prepared more detailed layouts and cost estimates for the best site from each study area. In this phase, 1:2500, 2m contour aerial photo mapping was obtained to facilitate plant layouts and permit reliable determination of plant heads. Altogether, 25 final site layouts were prepared and costed in 24 study areas. Simplified designs for dams, intakes and penstocks were applied to each site.

Removal of ammonium and nitrate from mine effluents by sequential nitrification/denitrification

by W.D. Gould...et al. Ottawa : Canada Centre for Mineral and Energy Technology, Mineral Sciences Laboratories, 1992. ii, 10 p. : ill. Bibliogr. (Report ; MSL 92-79(IR))
MICROLOG 93-03428 1 fiche

Although nitrification/denitrification processes have been used to remove nitrogen from municipal and industrial wastewaters, there are no reported systems for the removal of nitrogenous compounds from mine and mill effluents. It is anticipated that the discharge of both ammonium and nitrate by the mining industry will be regulated in the future. This study determined the effects of various parameters on the removal of nitrate from a simulated mine effluent. A packed bed denitrification reactor operated in the upflow mode was used with methanol added as a carbon and energy source.

Rendement des chaudières alimentées aux copeaux de bois de l'Ile-du-Prince-Edouard

par R.W. Braaten et T.G. Sellers. Ottawa : Centre canadien de la technologie des minéraux et de l'énergie, Laboratoires de recherche sur l'énergie, 1993. 25, 24 p. : ill. (Rapport ; LRE 92-43(TR)) *Bilingue (Prince Edward Island wood chip-fired...).* ISBN

0-662-59522-X
MICROLOG 93-06873 1 fiche

Des essais ont été menées d'évaluer la performance en termes de rendement et d'émissions de cinq chaudières alimentées aux copeaux dans l'Ile-du-Prince-Edouard, dont les puissances nominales varient de 75 kW à 1800 MW. Les gaz de carneau ont été doses en continu à l'aide d'analyseurs en circuit qui ont permis déterminer les caractéristiques de fonctionnement des chaudières pendant les essais. L'analyse de la teneur en humidité et en combustible de deux échantillons de bois prélevés dans le système d'alimentation de chaque chaudière a aussi été effectuée. Les analyses des émissions de particules et de HAP de chaque appareil ont été menés. Le présent rapport donne les résultats de ces analyses.

Rendements d'échelle, progrès technique et croissance de la productivité dans les industries québécoises et ontarienne de transport par camion, 1981-88

par G. Dionne et R. Gagné. Montréal : Université de Montréal, Centre de recherche sur les transports, 1992. 30 p. Bibliogr. (Publication ; no. 836) (Cahier ; 9210) (Cahier ; IEA-92-05)
MICROLOG 93-01781 1 fiche

Dans la première partie de cet article, on met à jour les résultats de Gagné et Dionne (1988). On montre que les industries québécoise et ontarienne de transport par camion avaient une structure de coûts durant la période 1981-1988, qui pouvait permettre la libre concurrence à long terme. Les résultats indiquent également que les petites entreprises avaient des coûts moyens supérieurs aux grandes entreprises et que les coûts moyens des entreprises de l'Ontario étaient supérieurs à ceux des entreprises du Québec. Dans la deuxième partie de l'article, on montre que la croissance de la productivité a été négative pour la période d'analyse au Québec et plutôt nulle en Ontario, une tendance aussi observée aux Etats-Unis.

Renewal of the professoriate : report

Council of Ontario Universities. Task Force on Faculty Renewal. Toronto : The Task Force, 1992. viii, 46 p. : ill. Bibliogr. *ONTERIS: ON06043.* ISBN 0-88799-273-0
MICROLOG 93-02028 1 fiche

Responds to the concern that, because of increased rates of turnover in the university professoriate expected in the late 1990s, there will be shortages of qualified replacement faculty. Studies the supply and demand trends at a broad, disciplinary level, rather than at the sub-disciplinary level. The 5 disciplines are: the humanities, the social sciences, the agricultural and biological sciences, engineering and the applied sciences, and mathematics and the physical sciences. Faculty supply in Ontario universities will be largely dependent on external market forces. If these remain unchanged, shortages will be confined to the humanities and be modest in scale, because Ontario universities have significantly increased enrolment in doctoral programs over the last decade. If the international labour market becomes competitive, shortages will also occur in the biological and physical sciences and be acute in nature, because Ontario recruits a significant portion of its replacement faculty from elsewhere.

Répertoire de l'industrie de l'assainissement des eaux usées, 1993

Québec : Gouvernement du Québec, Ministère de l'industrie, du commerce et de la technologie, 1993. 102 p. *CSI 66108.006.* ISBN 2-550-27338-9
MICROLOG 93-05532 2 fiche

Ce document est la troisième édition du répertoire intitulé 'L'industrie de l'assainissement des eaux usées'. Il présente les listes alphabétiques des manufacturiers québécois et de leurs produits, et ceux qui les fabriquent. L'index par compagnies et par produits est également inclu. Son but est de mettre à la disposition des divers intervenants impliqués dans les travaux d'assainissement des eaux une information précise sur les fabricants québécois et leurs produits. L'objectif visé est de favoriser la maximisation des retombées économiques québécoises du programme d'assainissement des eaux usées et des grands travaux publics.

Répertoire de la machinerie et des outils forestiers d'origine canadienne

par F. Humar et D.V. Myles. Ottawa : Forêts Canada, 1991. 251 p. : ill. (Rapport d'information ; DPC-X-31F) *L'éd. anglaise (Compendium of Canadian manufactured forest...) : 90-06964/3.* ISSN 0705-3258 ISBN 0-662-95751-0
MICROLOG 93-08715 3 fiche

Ce répertoire constitue avant tout une source de renseignements sur les diverses sortes de machinerie et d'outils forestiers fabriqués au Canada. Il donne la liste du matériel forestier disponible ainsi que ses caractéristiques physiques, mécaniques et de fonctionnement. Le volume est divisé en trois secteurs importants de la foresterie: la sylviculture, l'exploitation forestière et le transport et le matériel d'appui forestier. Au début de chaque secteur se trouve une liste des groupes de matériel se rapportant au secteur avec le matériel, les accessoires et les outils correspondants. Enfin, une liste des fabricants de matériel forestier, par secteurs, activités et groupes de matériel, a été placé au début du livre afin de permettre un repérage rapide des produits et des fabricants.

Répertoire de sources d'information sur le développement

Ottawa : Centre de recherches pour le développement international, 1992. vii, 348 p. (Rapport manuscrit ; 320f) *Bilingue (A Directory of selected...)*. ISBN 0-88936-638-1
MICROLOG 93-02079 4 fiche (Available on fiche only)

Le répertoire des sources d'information sur le développement que présente ce document se fonde sur une enquête faite auprès d'organisations dont les activités d'information ont profité d'une aide financière du CRDI et d'autres organisations liées au développement international. Il ne comprend que les bases de données des organisations qui ont répondu à l'enquête et donne une bonne idée du genre d'activités en information auxquelles le Centre a contribué. Plus de 218 bases de données sont issues directement de projets du CRDI, 145 ont été créées au moyen du logiciel MINISIS du CRDI et 125 autres ont profité d'une aide quelconque du CRDI, comme la formation. Le document présente donc l'index principal, l'index par nom et sigle de base de données, l'index par institution, l'index des matières, l'index géographique, et l'index par numéro de projet du CRDI.

Répertoire des initiatives interministérielles relatives aux ressources humaines

Ottawa : Conseil de perfectionnement des ressources humaines, 1992. 61, 57 p.
Bilingue (Catalogue of interdepartmental human...).
MICROLOG 93-06308 2 fiche

Le cadre stratégique [illegible] de perfectionnement des ressources humaines propose la réorientation des valeurs, des principes de gestion, du leadership et de la responsabilisation. On y appuie quatre changements culturels importants: un milieu de travail réceptif, une culture axée sur l'apprentissage continu, l'habilitation et la gestion participative. Le présent répertoire touche les grandes questions relatives aux ressources humaines abordées dans le Livre blanc, ainsi qu'un grand nombre d'autres questions qui ont été signalées au Conseil par chacun des ministères.

Répertoire des municipalités du Québec, 1992

Québec : Ministère des affaires municipales, 1992. 899 p. : cartes géogr. *CSI 66115.009.*
ISSN 0079-869X ISBN 2-551-15047-7
MICROLOG 93-04116 10 fiche

Cette édition comprend six parties distinctes. Chacune fait ressortir un aspect des principales particularités du monde municipal. La première partie présente, en bref, le régime municipal québécois avec ses deux niveaux d'organisation territoriale: le local et le régional. Elle traite aussi de la révision des lois municipales entreprise par le Ministère. La deuxième partie du document fait état des modifications apportées aux municipalités en 1991. La troisième partie regroupe les données de population et de superficie des territoires des municipalités locales, des territoires non organisés, des réserves indiennes et celles des organismes régionaux: l'Administration régionale Kativik, les communautés urbaines et les municipalités régionales de comté. La quatrième partie fournit des renseignements sur les municipalités, tels les noms des membres du conseil et des responsables de l'organisation municipale, la date de constitution de la municipalité, ainsi que l'énumération de ses services administratifs. La partie cinq présente les fiches techniques des organismes supramunicipaux, c'est-à-dire les régies intermunicipales et les organismes de transport. La sixième et dernière partie comprend les toponymes usuels répartis selon les municipalités locales et les municipalités régionales de comté. Cette liste a été adaptée en fonction des préoccupations du milieu afin de bien répondre aux besoins des utilisateurs.

Répertoire des programmes et services offert par les ministères et organismes publics québécois aux personnes handicapées

Québec : Gouvernement du Québec, Ministère de la santé et des services sociaux, 1992. 59 p. ISBN 2-550-26183-6
MICROLOG 93-07080 1 fiche

Ce répertoire présente certaines politiques, certains programmes et services gouvernementaux québécois pouvant répondre aux besoins spécifiques des personnes handicapées. Pour chaque ministère ou organisme public, on indique d'abord, lorsque cela est pertinent, la loi ou le règlement dont découlent les programmes ou les services décrits. On mentionne ensuite ces programmes et services, en donnant des détails pour les éléments qui s'adressent spécifiquement aux personnes handicapées ou dont elles peuvent bénéficier plus particulièrement. La liste est complétée par une indication pour chaque programme ou service selon qu'il s'adresse directement, de façon individuelle ou collective, aux personnes handicapées ou qu'il s'adresse à un organisme ou réseau leur offrant des services de soutien. Certains programmes à caractère préventif ont aussi été inclus.

Report of a Forum on Science and Resource-Related Issues in Hydroelectric Development

edited by R.R. Reeves and J.N. Bunch. Ottawa : Panel on Energy Research and Development ; Montreal : Canadian Electrical Association, 1993. vi, 37 p. : ill. Bibliogr.
MICROLOG 93-06931 1 fiche

A national forum was held to provide guidance to the interdepartmental Panel of the federal Program on Energy Research and Development (PERD) for its strategic involvement concerning environmental impacts of hydroelectric projects on freshwater; estuarine, coastal and offshore areas; and cumulative effects. The issues were ranked according to high, medium, and low levels of priority and overlapping issues were identified. A consensus was developed concerning priorities for hydroelectric research and development. Summaries are given of the verbal presentations and discussion group reports.

Report of an inquiry into the BC Gas furnace repair plan

by E.L. Sands. Victoria : British Columbia Utilities Commission, 1992. 133 p. : ill.
MICROLOG 93-07408 2 fiche

In June 1992, an inquiry was ordered into the British Columbia Gas Furnace Repair Plan, a program in which the owner of a residential gas furnace pays an annual premium and receives specific repair work, including parts and labour, as required but not an annual inspection of the furnace or periodic or annual maintenance, which is usually conducted by independent contractors at the request of the furnace owner. The inquiry was conducted to establish how subscribers to the plan were recruited and their views as to the usefulness of and alternatives to it; comparisons of the plan to similar plans in other jurisdictions, if the plan is still needed; the financial benefits of the plan; the extent of use of any monopoly by BC Gas; the segments of the industry affected by the plan; the connection between furnace insurance and the need for periodic or annual maintenance inspections; and if such maintenance inspections should be a prerequisite for furnace parts insurance. This report describes the background to the inquiry, the methods used in conducting it, the information gathered and the position of the parties; and the findings.

Report of the Commission of Inquiry in Certain Matters Regarding a Refinery Operated by Consumers' Co-operative Refineries Limited and a Heavy Oil Upgrader Owned by NewGrade Energy Inc.

Saskatchewan. Commission of Inquiry into Certain Matters Regarding a Refinery Operated by Consumers' Co-operative Refineries Limited and a Heavy Oil Upgrader Owned by NewGrade Energy Inc. Regina : The Commission of Inquiry, 1993. 111 p
MICROLOG 93-05413 2 fiche

The Commission of Inquiry was established in November 1992 to inquire into matters regarding a refinery operated by Consumers' Co-operative Refineries Ltd. and a heavy oil upgrader owned by NewGrade Energy Inc., an agency of the Province of Saskatchewan, adjacent to the refinery and located near the City of Regina. At the core of the issues is the financial condition of the upgrader. At the present time, NG owes over $600m to banks in Canada and the United States, with the debt guaranteed 56% by the Province of Saskatchewan and 43% by the Federal Government. The upgrader does not generate sufficient cash flow to meet interest payments in some years and cannot begin paying the principal until there is some form of debt restructuring. This report describes the background of the upgrader, the mediation process, and alternative routes to the settlement of the issues. A statement of facts issued by NG, a list of documents received by the commission, and a chronology of events are also included.

Report of the Panel on Education Legislation Reform

Manitoba. Panel on Education Legislation Reform. Winnipeg : The Panel, 1993. xvi, 67 p. Bibliogr. *French ed. (Rapport du Groupe d'étude de la réforme...) : 93-06777/1. French résumé (15 p.) laid in.*
MICROLOG 93-07505 2 fiche

When the panel was formed, it was requested to receive public comments, through public hearings and written submissions, on issues raised in the consultation paper, Creating A Framework For The Future, to analyze the feedback, and to submit a report with recommended changes to The Public Schools Act and The Education Administration Act. This document presents the Panel's report recommending amendments they believe need to be made to Acts. These recommendations are based on their interpretation of the information received at the public hearings and through mail-in submissions.

MICROLOG 93-02047 3 fiche

The Task Force on the Ontario Environmental Bill of Rights worked between September of 1991 and June of 1992 to develop an unanimous consensus on the content of an Environmental Bill of Rights for Ontario. The Task Force addressed the following questions Which environment should an Environmental Bill of Rights protect? Who has primary responsibility for the protection of the environment? How can the public participate in environmental decision-making that affects their community and their province in a meaningful way? And what can be done to ensure that those who use and affect our environment do so responsibly? This report contains a detailed discussion of the recommendations and a proposed Environmental Bill of Rights.

Report on Native participation in mining, phase III : aim for the moon : if you don't succeed, you'll always land on a star

by C.A. Romaniuk. Ottawa : Intergovernmental Working Group on the Mineral Industry, Sub-Committee on Native Participation in Mining, 1992. v, 142 p. *French ed. (Rapport sur la participation...) : 93-03302/2.*
MICROLOG 93-03303 2 fiche

In August 1989, the Intergovernmental Working Group on the Mining Industry formed a sub-committee to study the nature of Native participation in the mining industry in Canada. Native participation was defined broadly to include employment, provision of services by Natives or Native owned companies, financial involvement, and input into mine development and regulatory review processes. The sub-committee documented 'best practices' and identified new ways of matching Native lifestyles with mineral industry employment opportunities; identified concrete steps that governments, mining companies, Native groups and individuals could take to substantially boost Native participation in mining; and examined what, if any, incentives could be identified and what legal and structural barriers to development could be removed to speed progress. This report provides a summary of each task undertaken during the third year of the study.

Report on non-charitable purpose trusts

Vancouver, B.C. : Ministry of Attorney General, Law Reform Commission of British Columbia, 1992. iv, 84 p. (Report ; LRC 128) ISSN 0843-6053 ISBN 0-7718-9342-6
MICROLOG 93-03840 1 fiche

As a general rule, a trust that is framed for the benefit of a purpose rather than a person is invalid unless the purpose is charitable. In law, charity is a narrow concept which excludes many activities beneficial to the public. This report examines the rule and the anomalies that flow from it and concludes that the current limitations which the law places on the creation of non-charitable purpose trusts should be abolished. It sets out recommendations and draft legislation to make it possible to create a fully enforceable non-charitable purpose trust.

A Report on progress

Public Service 2000 (Canada). Ottawa : The Office, 1992. iii, 125, iii, 133 p. *Bilingual (Les Progrès réalisés).* ISBN 0-662-59109-7
MICROLOG 93-01187 3 fiche

This document is a companion volume to the first annual report. In reporting on progress, it assesses progress against two sets of yardsticks. The first are the commitments to the reform of the classification system, to better career development and better training, to service standards, and to a leaner and more flexible Public Service in which resources are concentrated at the point of service delivery. The second set of yardsticks are the following five areas identified as priorities of Deputy Ministers: introducing service standards and client surveys as ways to improve service; reducing the number of levels of management in departments; increased delegation of authority; improved career planning, and fostering the work of 'councils for change' in departments.

Report on relationship between higher education and police learning requirements

by D. Hart...et al. Toronto : Ministry of the Solicitor General, Strategic Planning Committee on Police Training and Education, 1992 71 p. Bibliogr. *On cover: A Police learning system for Ontario*
MICROLOG 93-04104 1 fiche

The purpose of this paper is to address issues concerning the contribution of higher education requirements to performance of professional roles, with special reference to the police. It addresses three questions: what evidence exists that college or university education in general provides the student with advanced skills, knowledge or abilities relevant to policing? What has been the impact of making postsecondary qualifications an entry-level requirement for other professional occupations? And how supportable is the practice of requiring postsecondary education for occupations with regard to skills, knowledge, and abilities required?

Report on the 1990 open pooling impact study : the estimated effect of bills 64 and 65 on the finances of public school boards in Ontario

by J. McEwen. Toronto : Ontario Public Education Network, 1990. 52 p. *ONTERIS: ON06176.*
MICROLOG 93-08265 1 fiche

The 1990 Pooling Impact Study of the Ontario Public Education Network (OPEN) looks at the consequences of Bill 64 in light of the 1990 experience. OPEN made use of school board grant and expenditure estimates supplied by public school boards and examined the financial contribution of the provincial government. Part I examines the background, covering Ontario's school grant plan for school board operating expenditure, and how pooling was introduced. Describes some of the key areas of implementation. Part II gives the study's methodology and findings. Also included are an explanation of the method the Ministry used to produce the apportionment factors for assessment and telephone and telegraph taxes in a municipality where designated public corporation assessment existed in 1989; the analytical model for the study; a comparison of this study's findings with those of a Ministry study released in July, 1990; and the director of the Kapuskasing Public Board of Education's determination of the shortfall between the 1990 revenues lost to pooling and pooling compensation.

Report on the results of the pre and post spray surveys of the 1990 herbicide program

Fredericton : Dept. of Natural Resources and Energy, Timber Management Branch, 1992. i, 39, i, 39 p. : ill. (Technique ; 92.02) (Internal working document ; 92.02) *Bilingual (Programme de pulvérisation...) CSI 46175.003.*
MICROLOG 93-00138 1 fiche

In 1990, Vision herbicide was aerially sprayed on 14,142 ha of plantations and naturally regenerated softwood cutovers on Crown land to procure a 'free-to-grow' environment for the more valuable softwood stock during their early years. The areas will be considered free-to-grow if 75% or more of the planted stock have no hardwood or brush species overtopping them five years after plantation establishment. In 1991, studies were undertaken to assess the success of the 1990 program. The first was an intensive ground survey to assess efficacy on competing species, conducted where a pre-spray (carried out in June and July 1990) and a post spray (carried out in June and July 1991) were carried out on 70% of the areas treated. The second was an extensive aerial spray to assess spray coverage, conducted from the last week in June to the second week in July 1991. This report presents the results of the two surveys.

A Report on the Sea Lice Symposium of the first European Conference on Crustacea

by S.C. Johnson. Victoria : Ministry of Agriculture, Fisheries and Food, Aquaculture and Commercial Fisheries Branch, 1992. 77 p. : ill. Bibliogr. (Aquaculture industry development report ; no. 93-04) ISSN 1183-0352 ISBN 0-7726-1700-7
MICROLOG 93-04709 1 fiche

This report summarizes information on sea lice, including their distribution, life cycle, and general biology, and current research, including host location and selection, mechanisms of attachment to hosts, population dynamics and epizootiology, susceptibility to sea lice infections, as possible vectors of fish diseases, and the transfer of sea lice between farmed and wild salmonids. Information is also given on current research on the control of sea lice, including vaccines, cleaner fish, hydrogen peroxide delousing, pyrethrum and pyrethroid delousing, and ivermectin delousing. Also included are abstracts of papers on sea lice and salmonids, a sea lice-host list for British Columbia, sea lice species found in B.C., and a review of control methods.

Report on the Workshop on Strengthening the Environmental Assessment of Policy

by F. Bregha. Hull, Que. : Canadian Environmental Assessment Research Council, 1990. 42 p. (Manuscript report ; MR3-90) *French ed. (Rapport de la Réunion...) : 93-05331/1*
MICROLOG 93-05331 1 fiche

The workshop focused on the accountability of senior policy-makers (ministers and senior officials) for the environmental implications of their decisions; the amount of access given to the public in environmental assessment of policy; and how the effectiveness of policy assessment should be measured. The report uses the term "environmental assessment of policy" to include both the systematic integration of environmental considerations into the policy formulation process and the assessment of a policy's environmental effects.

Report to CANMET on in situ stress measurements at Lingan Colliery Cape Breton, Nova Scotia

Mississauga, Ont. : Golder Associates Ltd , 1991. vi, 50 p. : ill. Bibliogr. *CANMET contract: 23440-09246-01-SQ*
MICROLOG 93-00495 1 fiche

A program of in situ stress measurements in Lingan Colliery of the Sydney coalfield in Cape Breton, Nova Scotia, was completed during February 1991. The measurements were taken in three 96 mm drillholes located at the north end of the No. 4 deep, approximately 340 m down slope of 13 East bottom/14 East top drivages. The in situ stresses were measured by overcoring using the U.S. Bureau of Mines deformation gauge. A total of nine overcoring tests were attempted, of which eight were successful. The test data was used to evaluate the secondary principal stresses (for individual tests) on a plane perpendicular to the drillhole axis for the case of plane strain; and the average stress tensor in the siltstone strata by applying the method of least squares

Report to Department of Supply and Services Ltd. on review of pack research in the Sydney Coalfield, N.S.

S.l. : Jacques, Whitford and Associates Ltd., 1992. iv, 266 p. : ill. Bibliogr. *CANMET contract: 23440-1-912801-SQ.*
MICROLOG 93-04283 4 fiche

This project reviewed pack design methods to provide the best available engineering design for the first packs on Phalen dual life gateroads and to provide assistance and direction for the implementation of investigations to organize the packs. Through a literature review, correspondence, and telephone conversations, and one visit to the Coal Research Laboratory in Cape Breton, all work undertaken in the Sydney Coalfield on the design and monitoring of gateside packs to date was reviewed, especially those involving packs of wood, anhydrite, and Astrapack. Recent advances elsewhere in design, performance, and experience were also reviewed, with both successful and unsuccessful designs identified. Pack design criteria, procedures, and methodologies were reviewed in the light of available data from the Sydney Coalfield for wood, anhydrite, and Astrapack. An appropriate pack design methodology was developed on the basis of research experience in both the Sydney Coalfield and elsewhere for implementation trials of dual life gateroads at Phalen Colliery.

Report to the Workers' Compensation Board on cor pulmonale

Toronto : Industrial Disease Standards Panel, 1992. 9 p. Bibliogr. (IDSP report ; no. 10) ISSN 0840-7274 ISBN 0-7778-0019-15
MICROLOG 93-00172 1 fiche

A serious breathing impairment can lead to heart disease. Heart problems affecting the right side of the heart and associated with pulmonary dysfunction are known as cor pulmonale. For compensation purposes the medical association is not at issue but adjudicatory problems have been identified. Workers who are in receipt of benefits for respiratory illness often develop heart problems. There is a concern that these additional problems may not be adequately addressed by the Workers' Compensation Board when awarding benefits to the worker or determining entitlement to dependency benefits. This document contains the Panel's report concerning the disease.

La Représentation au Parlement fédéral

Ottawa : Elections Canada, 1993. 18, 18 p. : ill. Bibliogr. *Bilingue (Representation in the Federal Parliament).* ISBN 0-662-59750-8
MICROLOG 93-08528 1 fiche

Deux principes président notre système de représentation. D'abord, le principe de 'un électeur, un vote'; le vote d'un citoyen a la même valeur que celui de tout autre. Ensuite, selon le principe de la représentation territoriale: chaque citoyen est représenté à la Chambre des communes sur une base territoriale, soit la circonscription électorale. La présente brochure s'efforce d'expliquer 2 aspects fondamentaux mais très peu connus du système électoral fédéral, à savoir: le principe de la représentation à la Chambre des communes, soit la façon dont se répartissent les sièges entre les provinces et les territoires; et deuxièmement, la façon dont on fixe et révise périodiquement les limites des circonscriptions électorales.
CA PA

Representation in the Federal Parliament

Ottawa . Elections Canada, 1993. 18, 18 p. : ill. Bibliogr. *Bilingual (La Représentation au Parlement fédéral).* ISBN 0-662-59750-8
MICROLOG 93-08528 1 fiche

Two principles underlie our system of electoral representation. Firstly, the principle of '1 elector, 1 vote', all voters being equal. Secondly, the principle of territorial representation: each elector being represented in the House of Commons on a territorial basis, for instance the electoral district. This publication has been prepared to shed some light on 2 fundamental but little-known aspects of the federal electoral system, namely: the principle of representation in the House of Commons and how the seats are divided among the provinces and territories; and, secondly, how the riding boundaries are determined and periodically readjusted.

Reproductive performance and fetal development of white-tailed deer in Saskatchewan

by D.A. Brewster. Regina : Saskatchewan Natural Resources, Wildlife Branch, 1993. 41 p. : ill. Bibliogr. (Wildlife technical report ; 93-1)
MICROLOG 93-05397 1 fiche

White-tailed deer are the most abundant and widely distributed ungulate species in Saskatchewan, heavily used for hunting. This study was conducted to obtain age class specific pregnancy and fetal rates, test for annual or geographic variation, and determine the influence of doe condition and winter severity on gross productivity. A large fetal sample provided a chance to calculate fetal sex ratios, compare fetal growth patterns to those reported from other jurisdictions, calculate growth functions useful in predicting the age of in utero fetuses, examine the influence of litter size, and test for reliable fetal growth predictors. An important aspect of the study was to moré accurately define the timing and duration of breeding and parturition chronology for Saskatchewan whitetails, as this annual cycle impacts hunting season and harvest management initiatives.

Research and development : tax policy -- Rev.

by O. Madore. Ottawa : Library of Parliament, Research Branch, 1992. 12 p. Bibliogr. (Current issue review ; 89-9E) *French ed. (Recherche et développement : la politique...) : 93-00941/1. Revised 12 March, 1992* ISBN 0-660-14639-8
MICROLOG 93-03139 1 fiche

Tax incentives alter the after-tax cost of research and development (RD) investments. RD expenditures entitle those making them to tax deductions and credits, which lower the net cost of RD. Those deductions and credits in turn represent a tax expenditure, or opportunity cost for the government. Tax expenditures may thus serve as a substitute for budget expenditures or as a complement to direct financing methods but they are much more difficult to evaluate and control. This paper examines the basis for government intervention in this area and gives a historical overview of tax incentives for industrial RD. It also includes some comments on the advantages and disadvantages of tax incentives for scientific research.

Research and development opportunities for improvements in energy efficiency in the Canadian pulp and paper sector to the year 2010

Pulp and Paper Research Institute of Canada. Ottawa : Energy, Mines and Resources Canada, CANMET, Efficiency and Alternative Energy Technology Branch, 1993. xxvii, 254 p. : ill. Bibliogr. *CANMET contract: 23440-0-9667.* ISBN 0-662-20440-9
MICROLOG 93-04274 3 fiche

Identification of leading present technologies and promising future ones that could significantly change the consumption of fossil fuel, biomass fuel, and purchased electricity by the pulp and paper sector. The technologies were ranked according to energy impact, potential economic return, and environmental impact. For each of the technologies, a capsule description was prepared that provided a short account of the technology and its type, its area of application, and its stage of development. Technologies chosen include deinking for newsprint, medium-consistency processing, secondary treatment of mill effluents, closed-cycle bleached kraft mill, high-intensity refining, biomass dewatering and combustion technology, and oxygen and ozone bleaching.

Research and monitoring for environmental protection : twenty years of research and monitoring at the Nanticoke Industrial Complex on the north shore of Lake Erie

by R. Serafin. Hull, Que. : Canadian Environmental Assessment Research Council, 1989. xvii, 97 p. Bibliogr. (Manuscript report ; MR8-89)
MICROLOG 93-06023 2 fiche

The study begins by evaluating environmental research and monitoring at the Nanticoke industrial complex on Lake Erie's north shore, a project on which environmental data has been collected for 20 years. Attention is focused on the issues and obstacles associated with the evaluation of research and monitoring programs. The study uses the Nanticoke example to shape ten evaluation criteria which can provide a framework for improving research and monitoring.

A Research bibliography on immigration to British Columbia

Victoria : Ministry of Education and Ministry Responsible for Multiculturalism and Human Rights, Immigration Policy Branch, 1992. ii, 50 p. ISBN 0-7726-1640-X
MICROLOG 93-00892 1 fiche

The goals in developing the research bibliography were twofold: to document recent studies and research related to British Columbia immigration and immigrant issues, and second, to document ongoing and proposed studies by British Columbia researchers in the area of immigration and immigrant studies. Recent works were defined as those dated 1986 and onward, although a number of earlier studies were included, as they were considered essential references and still in use. This document is intended as a bibliographical guide to the subject area.

Research on children from violent families

by T. Moore...et al. Ottawa : Health and Welfare Canada, Social Service Programs Branch, Family Violence Prevention Division, National Clearinghouse on Family Violence, 1992. 7 p. Bibliogr. *In* Canada's Mental Health *: vol. 38, no. 2/3, July-September 1990. French ed. (Recherches sur les enfants issus de...) on the same fiche.* ISBN 0-662-19469-1
MICROLOG 93-03264 1 fiche

While family violence predisposes children to adopt aggressive modes of problem solving, violence does not inevitably beget violence. Not all forms of domestic violence are the same, nor are all children similarly affected. Various factors may ameliorate or aggravate the child's response to a high-risk situation. This article describes some potential protective factors relating to the child's own capacities and behaviours; the mother-child relationship, sibling relationships, and, finally, the broader social context of peer interactions that may mediate the psychological impact of family violence on children from violent homes.

Residual stress measurement in railroad rails, phase I

by B.W. Maxfield and A. Kuramoto. Montreal : Transport Canada, Policy and Coordination Group, Transportation Development Centre, 1991. xi, 26 p. : ill.
MICROLOG 93-03108 1 fiche

Description of the implementation of an acoustic shear-wave birefringence method for measuring the difference in the in-plane residual stresses for the two orthogonal polarization directions. Specimens 40 mm thick were cut from the head of head-hardened and as-rolled rail sections. A permanent magnet EMAT ultrasonic system was used to measure the difference in the transit time for the two shear polarizations to an accuracy of positive/negative 2 ns which corresponds to a stress error of about positive/negative 20 20 MPa. The transit difference was measured as a function of position over the cross-section of the rail head with a spatial resolution of about 10 mm.

Response to 'Skills to meet the challenge : a training partnership for Ontario'

Ontario Training and Adjustment Board Toronto : The Board, 1992. 21 p. *ONTERIS: ON05952*
MICROLOG 93-00342 1 fiche

In this response paper, the Ontario Public School Boards' Association (OPSBA) recognizes the need for Ontario to initiate a coordinated program of education, training, and retraining to assist the labour force in adjusting to the changing economy. It supports establishment of provincial and local training and adjustment boards, but is concerned that school boards have not been recognized as key players in labour force development in Ontario. OPSBA is also concerned that decisions will be made concerning the roles of school boards, community colleges, universities, and private and community-based trainers in the provision of labour force development programs without identification of underlying issues and adequate timelines for discussion and consensus-building. It calls for stability of existing programs to be guaranteed through a planned, phased approach, including ongoing assessment and evaluation. OPSBA makes 10 recommendations relating to both general and specific concerns.

Response to the 'Specialization years : guide to discussion and response'

Ontario Public School Boards' Association. Toronto : The Association, 1992. 22 p. *ONTERIS: ON05965*
MICROLOG 93-00345 1 fiche

The Ontario Public School Boards' Association (OPSBA) suggests that before major changes are proposed in the specialization years, the educational system needs a framework, clear goals, priorities, expected student outcomes, and an assertion of what the public can expect of it. OPSBA addresses a number of general topics (e.g., adult education, assessment and evaluation, technology, French as a second language, gender equity, native education, immigrant students, special education, student retention, and teacher education) and discusses the following specific issues and policy options: integrated learning activities, overcrowded curriculum, subject specialization in teacher education, guidance programs, gender and educational-career choices, cooperative education, small schools, extracurricular programs, curriculum organization, definition of a credit, credits for external courses, graduation diplomas, reporting student achievement, religious education credits, provision of adult education, and graduation equivalence.
ED ON PR

Response to the 'Transition years' consultation document

Ontario Public School Boards' Association. Special Committee on Native Education Issues. Toronto : The Association, 1991. 5 p. *ONTERIS: ON05930.*
MICROLOG 93-00612 1 fiche

The Ontario Public School Boards' Association (OPSBA) states that improving the school success of native students must be a priority, and that some of the changes necessary to achieve this are of potential benefit to all students. It outlines current concerns regarding school outcomes for native children: poverty and high mortality rates; lack of continuity in the transition years; tuition agreements; inadequate language skills; racism in the school system; lack of opportunity to participate in extracurricular and school-wide activities; and availability of native teachers. OPSBA recommends that reports prepared by native organizations be studied by the workgroup in order to focus policy options on improving school outcomes for native students; that language development become a central focus of the core curriculum for the transition years; and that curricular objectives dealing with the dignity of all peoples and the special place of First Nations be included in the core curriculum and teacher development for the transition years.

Response to the consultation paper on the integration of exceptional students

Ontario Public School Boards' Association. Toronto : The Association, 1992. 15 p *ONTERIS: ON05966*
MICROLOG 93-00340 1 fiche

Presents the views of the Ontario Public School Boards' Association (OPSBA) on the integration of exceptional students. OPSBA calls for flexibility in program options, ranging from partial to full integration; adequate time to prepare for change to ensure success; sufficient time and resources for teacher, supervisory officer, parent, and student inservice and orientation programs; recognition by government that additional resources (financial and human) are essential before any new programs are implemented; and an examination of the relative roles of the Ministry of Education and other ministries and service agencies in the provision and financing of services for exceptional students.

Response to the Technological education consultation document

Ontario Public School Boards' Association. Toronto : The Association, 1991. 20 p. *ONTERIS: ON05928.*
MICROLOG 93-02014 1 fiche

Response by the Ontario Public School Boards' Association (OPSBA) in May, 1991 to the Ministry of Education consultation paper on technological education. OPSBA has concerns about the study of technological education and is disappointed in the fragmentation of the Ministry's approach to the consultation process and the discussion on technological education. 1 major issue was the lack of a clear definition of technological education; a definition is given and the role of teacher education and recruitment is discussed. They state their position on 13 Ministry issues and options with respect to technological education: technological literacy; when programs should begin; how female students should be encouraged to participate; provincial curriculum policies; the Ministry's part in the transition years core curriculum; the influence of local needs on the curriculum; opportunities for specialized training; workplace learning as a supplement; co-operative education as a complement; meeting the unique needs of the individual student; when specific skills should be taught; and the restructuring of teacher education.

Responses of diamondback moths *Plutella xylostella* (L.) and other insect pests to volatile compounds of cruciferous crops : final report

by K. Pivnick and C. Gillott. Regina : Saskatchewan Agriculture Development Fund, 1991. vii, 87 p. : ill. Bibliogr.
MICROLOG 93-03981 2 fiche

The diamondback moth is a world-wide pest of cruciferous crops in temperate and tropical regions and in Saskatchewan it is a major pest of canola. It cannot survive the winter in the Canadian prairies but it arrives each spring on the winds from the southern United States. Very little is known about how the diamondback moth finds its host plants, so a study was initiated to determine the odour cues it uses in host-plant location. This paper describes the daily rhythms of reproductive activity of the moth and the influence of both adult density and exposure to host plants on the ontogeny of reproductive activities.

Responsive regulation in Canada : the government reply to the Sub-Committee on Regulations and Competitiveness

Ottawa : Treasury Board of Canada, Secretariat, 1993. 42, 47 p. *Bilingual (Une Réglementation canadienne adaptée...). Highlights (8, 10 p.) laid in.*
MICROLOG 93-07105 2 fiche

In the 1992 Budget, the House of Commons' Standing Committee on Finance was asked to review the impact of federal regulation on Canadian competitiveness. While supporting the regulatory process and policy put in place over the past seven years, all Committee members agreed improvements should be made. This document describes how the government plans to meet the challenge of a world that is rapidly changing by making Canada's regulatory regime more responsive.

MICROLOG 93-03758 1 fiche

Ce document présente un sommaire du rapport intitulé 'Les ressources humaines dans l'industrie de l'environnement', publié par Emploi et Immigration Canada. L'étude a été entreprise par suite des préoccupations exprimées par certains membres de l'industrie canadienne de l'environnement au sujet du manque de main-d'oeuvre qualifiée pour combler les besoins futurs de l'industrie. Elle avait comme principaux objectifs d'obtenir un consensus au sujet de la nature et de l'ampleur du problème des ressources humaines auquel est confrontée l'industrie de l'environnement au Canada, et de proposer des méthodes pouvant mener à des solutions.

La Restructuration économique au Canada : élaboration d'un cadre d'analyse qui tient compte des différences entre les sexes

par S. Harder. Ottawa : Condition féminine Canada, 1992. v, 31, iv, 29 p. Bibliogr. *Bilingue (Economic restructuring in...)*
MICROLOG 93-05866 1 fiche

Ce document tente d'examiner la question de la restructuration économique au Canada d'un point de vue qui tient colpte des différences entre les sexes. Il comprend quatre chapitres. Le chapitre A, l'économie et le rôle des femmes et des hommes, porte sur certaines hypothèses fondamentales de la discipline de l'économie et sur les principes dominants de l'économie néo-classique. Il contient un résumé critique, selon une perspective féministe. Le chapitre B, la restructuration économique, examine les cadres conceptuels que de nombreux économistes ont utilisés pour analyser ce processus. Le chapitre C, l'extension du cadre d'analyse pour comprendre la restructuration économique, utilise certains éléments clés des théories féministes pour examiner les lacunes des discussions antérieures sur la restructuration. Il expose brièvement plusieurs études fondées sur cette perspective élargie. Et le chapitre D, buts et questions fondés sur la théorie, énonce certains éléments préliminaires nécessaires à l'élaboration d'une cadre permettant d'analyser, de saisir et de comprendre le processus de la restructuration économique.

MICROLOG 93-00016 1 fiche

The Census of Agriculture was conducted in June 1991. Results released recently by Statistics Canada demonstrate a continuation in the trend to fewer farms on Prince Edward Island, as well as to a trend to larger farms. The Census recorded 2,361 farms on the Island out of the 280,043 counted in Canada. The amount of the total land area of Prince Edward Island that was recorded as farmland in 1991 was 46 per cent, compared to 48 per cent in 1986. The purpose of this document is to provide a general summary of the Census results as they pertain to Prince Edward Island.

Chinook salmon are known to over-winter in the Stuart, Nechako and Fraser Rivers, with a portion of the chinook salmon population in the Stuart River migrating downstream into the Nechako and Fraser Rivers as post-emergent fry during May and June. However, some chinook salmon remain to rear in the Stuart and its tributaries over the fall and winter. This study was conducted to obtain some preliminary information on the timing of migration and relative abundance of juvenile chinook salmon in the lower Stuart River in autumn 1991. Migration and relative abundance of other species of fish was also recorded, and a mark and recapture program was conducted to determine local residence time and migration of juvenile chinook salmon.

Le Revenu précaire : le système de pensions d'invalidité au Canada

Downsview, Ont. . Institut G. Allan Roeher, 1988. 154 p. Bibliogr. *L'éd. anglaise (Income insecurity ..) : 90-02887/2.* ISBN 0-920121-42-X
MICROLOG 93-02381 2 fiche (Available on fiche only)

Cette étude décrit et analyse le système du revenu d'invalidité au Canada. Elle démontre clairement que les programmes divers de soutien du revenu n'assurent pas la sécurité du revenu mais plutôt son insécurité. Cette étude se penche sur cette question et aborde principalement les programmes de soutien du revenu et l'adoption d'une politique.

Review and monitoring of child sexual abuse cases in Hamilton-Wentworth, Ontario

Campbell Research Associates and Social Data Research Ltd. Ottawa : Dept. of Justice, Research and Development Directorate, Research Section, 1992. xxii, 157 p. . ill. Bibliogr. (Working document ; WD1992-9e) (Studies on the sexual abuse of children in Canada)
MICROLOG 93-08472 2 fiche

This document provides a detailed picture of Bill C-15, its sections, objectives, and potential implications. It shows the progress of cases through the criminal justice and child welfare systems. It focuses on the relevant aspects of the Ontario police and court structure as well as of the Children's Aid Societies. It addresses the implementation and impacts of Bill C-15 in terms of each of the Bill's goals. It also deals with the perceptions of the parties involved in both the criminal justice and child welfare systems with regard to the Bill, the extent of its implementation, and problems or recommendations for changes.

Review and monitoring of child sexual abuse cases in selected sites in rural Alberta

by D. Phillips and J.P. Hornick. Ottawa : Dept. of Justice, Research and Development Directorate, Research Section, 1992. ix, 45 p. (Working document ; WD1992-14e) (Studies on the sexual abuse of children in Canada)
MICROLOG 93-08470 1 fiche

This document provides a description of the police file review cases in terms of victim, alleged offender, and occurrence variables. It also outlines significant police file review findings related to certain Bill C-15 provisions. It describes the processing of child sexual abuse cases through the child welfare and criminal justice systems in the rural areas. It discusses issues specific to all rural areas together, as well as each separate location. It includes a detailed analysis of the flow of Bassano and Gleichen cases through the criminal justice system and a decision-making model of factors related to rural cases that are cleared by charge. It also discusses the effects of the process on specific cases.

A Review and recommendation report on the cultivated mussel industry of Nova Scotia

prepared for the Nova Scotia Department of Fisheries and the Aquaculture Association of Nova Scotia ; by Brian C. Muise and Associates. Halifax : Dept. of Fisheries, 1992. 49 p. (Manuscript and technical report series ; project report no. 92-14)
MICROLOG 93-06808 1 fiche

Despite its leading role in the development of the Canadian mussel industry through the 1970s and into the 1980s, the share of the North American market held by Nova Scotia producers has declined from 22% in 1986 to less than 10% in 1991. An overview and profile of the industry is presented, including technical, economic and market status. The opportunities that exist in mussel product development, number of processing plants required by the mussel industry, requirements for all mussel products to be processed through a licensed plant, Nova Scotia Deprtment of Fisheries and Industry support of geographic or species based development plans, the effect of terminating issuance of new mussel leases, the effects of encouraging additional participants in the industry, mechanisms for enhancing production and yield, the implications of sales associations, and industry consolidation are discussed.

MICROLOG 93-02891 1 fiche

The program performed in 1991 in the Materials Technology Section are reviewed. The Section is involved in five main areas of research: pressure tube deformation and irradiation damage; development and application of specialized techniques for mechanical and physical property measurement; pressure tube fabrication; advanced industrial materials; and analysis of service failures. The Section responded to the Darlington fuel problem with the development of a fatigue test capability. Another unique aspect of the Section is that is provides an expertise in transmission electron microscopy and x-ray diffraction for microstructural evaluation. The highlights of the 1991 progress in these areas are documented and the proposed 1992 studies are outlined.

There are four types of electrochemical cells capable of recovering sulphur from hydrogen sulphide or a gas mixture containing hydrogen sulphide. They include direct electrolysis of the hydrogen sulphide to hydrogen and sulphur; a fuel cell in which hydrogen sulphide is partially oxidized to water and sulphur; a hybrid chemical-electrochemical loop in which the hydrogen sulphide is chemically converted to hydrogen and an intermediate compound, and a novel sodium/hydrogen sulphide cell, proposed in this report This report reviews suitable solid

electrolytes and electrode materials and proposes potential electro-chemical cells for sulphur recovery from hydrogen sulphide.

A Review of the boundaries of bird sanctuaries in the Northwest Territories

Ottawa : Indian and Northern Affairs Canada, Conservation Advisory Committee on the Northern Mineral Policy, 1990. 15, 19 p. *Bilingual (Examen des limites des...).*
MICROLOG 93-02721 1 fiche

The Department of Indian Affairs and Northern Development (DIAND) released the Northern Mineral Policy in December 1986 to provide the mining industry with stability and certainty in federal government initiatives that could have an impact on the operating environment of the industry. The policy commits the federal government to increasing the certainty of access to land in the areas of native land claims settlement, conservation and land use planning. Conservation issues identified for review included the Thelon Game Sanctuary, the proposed International Biological Program sites and bird sanctuary boundaries. This report summarizes the results of the review undertaken to fulfil the commitment regarding bird sanctuary boundaries.

Review of the Office of the Ombudsman

Ontario. Legislative Assembly. Standing Committee on the Ombudsman. Toronto : The Committee, 1993. iii, 169 p. Bibliogr. ISBN 0-7778-1187-1
MICROLOG 93-08652 2 fiche

The Ombudsman Act was passed in 1975. Since that time, no general review of the effectiveness of the Office of the Ombudsman or the Act in meeting their objectives had been undertaken. It was concluded that since much has changed since the Act was first passed, a more general review of the Office should be conducted. The report is organized into two halves. The first half is devoted to examining issues related to the Ombudsman's mandate, power and procedures. This includes developments with respect to the scope of the Ombudsman's function, matters related to the Ombudsman's accessibility, the process for reviewing complaints and the Ombudsman's jurisdiction. The second half of the report examines in considerable detail the Ombudsman's relationship with the government and the Legislature.

A Review of the status and needs for the quantitative prediction of convective precipitation : final report

prepared for Hydrometeorological Research Division, Canadian Climate Centre ; by B. Kochtubajda and F.E. Robitaille. Saskatoon, Sask. : National Hydrology Research Centre, Atmospheric Environment Service, Canadian Climate Centre, 1991. xi, 74 p. Bibliogr. (Report ; no. 91-4)
MICROLOG 93-00192 1 fiche

Study to assess the need for quantitative convective precipitation forecasting (QPCF), to review the current research and technological endeavours being carried out, and to identify areas of R&D necessary for improving QPCF procedures. A survey of water resource planners was conducted to determine if a requirement for QCPF existed. An extensive literature review coupled with a questionnaire and follow-up discussions with scientists and engineers active in the field was also conducted to determine the current state of QPCF and identify the scientific and technical requirements to make it a reality. Four approaches were identified to provide short-term forecasts of mesoscale weather events.

A Review of tritium gas interactions with stainless steel surfaces

by D.F. Mullins. Toronto : Ontario Hydro, Research Division, 1992. v, 28 p. : ill. Bibliogr. (Report ; no. 92-21-K)
MICROLOG 93-02900 1 fiche

Stainless steel constitutes the major surface in tritium process and containment systems in use today and probably in future systems. Particularly in view of the large tritium inventories and process surface area of proposed fusion reactors, an accurate picture of the amount and form of tritium sorbed on a stainless steel surface and how this tritium interacts with other systems is vital for contamination and dosimetric calculations. Of specific interest to tritium users is the observed difference in metabolic pathways between tritium which enters a living system through skin contact with a surface which has been exposed to tritiated water, and tritium from the same surface exposed to tritium in the gas phase. This report is the outcome of a review which was designed to generate hypotheses to explain the existing experimental results, to generate a model which fits the existing knowledge about tritium on surfaces and propose an experimental plan to validate the model.

Reviewing the ground rules for the Yukon workplace : the Employment Standards Act, some options for change

Whitehorse : Yukon Justice, Labour Services, 1991. 36 p. : ill. ISBN 1-55018-093-2
MICROLOG 93-03492 1 fiche

The Employment Standards Act directly affects the working lives of thousands of private sector employees in the Yukon. The Act sets out the basic ground rules which employers and employees must follow in the employment relationship. These rules provide the minimum standards on many workplace issues. Since the Yukon's Act came into effect, there have been many changes in employment standards across Canada. Many of those changes could be reflected in the Yukon's Employment standards Act. This document is intended to give readers the opportunity to respond to a number of options for change.

The Right of Aboriginal self-government and the Constitution : a commentary

Canada. Royal Commission on Aboriginal Peoples. Ottawa : The Commission, 1992. 32 p. Bibliogr.
MICROLOG 93-08969 1 fiche

In this commentary, the Royal Commission offers some thoughts on the current constitutional proposal as they relate to the right of Aboriginal self-government in order to promote a better understanding of Aboriginal self-government and the Constitution. The document traces the development of a potential impasse beginning with an examination of the context of the debate and its evolution since Aboriginal rights were recognized in the 1982 Constitution. It then considers how such an impasse might be avoided and concludes with thoughts on building a new relationship between Aboriginal peoples and other Canadians.

Risk analyses of growing degree-days in Atlantic Canada

by R. Gordon and A. Bootsma. Ottawa : Agriculture Canada, Research Branch, 1993 viii, 144 p. : maps Bibliogr. (Technical bulletin ; 1993-5E) (CLBRR contribution ; no. 93-06) ISBN 0-662-20517-0
MICROLOG 93-08287 2 fiche

Growing degree-days (GDD) are frequently used as a weather-based indicator for assessing crop development. However, it is important that users of GDD information understand the limitations inherent with the use of this often mis-represented concept. The objectives of this report are to present GDD information on a probability basis for all geographic regions of Atlantic Canada and to establish a rule of thumb approach to readily estimate the probability of threshold GDD accumulations for all geographic regions of Atlantic Canada.

Risk and decision making in EIA : the public agenda

by J. Copas. Hull, Que. : Canadian Environmental Assessment Research Council, 1990. 60 p. Bibliogr. (Manuscript report ; MR6-90)
MICROLOG 93-05328 1 fiche

This report provides the results of survey related to the siting of a 110 ft microwave tower by Bell Canada on Wolfe Island, near Kingston, Ontario. The survey was administered to all individuals who participated in the public meetings concerning the construction of the tower, and to experts who were familiar with the case. The survey examined individual risk perceptions; explored the perceptions of the actual process; and examined ways in which the public may be more meaningfully incorporated into the process. The report also includes background information on Wolfe Island and its community.

Risk factors in traffic accident involving child pedestrians

by M.-F. Joly, P.M. Foggin and I.B. Pless. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 14 p. Bibliogr. (Publication ; no. 831)
MICROLOG 93-01786 1 fiche

This study attempts to determine how child pedestrians involved in traffic accidents differ from uninjured children. Questionnaires were completed by a sample of parents whose children had been injured in traffic accidents and by a sample of parents whose children were at a hospital for reasons other than accidents. The survey matched 42 injured children aged 5-14 by sex and age with 42 uninjured children. Both groups came from a single geographic area that had been previously identified as a high risk area for traffic accidents. The Mantel-Haenszel odds-ratio method was used to estimate the relation between different factors and the risk of injury.

The Risk of tainting in flatfish stocks during offshore oil spills

S.L. Ross Environmental Research Limited, LeDrew, Fudge and Associates. Ottawa : Environmental Studies Research Funds, 1993. xv, 67 p. Bibliogr. (Environmental Studies Research Funds report ; no. 121) ISBN 0-921652-22-4
MICROLOG 93-07559 1 fiche

Petroleum exploration/production activities in Canadian coastal and shelf areas and oil tanker traffic through Canada's coastal waters carry with them the risk of petroleum spills and contamination of a variety of marine habitats, including the seabed sediments and the flatfish inhabiting them. This study reviewed the state of knowledge concerning the tainting of flatfish by petroleum hydrocarbons accumulated from sediments; the ability of flatfish to detect and avoid oil-contaminated sediments; and the processes controlling the transport of spilled hydrocarbons from surface oil slicks to seabed sediments.

Rocky Ridge Area Structure Plan and supporting information

Calgary, Alta. : Calgary Planning and Building Dept., 1992. i, 45 p. : ill.
MICROLOG 93-05269 1 fiche

The Rocky Ridge area was annexed to the City of Calgary from the M.D. of Rocky View in July 1989 as part of a comprehensive annexation. The area has been heavily subdivided for both country residential and minor agricultural use. In June 1990, Triple Five submitted a development concept plan for Rocky Ridge that was circulated to interested parties and resulted in the formation of a planning committee in April 1991. The area plan formally began then. This document presents the area structure plan and supporting information, providing information on residential and commercial development, open space, transportation, servicing and utilities, water supply, restricted development area and transportation corridor, and the phasing of development.

Rocky Ridge area structure plan and supporting information -- Proposed

Calgary, Alta. : Calgary Planning and Building Dept., City and Community Planning Division, 1992. ii, 45 p. : fold. maps.
MICROLOG 93-01334 1 fiche

Most of the Rocky Ridge area was annexed to the City of Calgary in 1989 as part of a comprehensive annexation. The northeastern corner of the area was annexed in 1982 in conjunction with two sections to the north for the proposed Calgary Research and Development Park. In June 1990, a development concept plan for Rocky Ridge was submitted and a Community Planning Advisory Committee was established in April 1991 because of community concerns. The area structure plan was then created. This plan describes the planning area and concept along with policies for residential, commercial and open space areas, joint use sites, regional pathways, environmentally sensitive land, neighbourhood parks, transportation, servicing and utilities, water supply, municipal water, groundwater, sanitary and storm sewers, shallow utilities, restricted development area and transportation/utility corridor and phasing of development.

The Role of education in environmental impact assessment : an analysis of practical reasoning about the Tsitika watershed issue

by J. Balke. Hull, Que. : Canadian Environmental Assessment Research Council, 1991. 46 p. Bibliogr. (Manuscript report ; MR11-91)
MICROLOG 93-06022 1 fiche

This study explored the need for education designed to improve the practical reasoning ability of environmental impact assessment (EIA) participants. A questionnaire format known as the J-Test was utilized to investigate the reasoning of key participants in a federal environmental assessment review process dealing with a controversial integrated resource management issue in the Tsitika Valley, British Columbia. Questionnaire respondents included members of governmental committees involved in management of the area as well as other, independent participants (non-committee members) in the ongoing debate over potential environmental impacts. Characteristics of the practical reasoning were compared using criteria developed by the Association for Values Education Research, University of British Columbia.

The Role of fluids in the late-stage of the South Mountain Batholith, Nova Scotia : further geochemical and oxygen isotopic studies

by D.J. Kontak, R. Kerrich and D.F. Strong. Halifax : Dept. of Mines and Energy, Mineral Resources Division, 1991. 19 p. : ill. Bibliogr. (Contribution series ; 91-004) *In* Atlantic Geology : *27, 1991.*
MICROLOG 93-01446 1 fiche

This paper presents geochemical and oxygen isotope data for mineral phases (quartz, feldspar, muscovite, garnet, tourmaline) from pegmatics and greisens within the eastern part of the South Mountain batholith. Efforts were concentrated in areas underlain by pegmatites and one well-developed greisen to more closely examine the isotopic and geochemical nature of fluids in the terminal stage of batholith evolution. Analyses of REE, compatible (barium, strontium, europium) and incompatible (lithium, cesium, rubidium) elements in feldspars and muscovites are employed to test for the relative roles of crystal fractionation and evolved fluids. In addition to the isotopic and geochemical data, the degree of aluminium-silicon order in alkali feldspar was determined to provide further information on the thermal evolution of the areas examined.

This report contains an inventory of regional engineering terrain conditions in the Roslyn Lake area, District of Thunder Bay. Information was obtained mainly through aerial photographs checked with published and unpublished literature documenting previous field visits and observations. In summer 1978, roads in the area were traversed and observed conditions recorded as further verification of office studies. The report describes the geological setting and engineering terrain units, including bedrock, moraine, glaciofluvial, glaciolacustrine, alluvial and organic landforms.

Royal Canadian Mint : Annual report 1992

Ottawa : The Mint, 1993. 24 p. : ill. *Bilingual. CSI 22278.001.*
MICROLOG 93-08586 1 fiche

The Royal Canadian Mint is the Crown corporation responsible for minting the nation's circulation coins. Over the years, the RCM has successfully diversified its operations and extended the scope of its marketing activities beyond Canada's borders and now offers a wide range of specialized, high quality coinage products and related services on an international scale. This annual report covers circulation coins, numismatic coins and medals, and precious metals and refinery services. It also gives a financial review and statements, and provides a 5-year review with statistics.

Ruggedized transducer subsystem for ice hazard detection sonar

by C-Tech Ltd. ; for Transportation Development Centre, Policy and Coordination Group, Transport Canada. Cornwall, Ont. : The Corporation, 1991. xiii, 186 : ill., fold. ill. Bibliogr.
MICROLOG 93-01477 3 fiche

Navigation in ice infested Arctic waters could benefit from sensor technologies providing adequate information on icebergs in open and ice covered waters to allow optimum course selection and/or collision avoidance manoeuvres. The design of an experimental ruggedized transducer subsystem to be fitted to an existing exploratory sonar system mounted in the hull of a typical icebreaking freighter, such as Canarctic Shipping Co.'s MV ARCTIC was undertaken in August 1988. The program also entailed fitting data collection interfaces for use in a subsequent field trial. This report describes the development of the subsystem, its implementation, the specifications involved, and the status of the program.

Safety evaluation studies : Sissiboo River Hydro System, Nova Scotia

by J.H. McCrea and E.R. Brown. Montreal : Canadian Electrical Association, Hydraulic Power Section, Hydraulic Structures Subsection, 1992. 22 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06049 1 fiche

Safety evaluation studies of hydraulic structures are becoming an integral part of the operation and maintenance programs for dam owners in Canada. The Nova Scotia Power Corporation has commenced a program to conduct dam safety evaluations of all their dams of significant size. This paper describes the safety evaluation study of the Sissiboo River Hydro System. The study includes the evaluation of the Probable Maximum Flood (PMF) and its basinwide effects. Site specific safety evaluations at each development are discussed including the geotechnical investigations and stability analysis. The studies result in specific recommendations for remedial measures at each of the developments.

Sampling Ontario lake trout stocks : issues and standards

Ontario. Ministry of Natural Resources. Lake Trout Synthesis Sampling Issues and Methodology Working Group. Toronto : The Ministry, 1991. iv, 117 p. : ill. Bibliogr.
MICROLOG 93-01600 2 fiche

This report describes a cost effective approach for evaluating the status of lake trout in Ontario lakes using Fisheries Assessment Units (FAU) and a district lake assessment program based on a common sampling framework, although sampling intensity is different. Intensive trend-through-time studies of FAU lakes, and monitoring variables such as harvest, effort, abundance, mortality, growth and condition are necessary to develop models and establish criteria. Problems in estimating diagnostic variables are discussed and standard methods designed to ensure greater comparability of results are proposed. Lower cost point-in-time assessment methods are developed using historical FAU data to identify functional relationships between easily obtained statistics and variables of concern. Effort and catch indexing programs are presented as a means of evaluating lakes on a district wide basis.

Les Sans-abri au Canada -- Rév.

par P. Begin. Ottawa : Bibliothèque du Parlement, Service de recherche, 1992. 22 p. Bibliogr. (Bulletin d'actualité ; 89-8F) *L'éd. anglaise (Homelessness in Canada). Révisé le 12 mai 1992.* ISBN 0-660-93905-3
MICROLOG 93-00858 1 fiche

Etre sans abri, c'est ne pas avoir de toit au-dessus de la tête, mais c'est aussi beaucoup plus. L'absence de logis coupe l'individu du reste de la société, l'empêche de jouer un rôle dans la collectivité et lui nie toute vie privée et toute sécurité. Ce document se penche sur les sans-abri au Canada. Il aborde principalement la définition des sans-abri; le dénombrement des sans-abri; la composition de la population de sans-abri; la pénurie de logements abordables; les solutions au problème des sans-abri; et, les mesures parlementaires.

La Santé des femmes indiennes

par C. McBride et E. Bobet. Ottawa : Affaires indiennes et du Nord Canada, 1990. 32 p. : ill. *L'éd. anglaise (Health of Indian women) sur la même fiche. Rapport d'après la présentation faite au 81e congrès annuel de l'Association canadienne de santé publique. CSI 21113.231.* ISBN 0-662-97761-0
MICROLOG 93-02240 1 fiche

Les Indiennes ont besoin de services de santé de nature différente parce que la population d'Indiens inscrits est plus jeune que la population canadienne. Alors que les Indiennes sont dans leur période de procréation, les Canadiennes s'acheminent plutôt vers la retraite. Par conséquent, les Indiennes auront besoin de services de santé destinés aux mères et aux enfants, tandis que les Canadiennes auront recours aux services de santé offerts aux personnes âgées. Ce document se penche précisément sur la santé des femmes indiennes et examine particulièrement les aspects démographiques, l'état de santé, et les conditions sociales.

La Santé et la sécurité des travailleuses canadiennes : un document de référence

par K. Messing. Ottawa : Travail Canada, Bureau de la main-d'oeuvre féminine, 1991. 111 p. Bibliogr. *L'éd. anglaise (Occupational safety and health concerns...) : 92-04291/2.*
MICROLOG 93-08294 2 fiche

Ce document s'intéresse aux questions de santé et de sécurité au travail associées aux emplois traditionnellement occupés par des femmes ainsi qu'à des questions associées aux emplois non traditionnels. Il fait en premier lieu un survol des enjeux en matière de santé des travailleuses. La section 2 est une introduction générale au champ d'étude de la santé au travail. La section 3 traite des effets sur la santé des conditions de travail communes à plusieurs emplois traditionnellement occupés par des femmes, y compris des conditions telles que la cadence rapide et les mouvements répétitifs des mains. La section 4 présente quelques-uns des risques associés à certains emplois (travailleuse de bureau, serveuse) afin de considérer chaque emploi dans toute son intégrité. La section 5 décrit les problèmes de santé et de sécurité auxquels s'exposent les femmes qui occupent des emplois non traditionnels de col bleu. Etant donné qu'il existe des lacunes importantes dans l'information existante sur la santé et la sécurité au travail des femmes, le document propose à la section 6 quelques pistes de recherches qui pourraient être menées sur ce sujet.

SAS programs for fitting a seal population dynamics model

by N.G. Cadigan and P.A. Shelton. St. John's : Dept. of Fisheries and Oceans, Science Branch, 1993. iii, 34 p. Bibliogr. (Canadian technical report of fisheries and aquatic sciences ; no. 1927) ISSN 0706-6457
MICROLOG 93-08455 1 fiche

This technical report presents a description of two SAS programs (MAKED.SAS and SEAL.SAS) that fit a population dynamics model of seal data. The programs were constructed in such a manner that special knowledge of SAS is not required to run them. The population dynamics model is transformed to a standard nonlinear regression model and parameters are estimated using SAS's PROC NLIN. Output from the programs includes estimates of intrinsic mortality, pup numbers over time, and total population numbers over time. The code for the programs is presented along with two examples.

The Saskatchewan All Risk Crop Insurance Program : an evaluation of land use, technology adoption and participation : final report

by W.P. Weisensel, A. Schmitz and W.H. Furtan. Regina : Saskatchewan Agriculture Development Fund, 1990. xii, 145 p. : ill. Bibliogr.
MICROLOG 93-02206 2 fiche

There is a growing concern that the Saskatchewan Crop Insurance program inhibits soil conservation and slows the adoption of new technology. Differences in regional participation rates are also a concern. This report examines and explains the influence of crop insurance on management decisions and the differences in participation rates in various regions of the province. A conceptual model was developed that explains how a general crop insurance program affects farm management decisions, particularly the decision to participate, as well as the traditional principle-agent problem of moral hazard (changing farm practices because of crop insurance) and adverse selection (participators tend to have slightly lower yields). To test the hypotheses of the model, survey data was collected from 250 producers in four separate regions. Both participants and non-participants were contacted, allowing a comparison of socio-economic data and farm practices.

Saskatchewan's five year occupant restraint program, 1988-92 : an interim evaluation

by M. Medgyesi, D. Koch and P. Landry. Regina : Saskatchewan Government Insurance, 1992. 19 p. : ill. *CSI 72186.200.*
MICROLOG 93-04823 1 fiche

In April 1988, Saskatchewan Government Insurance implemented a five-year program to encourage the proper use of seat belts and child restraints among vehicle occupants. A key feature of the program was its selective traffic enforcement program approach in which seat belt legislation is rigorously enforced during two, two-week periods of the year in coordination with advertising and publicity campaigns. This paper summarizes the first evaluation, conducted after 20 months of the program, provides more current observations where available, and identifies deficits in program performance.

Saturated winding parameters from normal transformer energizing transients

by A. Narang. Toronto : Ontario Hydro, Research Division, 1992. 19 p. : ill. Bibliogr. (Report ; no. 92-66-K)
MICROLOG 93-02998 1 fiche

Accurate values are needed for winding leakage and air-core inductance for transient studies involving transformers. Some of these are readily available but others are more difficult to obtain, even from the manufacturer, either because they cannot be measured directly or because they require elaborate tests. This report describes an approach for obtaining some of the more difficult to obtain parameters, with minimal instrumentation, and without an extended transformer outage. The method is validated using results of computer simulations and illustrated fusing transients recorded for a 215.5/44 kV, 125 MVA transformer at Cherrywood Transformer Station.

Scale-up of the machine for production of moisture-resistant densified fuels from wood residues

B.H. Levelton & Associates Ltd. Ottawa : Canada Centre for Mineral and Energy Technology, Efficiency and Alternative Energy Technology Branch, 1993. v, 56 p. : ill. *CANMET contract: 23440-0-9587.* ISBN 0-662-20423-9
MICROLOG 93-06858 1 fiche

An extrusion process and machine have been developed for production of densified briquettes from wet wood residues without the use of a binder. A pilot scale extruder has been built for production of a 50 mm diameter log at a low production rate. Based on calculations, a machine similar in design to the lab unit could produce dense, moisture resistant fuel at up to 160 kg/hour, oven dry. Details are presented on extruder layout and modifications, test results, design correlations, technical feasibility, alternate designs, and economics of commercial production.

As part of its commitment to the sustainable forestry initiative, the Ontario Ministry of Natural Resources is in the process of developing a conservation strategy for old growth ecosystems. To accomplish this, it is necessary to understand the ecological, economic, and societal values associated with old growth ecosystems. Two different but complementary research approaches were selected, one a study on aesthetics and perception, using the Scenic Beauty Estimation Method, for forests in the Great Lakes-St. Lawrence area; and a more general survey on attitudes, perception, and preferences of old growth issues. Respondents to the survey were members of 13 non-profit organizations in various parts of Ontario and two groups of resource managers.

Scolytes des cônes et des rameaux du genre (Coléoptères: Scolytidae) du genre *Conophthorus* : une bibliographie annotée

par P. De Groot. Sault-Ste-Marie, Ont. : Forêts Canada, Institut pour la répression des ravageurs forestiers, 1987. iv, 28 p. (Rapport d'information ; FPM-X-76F) *L'éd anglaise (Cone and twig beetles...) : 88-01075/1.* ISSN 0704-772X ISBN 0-662-94185-3
MICROLOG 93-02784 1 fiche

Les scolytes du genre Conophthorus infestent les cônes et les rameaux du pin et comptent parmi les insectes les plus destructeurs des cônes et des graines en Amérique du Nord. Ce document présente une bibliographie annotée qui renvoie à 91 publications traitant du genre Conophthorus. Celles-ci portent sur certains aspects de la biologie, de la lutte antiparasitaire, de l'écologie ou de la taxinomie. Certaines publications sont générales ou portent aussi sur d'autres insectes. Trois index sur les auteurs, les espèces et les sujets sont présentés à la fin de la bibliographie.

Scrap tire applications in Ontario's transportation industry

by G.J. Kennepohl. Toronto : Ministry of Transportation, Research and Development, 1992. v, 30 p. : ill. *On cover: A status report*
MICROLOG 93-08429 1 fiche

The Ministry of Transportation has been involved in the research of rubber-modified asphalts (RMA) for over 15 years, conducting the first full-scale field trials in 1980. Renewed interest prompted by the scrap tire disposal problem and highlighted by the Hagersville tire fire in 1991 brought about a major joint Ministry of Environment and Ministry of Transportation demonstration project at Thamesville to assess the performance and environmental soundness of the latest RMA technology, especially the feasibility of recycling pavement that already contains recycled tires This report describes the development of scrap tire applications in the Ontario transportation industry and the evaluation of opportunities to use scrap tire rubber in transportation-related applications. These include lightweight fill, access hatch transition collars, paving bricks, noise barriers, energy attenuators, ballast for construction markets, portable speed bumps, guiderail block-outs/posts, and vehicle protection barriers. The report also includes two basic research projects to enhance the performance properties of RMA compositions and develop novel products.

Scrap Tire Management Workshop : final report

MWR and Associates. Toronto : Ministry of the Environment, Waste Management Branch, Waste Reduction Office, 1992. ii, 161 p
ISBN 0-7729-8720-5
MICROLOG 93-01100 2 fiche

Report of a workshop on scrap tire management, attended by members of tire manufacturers and retailers, manufacturers of value added products, consultants, federal and provincial governments, and environmental groups and organizations. The workshop was divided into three sections, with plenary speakers and workgroups. This report gives a summary of the reporting plenary sessions and the five working groups. Issues discussed included the lack of legal storage facilities and the approval process for such a facility, the system of collecting scrap tires, the regulation of haulers and storage sites, the use of the derived fuel, the need for incentives in the manufacture of value-added products, the need for continued research into rubberized pavement, the need for public education and the use of the tire tax to find solutions to the problems of scrap tires.

Screening report : Inland Cement Limited tire proposal

Edmonton : Alberta Environmental Protection, 1993. 36 p. : ill. Bibliogr.
MICROLOG 93-07777 1 fiche

Inland Cement Limited proposed a plan to use scrap tires as a fuel supplement at their manufacturing plant in Edmonton. This would replace about 10% of the natural gas fuel which the kiln now uses. The proposal was subject to public screening under the Alberta environmental process. This report is the screen report of that proposal plan. It presents a detailed project description, standards for emissions from cement kilns using tire derived fuel, public consultations, and an evaluation of potential adverse effects by Albert Environmental Protection.

The Sea of instructional improvement

by E.S. Hickcox. Toronto : Ontario Institute for Studies in Education, Dept. of Educational Administration, 1984. 10 p. *ONTERIS: ON06202*
MICROLOG 93-07256 1 fiche

This paper raises questions about defining the purpose of teacher evaluation as improvement of instruction. It argues that this concept, appropriate on the surface, is not really feasible in practice. The difficulty surrounding evaluation procedures is related to failure to distinguish between evaluation for improvement and evaluation for determining competence. Discusses the aspects of evaluation for improvement and how to determine improvement. Proposes to cease the common evaluation practices which are not very useful and instead, to establish some set of minimum ethical behaviours and a new definition of supervision as professional cooperation. Supervisors would then engage in problem-solving activities with teachers and promote development activities. Existing technologies would be employed in order to assist both the supervisor and the teacher in assessing progress.

Sea trials of a galvanic corrosion delayed release mechanism for snow crab traps

by M. Gagnon and M. Boudreau. Quebec : Dept. of Fisheries and Oceans, Fisheries and Habitat Management Branch, 1991. vi, 17 p. : ill. Bibliogr. (Canadian technical report of fisheries and aquatic sciences ; no. 1803)
ISSN 0706-6570 ISBN 0-662-18897-7
MICROLOG 93-02550 1 fiche

Ghost fishing by lost snow crab traps on fishing grounds in the southwestern Gulf of St. Lawrence is a problem of increasing concern for fishermen and resource managers because the traps can continue catching crabs for a number of years before decomposing, thus causing significant mortality. To test the precision and accuracy of galvanic time release mechanisms, experimental sea trials were carried out in fall 1990. This report gives the results of those trials and a summary evaluation of installation and operating costs of the mechanisms.

Seabed subsidence profiles over the Phalen Colliery derived from analysis of seafloor topography data

McGregor Geoscience Limited. Sydney, N.S. : Cape Breton Coal Research Laboratory, 1991. ix, 67 p. : ill., maps. Bibliogr. *CANMET contract: 23440-09172.*
MICROLOG 93-00496 1 fiche

The Phalen Colliery is located in northern Cape Breton, west of Glace Bay, Nova Scotia. The Phalen mine workings extend northward from the coastline under the waters of the Gulf of St. Lawrence. To detect seafloor subsidence, high resolution bathymetric data was collected over the Phalen Colliery from 1987-89. To identify zones of seafloor subsidence and estimate the amount of subsidence, pre-mining bathymetric profiles were compared to post-mining profiles. This report derives subsidence profiles from the bathymetric profiles, measures the amount of subsidence, and derives an indicator of the accuracy of the subsidence measurements.

Searching for fairness

Toronto : Fair Tax Commission, 1992. 32 p. : ill. *French ed. (En quête d'équité) on the same fiche.* ISBN 0-9695929-0-6
MICROLOG 93-05139 1 fiche

This document provides information needed to discuss questions regarding tax matters such as the following: Are there too many different kinds of taxes? Should Ontario introduce a wealth tax? Are Ontario's low-income families getting enough tax relief? Should the government have a process in place to reevaluate the tax deductions and subsidies available to taxpayers? Would there be any benefit to taxpayers if Ontario merged its retail sales tax with the federal GST? Should education continue to be financed mainly from property taxes? Have property taxes risen too much? Will higher taxes mean some companies will move? Does the tax system discriminate against women and the poor?

Seasonal variation in the tissue water relations of *Picea glauca*

by S.J. Colombo and Y. Teng. Sault Ste. Marie, Ont. : Ontario Forest Research Institute, 1992. 8 p. : ill. Bibliogr. *In* Oecologia : *92, 1992.*
MICROLOG 93-06355 1 fiche

This study was designed to determine whether seasonal patterns of water relations in white spruce are closely related to the phenology of the shoot apical meristem and seasonal variations in weather, and to evaluate water relations properties of importance to turgor maintenance capacity. Shoots of white spruce seedlings were collected from operationally produced crops at the Midhurst Tree Nursery. From September to March of each year, shoots were collected from seedlings that had completed their third year of shoot elongation. In early March of 1984 and 1985, sampling shifted to two-year-old seedlings that would produce their third- year shoot growth in the current year. Soil moisture tension during the summer was maintained above -100 kPa through irrigation.

Sediment metal chemistry survey of Esquimalt Harbour, British Columbia, October 1987

by D.E. Brothers. North Vancouver, B.C. : Environment Canada, Conservation and Protection, Environmental Protection, Pacific and Yukon Region, 1992. ii, 16 p. (Regional data report , DR 92-03) *Fiched appendix II not included.*
MICROLOG 93-03992 1 fiche

The need for repeat maintenance dredging at industrial locations and the degree of elevated concentrations of mercury and cadmium in the Esquimault Harbour prompted a comprehensive survey of the benthic sediment in October 1987 to determine the extent of trace metal contamination. This report presents data from the analysis of the samples collected.

Sediment metal chemistry survey of ocean dumpsites in British Columbia, July-November 1989

by D.E. Brothers. North Vancouver, B.C. : Environment Canada, Conservation and Protection, Environmental Protection, Pacific and Yukon Region, 1992. iii, 37 p. : maps. (Regional data report ; DR 92-02) *Fiched appendix II not included*
MICROLOG 93-03993 1 fiche

As part of a routine assessment program of designated and proposed ocean dumpsite locations on the southern British Columbia coast, benthic sediment studies were conducted during July, September, October, and November 1989. At each location, samples for trace metal concentration and particle size distribution were collected over a monitoring grid established to facilitate successive surveys. This report presents data from analysis of the samples collected.

Sediment oxygen demand investigations, Athabasca River, January to March 1992

Monenco Limited. Edmonton : Northern River Basins Study, 1993. vii, 77 p. Bibliogr. (Northern River Basins Study project report , no. 3) ISSN 1192-3571 ISBN 0-662-20010-1
MICROLOG 93-07235 1 fiche

The Northern River Basins Study was initiated through the Canada-Alberta-Northwest Territories Agreement Respecting the Peace-Athabasca-Slave River Basin Study, signed in September 1991. The study was conducted to characterize the cumulative effects of pulp mill development on the water and aquatic environment of the study area by coordinating with existing programs and undertaking appropriate new technical studies. This report provides the results from a 1992 study to measure sediment oxygen demand (SOD) on the Athabasca River to investigate temporal and spatial changes from January-March 1992; to determine SOD rates using in situ methods and procedures and/or an equivalent method, and to carry out measurements of environmental variables pertinent to SOD and describe relationships between these variables and the SOD rate.

Seed testing for blackleg of canola

by P.D. Kharbanda and R.R. Stevens. Vegreville, Alta. : Alberta Environmental Centre, 1993. viii, 41 p. : ill. Bibliogr. ISBN 0-7732-1230-2
MICROLOG 93-08836 1 fiche

This manual presents methodology used to test canola seed for blackleg infection. Step by step procedures have been described to isolate and recognize L. maculans from canola seed and plant tissue and to identify its virulent strain which is mainly responsible for causing economic losses in the crop. A brief description of symptoms of blackleg and the life cycle of the fungus, L. maculans, is presented. Recipes of different culture media, the use of haemocytometer, a glossary of scientific terms used, and various laboratories offering seed testing in Alberta are appended.

Seed yield and quality from early cone collections in Newfoundland populations of black spruce and white spruce

by A. Mosseler and P. Tricco. St. John's : Forestry Canada, Newfoundland and Labrador Region, 1991. vi, 23 p. Bibliogr. (Information report ; N-X-281) ISSN 0704-7657 ISBN 0-662-19612-0
MICROLOG 93-00211 1 fiche

Seed shortages in coniferous tree species often limit artificial forest regeneration efforts and silvicultural options such as direct seeding. Accumulated growing degree-days (GDD) were used to predict the earliest time at which cones of black spruce and white spruce could be collected without adversely affecting seed yield and quality. Cones were harvested at intervals of 100 GDD beginning about 600 GDD after pollination and ending with natural seed release in white spruce from 1200-1250 GDD.

Seedling stock type selection and ordering guidelines

by R. Scagel, M. Madill and C. Koolstra. Victoria : Ministry of Forests, Silviculture , Nelson, B.C. : Nelson Forest Region, 1992. iv, 54 p. : ill.
MICROLOG 93-05811 1 fiche

Selection of an ideal seedling stock type depends upon the identification of site-specific factors that determine seedling growth. This manual proposes a classification of acceptable and experimental stock types, reviewing the selection of types suitable for planting seasons and sites in the Nelson Region. It provides the logic and reference tables necessary for making a stock type selection decision and provides tips for implementing stock type selection. The manual also provides some background information on species, microsite, and site preparation selection. It reviews the interaction of these other factors with stock type selection.

The Selection and use of control groups in epidemiologic studies of radiation and cancer

by G.R. Howe, C.M. Friedenreich and P.D. Howe. Ottawa : Atomic Energy Control Board, 1990. vii, 182 p. Bibliogr. (Research report ; INFO-0376)
MICROLOG 93-08485 2 fiche

Current risk estimates for radiation-induced cancer are based almost entirely on epidemiologic studies of humans exposed to high doses of radiation. A critical feature of such studies is the selection of an appropriate control group, the function of which is to provide estimates of cancer risk in the absence of radiation exposure and to provide a standard for estimating risk ratios and risk differences. This report presents a detailed examination of the principles underlying the selection and use of control groups in such epidemiologic studies of radiation and cancer. Quantitative models are developed for both cohort and case-control studies, and these models are used to evaluate the effect of the choice and use of control groups on both bias and efficiency. A number of steps are identified for each type of study, and the bias that can arise at each stage is quantified.

Selection competition and survival of rhizobial strains for pea in Saskatchewan : final report

by C. Van Kessel. Regina : Saskatchewan Agriculture Development Fund, 1992. 20 p
MICROLOG 93-08353 1 fiche

To enhance economic yield of pea, the majority of farmers in Saskatchewan use an inoculant The inoculant contains a bacteria that is able to provide atmospheric nitrogen to the pea plant. The economic benefit depends on the quality of the inoculant, in particular the effectiveness of the bacteria to provide nitrogen to the plant. A new inoculant for pea was selected and tested under field conditions with four varieties of peas. The performance of the new inoculant was compared with the commercially available inoculants Grip, Nitragin-C, Esso-P, N-Prove, and MicroBio- Rhizogen.

Self-powered detector probes for electron and gamma-ray beam monitoring in high-power industrial accelerators

by M.A. Lone. Chalk River, Ont. : Atomic Energy of Canada Limited, Chalk River Laboratories, 1992. 23 p. : ill. Bibliogr. *At head of title: AECL research.* ISSN 0067-0367 ISBN 0-662-20058-6
MICROLOG 93-03865 1 fiche

A self-powered detector (SPD) is a simple passive device consisting of a coaxial probe with a metallic outer sleeve, a mineral oxide insulating layer, and a metallic inner core. SPDs are used in nuclear reactors for monitoring neutron and gamma-ray fields. This report investigates the responses of various SPDs to electron and gamma-ray beams from industrial accelerators with Monte Carlo simulations. By judicious choice of transmission filters, threshold SPD probes were investigated for on-line monitoring of the beam energy spectrum of the high-power IMPELA industrial electron accelerator.

Semi-automatic welding with P-GMA for offshore structure fabrication

by T.W. Lau and R. Hopkins. Toronto : Ontario Hydro, Research Division, 1991. iv, 54 p. : ill. Bibliogr. (Report ; no. 90-357-P) *CANMET contract: 23440-8-9181-01-SQ*
MICROLOG 93-01532 1 fiche

The construction of offshore structures for oil and gas exploration, particularly in the Arctic, has brought increased emphasis on the need for weld joints that exhibit superior low temperature fracture toughness. Currently, the most commonly used welding processes are submerged arc welding (SAW) for flat position applications, and shielded metal arc welding (SMAW) for out-of-position work. This report evaluates semi-automatic gas metal arc welding (GMAW) in the production of welds with a low incidence of defects in simulated offshore applications. The project identified welding consumables, developed a welding procedure, evaluated welding power supplies, and identified requirements for a welder training program.

Service performance of HVDC wall bushings

by P.J. Lambeth and H.M. Schneider. Montreal : Canadian Electrical Association, Engineering and Operating Division, Power System Planning and Operation Section, 1992. 16 p. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06063 1 fiche

This paper describes a survey of service performance of HVDC converter station insulators, with special reference to wall bushings which have had a record of flashovers and failures which cannot be readily accounted for by common causes. The scope of the survey is given, and the methods of presentation and analysis of the data collected are demonstrated. The numbers and physical characteristics of the insulators on site together with the details of individual faults comprise the essential data. Suggestions are made for improvements and systemisation for fault reporting. The analysis of the maintenance procedures and means of preventing flashover which have been used give an indication of their effectiveness.

Les Services de garde au Québec : un équilibre précaire

recherche, consultation et rédaction. Bernard Marier et Colette Lanthier. Québec : Conseil de la famille, 1993. 67 p. Bibliogr. ISBN 2-550-27949-2
MICROLOG 93-08821 1 fiche

En début d'étude, un bref rappel historique permet de cerner le contexte entourant l'apparition des premiers services de garde et des mesures d'aide consenties par l'État aux familles québécoises. L'évolution sociale est par la suite retracée pour en arriver à la présentation de la famille québécoise at'aube du XXIe siècle. Dans une troisième partie, les besoins des familles sont décrits pour être ensuite confrontés aux ressources existantes et aux engagements pris par l'Etat. Finalement, cet Avis présente les recommandations adoptées par le Conseil de la famille lors de sa réunion du 5 mai 1993 dans le but de mieux répondre aux besoins des parents en matière de services de garde pour leurs enfants. Des tableaux, une bibliographie et la liste des personnes consultées au moment de la préparation de cet Avis complètent le travail

Setting agricultural research priorities in sub-Saharan Africa : criteria, issues, and options

by O.M. Ogbu. Ottawa : International Development Research Centre, 1993. v, 33 p. : ill. Bibliogr. ISBN 0-88936-680-2
MICROLOG 93-04505 1 fiche (Available on fiche only)

Given declining agricultural productivity, scarce research resources, and the need for research on almost all crops grown in sub-Saharan Africa, this paper discusses and explores additional criteria for identifying agricultural research priorities in the sub-region. Using data on crops from both the Sahel and SADCC regions, the paper identifies the issues and trade-offs, and underscores the need for the search for a methodology reconciling the various criteria in order to minimize conflicting objectives and trade-offs arising from decisions on resource allocation.

Seven Mile Reservoir raising environmental impact assessment and compensation proposals

Vancouver, B.C. : B.C. Hydro, Corporate and Environmental Affairs, Environmental Resources, 1991. iv, 78 p. : fold. maps. Bibliogr.
MICROLOG 93-02989 1 fiche

The 1984 Skagit River Valley Treaty Implementation Act provided for the raising of the Seven Mile Reservoir normal operating level from EL. 522.7 m to EL. 527.3 m., the level for which the dam was designed. The dam, located on the Pend d'Oreille River, was completed in 1980 and with this raising and the future installation of a fourth unit can operate at its full potential. An environmental impact assessment was undertaken in 1986 by B.C. Hydro to identify the socio-economic and environmental resources that could be affected by the raising and to select parameters for more detailed studies. This document reports on the subsequent studies, analyzes the impacts, records the value of the losses and identifies measures to offset impacts. Some of the compensation measures have been implemented and are reported on and the current status of the remaining items and the proposed actions are identified.

Sheffield farm aquifer vulnerability study, year 3, 1990-91, activities

Dartmouth, N.S. : Environment Canada, Conservation and Protection, Inland Waters Directorate, Atlantic Region, Water Planning and Management Branch, 1991. iii, 87 p. : ill., maps. Bibliogr. *Cover title: Aquifer vulnerability : Sheffield Farm Project : year three, 1990-91, report.*
MICROLOG 93-03507 1 fiche

A five-year project to determine the environmental behaviour of pesticides and nitrates in the climatic, physiographic and soil conditions found in Atlantic Canada is being conducted to provide a site and logistics model for those evaluating the chemistry and fate of agrochemicals in groundwater, and to evaluate agricultural practices that can be applied to avoid unacceptable contamination of groundwater by pesticides and fertilizers. The study involves application of pesticides and fertilizers to crops in a controlled manner but closely following normal agricultural practices. Groundwater quantity and quality are monitored through a series of piezometers and lysimeters. The Agriculture Canada Sheffield Farm, Kings County, Nova Scotia, is the site for all field experiments. This report describes the activities of the third year, including continuation of site requirements from years one and two, and the beginning of the pesticide application and monitoring experiment.

Short term container fleet management : issues, models and tools

by P. Dejax...et al. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. iii, 17 p. Bibliogr. (Publication ; no. 840)
MICROLOG 93-05453 1 fiche

The management of the land transportation part of the international marine shipping of containers is an extremely complex activity, especially if the aim is to simultaneously optimize the cost and the service aspects of operations in a competitive environment. Management of a fleet of loaded and empty containers, at the operational, day-to-day, level is an important component of the overall operations of international shipping firms. Major factors that characterize this level of planning are the dynamic and stochastic environment and the guidelines established by the general transportation and distribution plan. This paper introduces this important problem, identifies the main issues involved, and describes its most important characteristics. It also describes a general modelling and algorithmic framework for the problem, based on set covering and column generation principles, and discusses some of its variants.

MICROLOG 93-04531 1 fiche

This report presents and documents the evolution of the October 1992 short-term load forecast, including highlights. Details are given on the inputs to the July 1992 basic load forecast, the method of determining the short-term basic load forecast and the unallocated load, the derivation of the short-term primary load forecast, the October 1992 short-term forecast, and a comparison of the October 1992 forecast with the July 1992 and the October 1991 forecasts. A description of the models used is also given.

Shotcrete application of cementitious sealant materials for acid rock drainage control

by Northwest Geochem ; in association with Powertech Labs Inc. Victoria : Ministry of Energy, Mines and Petroleum Resources, B.C. Acid Mine Drainage Task Force, 1991. v, 72 p. : ill. Bibliogr.
MICROLOG 93-02294 1 fiche

Recent studies evaluated the efficacy of solidified mixtures containing cement, water treatment sludge, mine tailings, and sand for use both as a surface sealant and a grouting matrix for the control of acid rock drainage at the Westmin Myra Falls site. The mixtures developed to date were designed as a placed cement product and are therefore difficult to use in covering sloping rock faces. This study

determined how to optimize the use of mine wastes such as coarse tailings in a shotcrete mix that could be applied to vertical or sloped rock faces. The research program included design of the shotcrete to maximize the use of mine tailings; trial mixes to investigate the effects of the addition of waste materials, admixtures, and fibres to the shotcrete and to evaluate material properties; a pilot scale test in which test panels of the shotcrete were shot, and testing of the shotcrete panels in accordance with established ASTM and CSA procedures.

Shrimps and shrimp-like anomurans (Crustacea, Decapoda) from southeastern Alaska and Prince William Sound

by H.J. Squires and A.J.G. Figueira. Ottawa : National Museum of Natural Sciences, 1974. 23 p. : ill. Bibliogr. (Publications in biological oceanography , no. 6)
MICROLOG 93-02817 1 fiche

This paper describes the caridean and thalassinidean decapods obtained by the National Museum of Canada marine biological expedition in 1961 to the coastal waters of southeastern Alaska and Prince William Sound A total of 40 species (21 hippolytids, eight pandalids, 10 crangonids and one callianassid) were collected. Some remarks on the biology and ecology of several of the species are included.

SIDA : le suivi de l'épidémie au Québec : réflexions sur un bilan des Drs Robert Remis et Elise Roy

par D. Desjardins. Québec : Ministère de la santé et des services sociaux, 1991. 35 p.
ISBN 2-550-22625-9
MICROLOG 93-07528 1 fiche

Ce document présente le bilan des Docteurs Robert Remis et Elise Roy sur le suivi de l'épidémie au Québec. On y fait d'abord un survol des travaux qui sont présentés dans le bilan des docteurs. On propose une brève analyse de la nature de ces travaux et des méthodologies utilisées. On s'arrête ensuite au portrait construit par les docteurs à partir des données résultant de ces travaux. On retient les éléments de réponse aux questions qui apparaissent capitales, à savoir: où en est l'épidémie du sida au Québec? Quelles sont ses caractéristiques et comment évolue-t-elle? Le document se termine par des recommandations sur des moyens de surveillance à privilégier et sur des priorités de recherche à retenir. Les réflexions présentées, à la section suivante, s'inspirent en partie de ces recommandations.

A Significant change to the Satellite Data Archiving System (SDAS)

by M. Connelly. Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1990. 30 p. : ill. (Report ; no. 90-3)
MICROLOG 93-00187 1 fiche

The Satellite Data Archiving System was implemented to fulfil Canada's obligations to the International Satellite Cloud Climatology Project, operated under the auspices of the World Meterological Organization. Canada's obligations include regular submission of data sets received from the Geostationary Operational Environmental Satellite East whose position over the equator is normally at 75 degrees west. This report describes the system and its products; its initial configuration and the changes to May 1989; and the advantages of the current configuration, including a new frame synchronizer.

Silvicultural systems : their role in British Columbia's forest management

Victoria : British Columbia Forest Service, Silviculture, 1991. iii, 42 p. : ill. Bibliogr.
MICROLOG 93-01173 1 fiche

In 1989, a program on silvicultural systems was initiated, along with a study to review the current status of silvicultural systems in B.C.; to identify public and industry attitudes relating to forest management and silvicultural systems; and to review the concepts of new forestry and discuss the implications of its application in B.C. The report includes a brief history of silvicultural and forest management in B.C., followed by an outline of the forest management controversy. A variety of silvicultural systems available in B.C. are reviewed for their characteristics, advantages and disadvantages. The considerations in choosing a system are presented, including management goals, ecological and biological factors, and operational and socioeconomic considerations. New Forestry concepts are outlined and the challenges involved in applying the approach in B.C. are explored. The issues pertaining to the selection and application of silvicultural systems are summarized and a number of recommendations are presented for future research. A glossary is included.

Simulation of a climatology for leaf wetness duration in field corn

by B. Bass, I. Savdie and T.J. Gillespie. Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1991. iii, 36 p. : ill. Bibliogr. (Report ; no. 91-1)
MICROLOG 93-00365 1 fiche

Computer models of the evaporation of dew and the drying of water drops on plant leaves were combined to simulate leaf wetness duration at a depth within a corn canopy that is critical for the onset of disease. The models, originally developed for use in the field, were adapted to run on hourly climate observations from May to September at different locations in Canada. The models were used to compute the probability of particular episodes occurring in any month, the return period of extreme episodes and the average temperature associated with different lengths of leaf-wetness duration.

1991. This report, the second of six volumes, discusses the development of the boundary element modelling method, including the simulation of the failed zones around mined openings. This development is embodied in the three-dimensional code MINE3D which has as its distinguishing features the ability to simulate localized regions of plastic yields within an elastic continuum and the capability to model interacting regions of different material types, thus allowing the simulation of backfill emplacement. The report discusses the theoretical basis for this development and the capabilities and limitations of the MINE3D.

Simulation of downlink synchronization for a frequency-hopped satellite communication system (U)

by L.C. Wagner. Ottawa : Defence Research Establishment Ottawa, 1992. xi, 30 p. : ill. Bibliogr. (Technical note ; no. 92-9)
MICROLOG 93-02358 1 fiche

Frequency-hopped spread spectrum satellite communication systems provide robust communications resilient to many types and levels of jamming but the increase in resilience is offset by an increase in complexity while establishing the communication link, termed synchronization. This report describes a downlink synchronization process that involves the transmission of synchronization hops by the satellite and a two-step ground terminal synchronization procedure. Computer simulation results are documented that demonstrate that the proposed synchronization algorithm is able to operate in environments as severe as the communication link.

Single-vehicle routing and scheduling to minimize the number of missed deadlines

by M. Gendreau, G. Laporte and M.M. Solomon. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 17 p. Bibliogr. (Publication ; no. 838)
MICROLOG 93-01798 1 fiche

This paper examines the problem arising in vehicle routing and in production scheduling in which there is a single incapacitated vehicle and a number of customers with deadlines. The objective is to minimize the number of deliveries completed after the deadline. This problem is NP-hard, but a class of solvable cases can be characterized. An integer linear programming formulation is proposed and the problem is solved optimally with a specialized enumerative algorithm. Computational results are presented for problems involving up to 100 customers.

To minimize equipment and labour costs in the production of European oysters, the later stages of commercial growout must take place on the sea bed. Little is known of the performance of this species in bottom culture along the Atlantic coastline of mainland Nova Scotia or of the availability of suitable sites for the purpose. This interim report details desirable site characteristics to meet the requirements of both the species and the grower; evaluates how closely they can be met by sea bed and water quality conditions along the geographic extent of the Atlantic coastline; and provides biological assessments of the growth, condition, and survival of three consecutive year classes during the 1990 growing season at 12 test sites.

La Situation démographique au Québec, 1991-92

par L. Duchesne. Québec : Bureau de la statistique du Québec, Statistiques démographiques, 1992. 231 p. : ill. Bibliogr. *CSI 67131.052.* ISBN 2-551-15077-9
MICROLOG 93-07824 3 fiche

Ce document présente une analyse qui fait état de la situation démographique récente du Québec dans une perspective temporelle et la compare avec celle du Canada et de plusieurs pays. Le texte décrit l'évolution de la population, de la mortalité, de la fécondité, de la nuptialité et des migrations. De plus, une section traite de variables socio-démographiques, notamment la langue et la scolarité. Enfin, des tableaux statistiques sur la population et les événements démographiques, regroupés en annexe, complètent cet ouvrage. Il contient aussi une sélection des informations de base nécessaires à la compréhension de l'évolution démographique du Québec.

The Sixty percent solution : increased provincial funding for education : the 1991 transfer payments

Toronto : Ontario Public School Boards' Association, 1990. 17 p. *ONTERIS: ON05915*
MICROLOG 93-00344 1 fiche

The Ontario Public School Boards' Association (OPSBA) advises the government of the views of public school trustees regarding its promise to raise the provincial share of education costs to 60 percent over 5 years. It urges the government to consider various requirements for 1991: consumer price index, impact of the General Sales Tax, student enrolment, impact of pooling of commercial and industrial assessment, costs of pay equity, and environmental regulations costs. OPSBA recommends that the government provide a minimum increase of 11 percent for 1991 and that the Ministries of Education, Treasury and Economics establish a consultative process with the education sector to set new levels for expenditure ceilings. It asks the government to establish a broad consultation forum to develop and implement a revised system of education finance.

Slag foaming in electric arc furnace smelting : final report

by T. Utigard. Ottawa : Dept. of Energy, Mines and Resources, CANMET, Mineral Sciences Laboratories, 1992. 38 p. : ill. Bibliogr. *CANMET contract: 23440-9-9298.*
MICROLOG 93-04266 1 fiche

In many metallurgical processes, foamed slags are used to create large surface areas for multiphase reactions to take place, leading to improved process kinetics, heat transfer, and energy efficiency. However, there is still a lack of understanding as to what controls the foamability of slags, and the maximum utilization of foams has not yet been reached. Slag foaming experiments were carried out using synthetic iron oxide-calcium oxide-silicon dioxide slags at temperatures from 1200C-1350C and gas injection rates and temperatures were evaluated. Slag foaming data from a number of investigators were reviewed and analyzed also.

A Smart transformer overload relay

by T.S. Molinski...et al. Montreal : Canadian Electrical Association, Engineering and Operating Division, Electrical Apparatus Section, Power Transformers Subsection, 1992. 8 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06042 1 fiche

A transformer overload relay that adjusts its pick-up setting in response to several input variables is described. The variables that the relay senses are load current, ambient temperature, and outage duration. Based on these, and certain user input parameters, the pick-up setting changes continuously with the passage of time, in two 'smart' ways: the first having to do with maximum rate of loss of life, closely associated with hot spot temperature, and the second having to do with cold load pickup. The purposes of this paper are to propose an adaptive transformer overload relay design, with a view to input from others as to the practicality of the ideas, and to make available to anyone interested, two personal computer programs concerning transformer top oil temperature, hot spot temperature, and loss of life, and cold load pickup curves, as functions of elapsed time.

The two main purposes of this study were to document and evaluate differences in social composition between Metropolitan Toronto's public sector housing and the rest of the Toronto Census Metropolitan Area for 1971 and 1986, and to identify and analyze social variations within public sector housing in Metropolitan Toronto for 1971 and 1986. The study included six major housing providers: the Metropolitan Toronto Housing Authority, limited dividend projects, the Metropolitan Toronto Housing Company Limited senior citizens projects, municipal non- profit projects, private non-profit projects, and cooperative projects. This document contains the study findings.

Social impact analysis of a forest management program

by E. Hundert. Hull, Que. : Canadian Environmental Assessment Research Council, 1987. 38 p. Bibliogr. (Manuscript report ; MR5-87)
MICROLOG 93-05354 1 fiche

The incorporation of social analysis in renewable resource management follows from a recognition of the interdependent relationship between human social systems and the natural environment. The relevance of this relationship to resource management is demonstrated historically and by the present use and role of Cape Breton's forests. In particular, the role of the small woodlot owner and some of the social variables involved in the management of the small woodlot sector are described. The methodology and results of a socio-economic impact assessment of a federal/provincial program to increase the productivity of Cape Breton's small woodlots are presented as a case study.

The Social sciences in Canada : a national resource

by J. Trent, S.B. Esbensen and M. Allard. Ottawa : Dept. of the Secretary of State of Canada, Canadian Studies Directorate, 1992. 50, 55 p. : ill. Bibliogr. (About Canada) *Bilingual (Les Sciences sociales au...).* ISBN 0-662-58605-0
MICROLOG 93-01921 2 fiche

This document describes the scope of the social sciences in Canada by examining how they are practically applied to the activities of major institutions such as government, business, and organized labour, as well as their place in the voluntary sector of society. It also considers the influence that other disciplines such as geography, history, law, and psychology have had on the social sciences. Finally, it examines how this discipline is stimulating the intellectual community into a new and revitalized understanding of one of the most important national resources in the country.

Sociopsychological costs and benefits of multiculturalism

by J.W. Berry. Ottawa : Economic Council of Canada, 1991. vii, 44 p. Bibliogr. (Working paper ; no. 24) ISSN 1180-3487
MICROLOG 93-00660 1 fiche

This paper provides an overview of the multiculturalism policy and programmes including the original policy and recent changes in priorities. It reviews the changing pattern of immigration that has brought about the present demographic profile in Canada. It also outlines the two major domains of social and cultural psychology that contribute to the study of ethnic and race relations and immigrant acculturation and reviews some current ideas and theories. On the basis of these materials, it presents and evaluates the empirical evidence. Finally it outlines some of the social costs and benefits and makes recommendations with respect to immigration and multiculturalism.

Software development and analysis for experimental high frequency surface wave radar data

by H.C. Chan. Ottawa : Defence Research Establishment Ottawa, 1992. xii, 50 p. : ill. Bibliogr. (Report ; no. 1153)
MICROLOG 93-04243 1 fiche

An experimental high frequency surface wave radar project was carried out in 1989 to obtain first hand experience in data collection, processing, and target detection using high frequency surface wave transmission. A substantial amount of data were collected but only a small part was analyzed by the contractor. The data were then analyzed in-house for the characteristics of high frequency sea clutter, noise, and various types of targets. Since these are raw data, they require some pre-processing before they can be analyzed. This report describes the development of in-house pre-processing software and the findings during preliminary examination.

Software standards for plant safety and control systems

by N.M. Ichiyen and P.K. Joannou. Montreal : Canadian Electrical Association, Engineering and Operating Division, Power Generation Section, Thermal and Nuclear Power Subsection, 1993. 8 p. *Presented at Electricity '93 : distribution power quality.*
MICROLOG 93-05199 1 fiche

There are currently no standards or widely adopted practices available to ensure that a software product will have a high reliability. Achievement of high reliability is especially important when software is used within plant safety and control systems. In the nuclear industry an added requirement is the need to demonstrate to a regulatory authority that an adequate reliability has been achieved. This paper summarizes the unique problems associated with software used in systems requiring high reliability, Ontario Hydro's and AECL's experience in dealing with these problems during the licensing of the Darlington Nuclear Generating Station, and the initiatives undertaken to deal with the problems in the future. The paper discusses the relevance to other industries and how the problems are being addressed internationally. The current status of the initiatives is given along with a discussion of the challenges that remain ahead.

Soil gas containing VOCs entering homes near hazardous lands

by M. Adomait. Ottawa : Canada Mortgage and Housing Corporation, 1992. viii, 76 p. : ill. Bibliogr.
MICROLOG 93-06163 1 fiche

The entry of soil gas volatile organic compounds (VOCs) into houses is recognized as a contributing factor in the degradation of indoor air quality. Although there are hundreds of evaluations carried out yearly to assess the impact of soil-gas VOCs indoors, very few studies address the VOC concentration variability over time or the factors which influence this variability. This study was designed to develop a practical protocol to evaluate the impact of soil gas VOCs on indoor air. The temporal concentration variability of methane and oxygen in the ambient air and the subsurface was monitored as well as the driving forces that influenced the variability.

Soil properties and root development in forest trees : a review

by R.F. Sutton. Sault Ste. Marie, Ont. : Forestry Canada, Great Lakes Forestry Centre, 1991. 42 p. Bibliogr. (Information report ; O-X-413) ISSN 0832-7122 ISBN 0-662-18266-9
MICROLOG 93-05862 1 fiche

This report reviews the literature to consolidate silviculturally important information about interactions between root system development and soil properties. The thesis is that the root systems of forest trees develop in response to complex genetic, physiological, and environmental (edaphic and atmospheric) interactions, subject to limitations imposed by aboveground growth and limiting levels o any of many individual factors. Fifteen soil factors, the soil-root interface, and six plant factors are examined in turn.

MICROLOG 93-05019 1 fiche

Les familles forment une population silencieuse qui besogne fort malgré l'inquiétude et l'insécurité et qui agit de façon héroique pour procurer aux enfants, aux adolescents et aux jeunes adultes de quoi vivre et progresser en dépit des difficultés. Ce document porte sur la solidarité avec les familles du Québec. On y examine précisément les points suivants: la famille en tant que première cellule de la société; le rôle des familles; la situation socio-économique des familles; les dépenses gouvernementales; la fiscalité et la taxation; deux situations fiscales à revoir, soit les pensions alimentaires et la garde des enfants; et, les besoins financiers; aller de l'avant avec les familles.

that dissolves into water is relatively small when compared to the total mass of oil, it is this fraction that intimately contacts aquatic organisms and thus is an important determinant of oil toxicity. The term 'water soluble fraction' (WSF) is commonly used to describe the aqueous solution which is formed when oil and water are brought into contact. The focus of this study was to examine how the WSF composition and concentration of various petroleum oils depend upon the water-to-oil ratio.

Solutions to large scale integration of network management facilities

by T.W. Engelhart. Montreal : Canadian Electrical Association, Engineering and Operating Division, Telecontrol and Telecommunication Section, 1992. 14 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06225 1 fiche

Utility-wide communication networks are composed of a wide variety of transmission, switch and data networking equipment, from multiple vendors. Standardization of interfaces and message structures are still being defined and those that have been established have only recently reached the market. An overview is presented of the requirements and features of integrated network management systems which are commercially available, architectural and technical recommendations which will provide the best foundation for future development, and pragmatic solutions to the current interface and access problems.

Solving an inventory allocation and routing problem arising in grocery distribution

by J.M. Farvolden, G. Laporte and J. Xu. Montreal : Université de Montréal, Centre de recherche sur les transports, 1993. ii, 13 p. : ill. Bibliogr. (Publication ; no. 886)
MICROLOG 93-05276 1 fiche

This paper considers a large scale outbound distribution problem arising in the grocery industry in which 165 products must be distributed daily from a central warehouse to approximately 400 stores, using a fleet of 25 vehicles. The problem is to determine which stores should be visited each day, the quantity of each product to be delivered, and the routes to be followed by the vehicles. The solution must take into account store preferences for deliveries on particular days, stockout costs, delivery costs, and routing constraints. The problem is formulated, and then solved heuristically and preliminary computational results are presented.

Solving rural housing problems : building a better understanding

edited by Tom Carter. Winnipeg : University of Winnipeg, Institute of Urban Studies, 1990. iii, 77 p. : ill. Bibliogr. (Occasional paper ; 21) *CSI 97965.207.* ISBN 0-920213-84-7
MICROLOG 93-04601 1 fiche (Available on fiche only)

This document contains three papers. The first paper provides a grassroots perspective on small communities in the Maritimes. Using the results of a rural residential survey, it analyzes a number of key indicators in an attempt to understand the unique nature of rural communities. The second paper points out the importance of self-help housing in rural areas. The discussion details the who, what, and how of self-building, and illustrates the effectiveness of this approach in addressing the housing needs of low and moderate income households. The final paper focuses on an evaluation of housing policy in rural and remote communities and suggests how future initiatives could be structured.

Solving the network equilibrium problem on a network of transputers

by I. Chabini, O. Drissi-Kaitouni and M. Florian. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 32 p. Bibliogr. (Publication ; no. 876)
MICROLOG 93-05423 1 fiche

This paper presents parallel implementations of the linear approximations of the linear approximation algorithm for solving the fixed demand equilibrium problem. The paper describes the hardware and development tools and shows how the principal steps of the algorithm were parallelized by using a coarse grain approach. Numerical tests on the networks of the cities of Hull, Quebec, and Winnipeg, Manitoba demonstrate the efficiency of the approach. The computing platform used is a network of Transputers installed in an Intel 286 personal computer operating under MS-DOS.

Somatic and germ line gene therapy : current status and prospects

by L. Prior. Ottawa : Royal Commission on New Reproductive Technologies, 1992. vii, 29 p. Bibliogr. *French ed. (Thérapies géniques somatique...) on the same fiche.* ISBN 0-662-19497-7
MICROLOG 93-07453 1 fiche

The prospect of using directed genetic alteration to treat serious inherited disorders is an exciting one which is just beginning to become reality. It raises the hopes of patients and their families, but also the fears of those who perceive it as tampering with the secrets of life, or at least creating unknown hazards. This paper discusses what directed gene alteration can do, what it cannot do, and why, and briefly reviews the ethical issues raised by this new technology. It begins with a description of the biological basis for directed gene alteration.

Some applications of Kalman filtering in advanced land fire control systems (U)

by J.S. Bird. Ottawa : Defence Research Establishment Ottawa, 1993. xi, 82 p. : ill. Bibliogr. (Report ; no. 1172)
MICROLOG 93-07696 1 fiche

This report describes several potential applications of Kalman filters for advanced land fire control systems. Two areas that are especially important in the moving-target/moving-platform scenario are addressed in some detail: the tracking and trajectory prediction of multiple maneuvering targets and the prediction of gun pointing angles in the instant before firing. This is particularly important in the design of a dynamic muzzle reference system. The equations for the filters are developed, simulations are described, and some real data is processed through the muzzle angle prediction filter. An architecture for a complete advanced land fire control system is proposed.

The Source of alluvial kimberlite indicator minerals in the James Bay lowland

by D.D. Brown, G. Bennett and P.T. George. Toronto : Dept. of Mines, 1967. iv, 35 p. : ill., maps. Bibliogr. (Miscellaneous paper ; 7)
MICROLOG 93-02435 1 fiche

In 1966, a 28,000 sq mile area in the James Bay lowland was mapped as part of Operation Kapuskasing, a helicopter project. During the mapping, a kimberlitic dike was identified at Coral Rapids on the Abitibi River that suggested the possible presence of kimberlite intrusions. Kimberlite indicator minerals such as pyrope, magnesian ilmenite and chrome-diopside had been found in stream sediments in the same area. This report presents a summary of work on these two projects together with a petrological description of the kimberlitic dike to provide a background for future kimberlite exploration.

Sources d'archives sur les groupes de langue allemande au Canada

par A. Grenke. Ottawa : Archives nationales du Canada, 1989. v, 72, v, 70 p. (Collection des guides ethnoculturels) *Bilingue (Archival sources for the...)*. ISBN 0-662-56365-4
MICROLOG 93-04142 2 fiche

Afin que le public puisse bénéficier de la moisson de documents qu'elles ont recueillis depuis la création, à la fin des années soixante, du programme d'acquisition spécial, les Archives nationales du Canada ont commencé à publier toute une série de petits guides thématiques. Ceux-ci contiennent chacun une bibliographie des principaux ouvrages et documents qui portent sur le sujet traité ainsi que la liste des principaux fonds que possèdent les Archives nationales. Ces guides sont un répertoire des sources de documentation connues sur des communautés ethnoculturelles. Ce document, sur les sources d'archives sur les groupes de langue allemande au Canada, est le quatrième du genre à paraître.

Sources of growth variability in interior Douglas-fir

by G.M. Bonnor, R. De Jong and P. Boudewyn. Victoria : Forestry Canada, Pacific and Yukon Region, Pacific Forestry Centre, 1991. vi, 17 p. : ill. Bibliogr. (Information report ; BC-X-328) ISSN 0830-0453 ISBN 0-662-18561-7
MICROLOG 93-04923 1 fiche

This study was conducted to develop a data base containing Douglas-fir stand growth data, to use this data base to assess the effect on stand growth of differences in harvesting method, time since harvest, site quality and selected stand parameters, and to use the outcome of the assessment to derive a simple stand growth model. The study was limited to pure Douglas-fir stands in the dry belt of the British Columbia interior. Site quality assessment is limited by data scarcity to the two main biogeoclimatic subzones. Stand parameters comprise number of stems, basal area, and quadratic mean diameter. Harvesting methods include the faller's selection method, the diameter limit method, and no harvest.

Spatial price equilibrium and efficiency

by S. Erlander and J.T. Lundgren. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 31 p. Bibliogr. (Publication ; no. 863)
MICROLOG 93-05448 1 fiche

This paper considers how the flow of a single commodity is distributed between regional markets in a transportation network. The equilibrium conditions are derived using the concept of efficiency as defined by the so-called efficiency principle. The paper first defines a discrete version of the spatial price equilibrium model then derives the most probable shipment pattern under the assumption of efficient shipment behaviour, showing that the model derived in this way satisfies the spatial price equilibrium conditions. The paper also derives the most probable flow (or trade) patterns. Eventually, continuous models are obtained from the discrete models by relaxing the integer constraints.

Special needs day care : a discussion paper

Victoria : Ministry of Social Services, Community Support Services Division, 1992. 32 p. : ill.
MICROLOG 93-01705 1 fiche

In 1990, the Ministry of Social Services began a review of the Special Needs Day Care Program. It began with a committee of Ministry field staff reviewing the issues around how to improve choices for parents and increase the range of community settings available. It then progressed to a research phase, which involved a survey about how the program is currently being delivered. It is now at the stage where consultation with all those affected is needed before any changes are made. This paper is designed to offer a framework for consultation. It describes the current situation and presents principles, options, and challenges for discussion.

Speculative behaviour, regime switching, and stock market fundamentals

by S. Van Norden and H. Schaller. Ottawa : Bank of Canada, 1993. vi, 40 p. : ill. Bibliogr. (Working paper ; 93-2) ISSN 1192-5434 ISBN 0-662-20360-7
MICROLOG 93-06848 1 fiche

Based on historical accounts of manias and panics, a model for speculative behaviour is explored in which apparent overvaluation increases the probability of a stock market crash. Models of fundamentals and speculative behaviour including equilibrium asset prices, a model for speculative behaviour, and switching in dividends are discussed, and estimates of a model of speculative behaviour are introduced. Parametric tests of the speculative behaviour model, switching fundamentals, and accounting for historical crashes are discussed. Using U.S. data for 1926-1989, the performance of the model in predicting historical crashes is assessed.

Spot and projection resistance welding of one and both sides prepainted sheet metal : final report

by P. Somsky and N. Walker. Oakville, Ont. : Welding Institute of Canada, 1991. 112 p. : ill. Bibliogr. *CANMET contract: 23440-9-9242.*
MICROLOG 93-04431 2 fiche

Dofasco, Akzo Coatings, and Metal Koting are jointly investigating the development of innovative applications for prepainted sheet metal. Two paint systems, epoxy and urethane, are applied to one or both sides of the metal. This report is a feasibility study into the weldability of this material. Spot and projection welding was performed using indirect resistance welding with push-pull cylinders. Study welding was also performed, using a single-spot direct resistance welding machine. A novel technique was developed for projection welding on both sides of prepainted sheet metal. Optimal conditions and weld lobes were produced for all sets of parameters.

The Spread of white pine blister rust in young white pine plantations

by A. Lavallée. Sainte-Foy, Que. : Forestry Canada, Quebec Region, Laurentian Forestry Centre, 1992. viii, 23 p. : ill. Bibliogr (Information report ; LAU-X-101E) *French ed. (Evolution de la rouille vésiculeuse...) on the same fiche. CSI 22521.200.* ISSN 0835-1638 ISBN 0-662-20050-0
MICROLOG 93-06401 1 fiche

White pine blister rust has long been recognized as the principal disease affecting white pine both in Quebec and in the rest of North America. In Quebec, surveys demonstrating the gravity of this disease were first carried out in natural forests and then in plantations 15 or more years old. Even at this early age, some disastrous situations were reported, but there was no survey information available on younger plantations to be able to determine when action should be taken in various parts of these plantations. Since 1985, 16 plantations located in southern and central Quebec have been examined yearly in order to document the rate of progress of blister rust from its earliest occurrence. The specific environment of each of the stations was examined in order to characterize areas where rust progressed rapidly before the forest cover was completely closed.

Spring fires in a semimature trembling aspen stand in central Alberta

by D. Quintilio, M.E. Alexander and R.L. Ponto. Edmonton : Forestry Canada, Northwest Region, Northern Forestry Centre, 1991. viii, 30 p. : ill. Bibliogr. (Information report ; NOR-X-323) ISSN 0704-7673 ISBN 0-662-19268-0
MICROLOG 93-00198 1 fiche

In a May 1972 study in central Alberta, 13 0.5 ha plots of semimature trembling aspen were burned experimentally under various conditions to provide new information on fire behaviour and impact, with particular regard to aspen ecosystems. Fire data were documented for all plots, particularly head fire rates of spread and frontal fire intensities. The following August an assessment was made of the impact of burning on aspen overstory mortality and understory vegetation response. In May 1978 two of the plots were jointly reburned. The August survey that followed assessed the effects of the reburning.

Spring migration of water birds in the North Arm of Great Slave Lake, Northwest Territories, 1990

by S. Sirois. Ottawa : Canadian Wildlife Service, 1993. 8 p. Bibliogr. (Progress notes ; no. 205) ISSN 0069-0023 ISBN 0-662-20681-9
MICROLOG 93-08299 1 fiche

In May, 1990 the shoreleads of the North Arm of Great Slave Lake were surveyed to determine the abundance and distribution of loons, grebes, ducks, geese, swans, and coots and also assessed for the significance of this area as a spring staging site for water birds. The Canadian Wildlife Service recognizes sites that support at least 1% of the national population of at least one species or subspecies of migratory bird, for any portion of the year, as Key Habitat Sites. Recently, the east side of the North Arm was identified as a Key Habitat Site. This note provides further substantiation for this designation.

St. Albert floodplain study -- Rev.

by M.E. Quazi. Edmonton : Alberta Dept. of the Environment, Water Resources Management Service, Technical Services Division, River Engineering Branch, 1990. v, 95 p. : ill., maps. Bibliogr. *Fold. maps not filmed.*
MICROLOG 93-02117 2 fiche

Flood mapping of the St. Albert floodplain along the Sturgeon River was completed in 1975. In 1984, a second floodplain study was conducted to include areas affected by expansion of the city boundaries. In 1989, it was decided than the existing single-zone floodplain maps should be replaced with new maps defining a two-zone (floodway/flood fringe) flood hazard. This report contains the revised 1989 maps along with descriptions of how they were determined. Additional technical information omitted from the 1986 report on flood frequency analysis, model calibration results and computer input/output is also included.

Stability of GLA and EPA under model and commercial storage conditions : final progress report, March 1990

by A.R. McCurdy. Regina : Agriculture Development Fund, 1990. 96 p. : ill. Bibliogr.
MICROLOG 93-06797 2 fiche

Autoxidation has major implications in the food industry, causing disagreeable alterations in flavour and texture, as well as producing potentially toxic compounds. A study was carried out to determine under what conditions the alteration of triacyglycerol composition through randomization can affect the stability of the resulting product. The effects of introducing lauric, stearic, or oleic acid into linseed oil on the resultant stability was assessed. Also assessed were the effects of storage temperature, and whether the reaction involved in chemical interstérification has any effect on the autoxidative stability of the resulting product, by comparing the stabilities of native, chemically randomized and enzymatically randomized vegetable oils.

Stages of writing maturation

by P.J.A. Evans. Toronto : Ontario Educational Research Council, 1992. 43 p. Bibliogr. *Paper presented at the 1992 annual Conference of the Ontario Educational Research Council. ONTERIS: ON06048.*
MICROLOG 93-02036 1 fiche

A practising secondary school teacher's investigation of writing assessment, in 3 sections. The first outlines general assessment approaches and the specific goals of the project, which were to identify stages of writing maturation in late elementary and high school, and then to develop writing program resources based on the findings. Assessment was done by applying holistic scoring, a new form of descriptive analysis, and a study of patterns of error frequency to student writing. The second section describes what students do when they write; how well they do; the relationship between expressed features of writing and stage of writing maturation; what features are often present across grades and levels; and what features appear in later grades but not in earlier ones. Graphs are included for easier interpretation of results. The third section contains findings based on personal narrative writing in grades 4-10. Conclusions and pedagogical implications are presented throughout the paper, where appropriate. Concludes with a bibliography, samples of student writing, and categories and scales for descriptive analysis.

Stamp Falls Fishway counts, adipose clip/CWT recovery and biological sampling of chinook salmon escapements in Stamp River and Robertson Creek Hatchery, 1991

by R.C. Bocking and B.L. Nass. Vancouver, B.C. : Dept. of Fisheries and Oceans, Fisheries Branch, 1992. ix, 81 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2172) ISSN 0706-6473
MICROLOG 93-00173 1 fiche

The chinook salmon of the Somass River system was selected as one of the indicator stocks for assessing the response of Pacific chinook salmon stocks to a new harvest management regime. The key stream program estimates chinook escapement on key streams; estimates harvest rates and contributions to fisheries and escapement based on coded wire tagged/adipose clip returns, including estimates of the total escapement of coded wire tags to the key streams system; and estimates the contribution of hatchery and natural production to the escapement. This report deals with the determination of spawning escapement to the Stamp River in 1991 and related biological information. Total chinook escapement, age and sex composition of the in-river population and hatchery return to the system, and the total escapement of coded wire tagged chinook to the system were addressed.

State of the art study on refurbishment of overhead lines

by D.G. Havard. Montreal : Canadian Electrical Association, 1993. 23 p. : ill. Bibliogr. *Presented at Electricity '93 : distribution power quality.*
MICROLOG 93-05175 1 fiche

This paper reviews the work done by utilities worldwide toward overhead line refurbishment. It includes examples of line upgrading to increase capacity or voltage and work done to mitigate special degradation problems. The mechanisms of degradation and diagnostic tools to determine the current condition of the components are discussed and those methods that exist to estimate remaining life of components are presented. The planning of a refurbishment program and the priorization processes that have been applied are covered and novel methods of accommodating upgraded lines within existing rights of way and the areas where further research is need are described.

State of the wood preservation industry in the Prairie Provinces : effects of Environment Canada's technical recommendation documents

by K. Ertman and M. Constable. Ottawa : Environment Canada, Conservation and Protection, Environmental Protection, Western and Northern Region, 1993. ii, 80 p. (Report ; CP(EP) WNR 92-93-4)
MICROLOG 93-07187 1 fiche

The wood preservation industry was identified in the early 1980s by Canadian environmental protection agencies as requiring some guidance in environmentally sound operating practices. A series of technical documents were produced and a workshop was held for the industry, which reacted favourably. It was agreed that audits should be conducted across the country with standardized protocol to determine the state of the industry and the level of compliance. This report is the result of audits in the prairie provinces and the Northwest Territories. It describes the state of the industry, provincial licensing requirements, specific sites, and implementation of the technical recommendation documents.

State space and ARMA models : an overview of the equivalence

by P.D. Gilbert. Ottawa : Bank of Canada, 1993. vi, 38 p. : ill. Bibliogr. (Working paper ; 93-4) ISSN 1192-5434 ISBN 0-662-20494-8
MICROLOG 93-06850 1 fiche

Known results about the input-output equivalence of state space and auto-regressive moving average models with exogenous inputs (ARMAX) (including vector auto-regressive or VAR models) are reviewed. The equivalence is algebraic, not statistical, so it does not rely on any consideration of data nor on convergence in probability spaces. One model can be transformed into an equivalent model and the two models will give equivalent results, subject only to the accuracy of numerical algorithms used for the transformation. This is typically many orders of magnitude better than differences in statistical estimation techniques. An alternative methodology suggested by the equivalence is explored.

Moncton, N.B. : Dept. of Fisheries and Oceans, Gulf Region, Program Coordination and

Economics, 1992. 111 p. : ill. (Economic and commercial analysis report ; no. 131) *French ed. (Examen statistique, 1985-91) : 93-03784/2. CSI 21105.295.* ISSN 0843-5626
MICROLOG 93-03783 2 fiche

The Gulf region was established in 1981 to collect data on the landings of all vessels engaged in commercial fishing. The transactions used to establish the database are effected when fishermen sell their catches to commercial buyers. Fish processing data are gathered from plants operating in the Gulf Region. Data on fishermen, the fishing fleet and licences are obtained from administrative activities such as licensing and vessel certification. This review describes the structure and organization of the Gulf region and provides data on the work force, access to the resource, and landings.

Statistiques sur la recherche et le développement industriels au Québec, 1990 : données révisées, 1979-89

Québec : Bureau de la statistique du Québec, Statistiques économiques, 1992. 75 p. *CSI 67131.030.* ISBN 2-551-13008-5
MICROLOG 93-02064 1 fiche

Ce rapport statistique présente différents tableaux sur la recherche et le développment (R-D) industriels au Québec, ainsi que quelques tableaux comparatifs avec le Canada et les autres provinces. L'information est organisée selon la 'Classification type des industries de 1980'. L'information produite touche essentiellement les dépenses en R-D, le personnel affecté à la R-D et le financement de la R-D. Les données proviennent d'une enquête menée par Statistique Canada auprès des sociétés qui font de la recherche et du développement industriels au Canada.

Status and outlook for the major commercial fish species of Lake Huron, 1993

by S.R. Gile...et al. Owen Sound, Ont. : Ministry of Natural Resources, Lake Huron Fisheries Assessment Unit, 1993. 187 p. : ill. (Report ; 1-93) *CSI 56328.002.* ISSN 1180-291X
MICROLOG 93-07034 2 fiche

The commercial harvesting of fish from Lake Huron is controlled through licensee specific quotas that are reviewed and updated annually to reflect current stock conditions. This report provides annual harvest data for 1981-92 together with the allowable catches (quotas) for those years that quotas were in place (1984 onward). Relative stock abundance is followed from year to year using indices constructed from commercial harvest and effort data. The residence time of fish in the respective populations is assessed by using samples taken aboard vessels to partition catches into age classes. A tracking of year to year changes in reproduction was undertaken through independent fishing and those results are presented, together with comments on the likely impact of the recruiting year classes. Forecasts of changes in the supply of commercial fish are made on the strength of the composite picture developed.

Status of research in MLS-based instrument procedures and potential Canadian contribution

by Romi Singh ; for Transportation Development Centre, Policy and Coordination, Transport Canada. Montreal : Aviation Planning Services, 1989. vii, 56 p. : ill. Bibliogr.
MICROLOG 93-04651 1 fiche

Increasing air traffic and technological advances such as microwave landing systems (MLS) have led to a need for improved terminal procedures. This project was designed to develop a Canadian research and development strategy for the development of terminal procedures, particularly those based on MLS. The work began with a literature and data search that included a review of unpublished documentation from the Federal Aviation Administration (FAA) and industry organizations, as well as interviews with officials from the Transport Canada Aviation Group, the International Civil Aviation Organization, and the FAA Aviation Standards Office. Two main issues were identified for further research.

Status of the walleye *Stizostedion vitreum vitreum* fishery in Lake Nipigon

by R. Salmon. Thunder Bay, Ont. : Ministry of Natural Resources, Northwest Region Science and Technology, 1992. iv, 40 p. : ill. Bibliogr. (Technical report ; no. 68)
MICROLOG 93-06769 1 fiche

The status of the walleye fishery in Lake Nipigon is reviewed. Lake Nipigon is a large (4480 square kilometers), deep oligotrophic lake located in northwestern Ontario. The status of the fishery was assessed by examining various biological indicators to determine if stocks are unduly stressed. Indicators examined include yield, abundance, growth, maturity, age structure, mean age, mortality, variation in year-class strength, spawning opportunities, and community interactions. Commercial catch sampling, index fishing and commercial fish reports were used to acquire this information. A management recommendation and recommendations for assessment are included.

Stealing the emperor's clothes : deficit offloading and national standards in health care

by P. Boothe and B. Johnston. Toronto : C.D. Howe Institute, 1993. 12 p. : ill. Bibliogr. (Commentary ; no. 41) *At head of title: Fiscal policy.* ISSN 0824-8001 ISBN 0-88806-314-8
MICROLOG 93-07765 1 fiche

The ongoing struggle between the federal government and the provinces over control of the fiscal resources necessary to provide programs and services has recently intensified as Ottawa seeks to find ways to reduce its deficit. Transfers to the provinces are being cut, and the provinces accuse Ottawa of attempting to "offload" its deficit onto them, with the resulting sacrifice of national standards in programs such as health care. This document develops a measure of deficit offloading based on the premise that offloading occurs only to the extent that Ottawa reduces transfers to provinces by more than it reduces its own program spending.

Stem decay in living trees in Ontario's forests : a users' compendium and guide

by J.T. Basham. Sault Ste. Marie, Ont. : Forestry Canada, Ontario Region, Great Lakes Forestry Centre, 1991. 64 p. : ill. Bibliogr. (Information report ; O-X-408) ISSN 0832-7122 ISBN 0-662-17823-8
MICROLOG 93-03258 1 fiche

All of the commercially important tree species of Ontario are affected to some degree by internal stem decay or stain. These defects, mainly hidden and thus difficult to assess or predict, can have a serious impact on harvesting costs and efficiency and on product values. This report outlines the stem-decay process, the ways and extent in which it can be assessed, its economic impact, and the methods to combat it. Individual sections on each of the major forest-tree species of Ontario deal with stem-decay relationships, causes, external symptoms, and the minimization of the impact of decay through silvicultural and management procedures.

Stock assessments for British Columbia herring in 1991 and forecasts of the potential catch in 1992

by V. Haist and J.F. Schweigert. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1992. vii, 82 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2146) *CSI 21105.020.* ISSN 0706-6473
MICROLOG 93-00998 1 fiche

Herring are an important component of the British Columbia commercial fishery with catch records dating from 1877. Since 1983, herring fisheries have been managed with a fixed quota system in which catch levels are determined prior to the season based on a fixed percentage of forecast stock abundance. This report presents stock assessments from escapement and age-structured analytical models that were developed explicitly for B.C. herring. Both models reconstruct stock abundance for 1951-91 and forecast pre-spawning abundance for 1992. Forecasts of recruit spawners are presented as poor, average and good, based on historical recruitment levels. The report does not discuss the development and evaluation of empirical models for forecasting recruitment

A Strategic plan for the Range Resources Program

Victoria : Ministry of Forests, Range Management, 1992. 7 p. : ill.
MICROLOG 93-00519 1 fiche

This document describes the program priorities, goals, and management philosophy; defines rangelands and range resources; gives a profile of client groups; and discusses the key issues affecting the program, including the need to develop a clear, long-term strategy, to give an equal place to the program with others in the forestry service, to produce a baseline resources range inventory, to reduce timber cuts in range areas, and to better integrate differing resource uses. An integrated management strategy is given, including 23 commitments to help achieve an integrated strategy.

Strategic rail network issues : a review of the literature : final report

prepared for Transportation Association of Canada ; by J. Jones...et al. Kingston, Ont. : Queen's University, Canadian Institute of Guided Ground Transport, 1992. iii, 126 p. Bibliogr. (CIGGT report ; no. 91-16) ISBN 0-88911-1219
MICROLOG 93-06423 2 fiche (Available on fiche only)

The National Rail Study was initiated by the Council of Ministers of Transportation in September 1991 to examine and develop a consensus on Canada's current and future strategic needs for rail infrastructure, to identify those linkages within the existing rail network that are essential to those needs, and to examine and evaluate current rail abandonment and enhancement processes. This literature review was prepared in December 1991-January 1992 to familiarize the Steering

Committee of the study with the results of studies or initiatives that have been conducted in Canada, the United States, and elsewhere that had similar objectives, or that provided results that would be relevant to the Committee's deliberations. The review examined the strategic and/or national role of, and evaluated the need for, rail infrastructure, developed criteria that can be used to identify strategic or essential national linkages within rail freight and passenger networks, and documented the legislative and regulatory processes used to protect the public interest in rail infrastructure expansion and retention decisions.

Stratégie axée sur les personnes : une approche intégrée visant à transformer la culture de la fonction publique

Ottawa : Conseil de perfectionnement des ressources humaines, 1992. v, 46, v, 42 p. Bibliogr. *Bilingue (Strategies for people : an integrated ..)*
MICROLOG 93-06307 2 fiche

Ce document est à la fois un engagement et une invitation. Il témoigne de l'engagement du Conseil de perfectionnement des ressources humaines envers les principes et les valeurs énoncés dans le livre blanc 'Fonction publique : le renouvellement de la fonction publique du Canada'. Son but est d'intégrer dans un même cadre les stratégies et les actions du Conseil, c'est-à-dire de fournir un ensemble de valeurs, de principes et de règles qui, de l'avis du Conseil, pourraient nous aider à mettre sur pied une fonction publique revitalisée au sein de laquelle les employés mettraient à profit tous leurs talents, leurs connaissances et leurs compétences afin d'offrir un service de qualité. En sa qualité de cadre général, ce document se veut une étude exhaustive. Il touche toutes les grandes questions relatives aux ressources humaines qui sont abordées dans le livre blanc et dans les rapports des groupes de travail de FP 2000, ainsi qu'un grand nombre d'autres questions qui ont été signalées au Conseil par les ministères.

Strawberry multi-row cover and organic overwintering methods : final report

by K.K. Tanino and J. Turner. Regina : Saskatchewan Agriculture Development Fund, 1991. 28 p. : ill. Bibliogr.
MICROLOG 93-08363 1 fiche

Commercial strawberry production is currently a $1.5b industry in Saskatchewan but expansion is limited because fruit production problems caused by low temperature injury and/or desiccation stress has led to unpredictable yields. This project was conducted to establish a screening method, under controlled environmental conditions, to identify potential mulches or rowcovers that enhance low temperature survival and reduce desiccation stress. Twelve mulches/rowcovers were tested in three freezing experiments, with each treatment consisting of 24 strawberry crowns replicated three times. Each treatment was compared to the traditional mulch, barley straw. The controlled environment freezing method consisted of a programmable freezer where the temperature and rate of freezing were defined to simulate field conditions.

Structural behaviour of the LG-1 power station : instrumentation and finite element model, I : description

by L. Marcotte...et al. Montreal : Canadian Electrical Association, Hydraulic Power Section, 1991. 20 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference*
MICROLOG 93-06059 1 fiche

The structural behaviour of large-scale concrete hydraulic structures is of major concern to the owner. Instrumentation is necessary for the acquisition of field data throughout the life of the project. Finite element analysis enables the study of factors that influence the global behaviour of any given structure. Comparison of field and numerical results allows for a calibration of parameters to simulate actual field measurements by computer modelling. This paper outlines the field instrumentation scheme and presents the finite element model developed for the LG-1 power station.

by H.C. Davis and T.A. Hutton. Victoria : British Columbia Round Table on the Environment and the Economy, 1992. 51 p. Bibliogr.
MICROLOG 93-07700 1 fiche

This document sketches the basic characteristics of the B.C. economy and introduces two fundamental on-going processes: economic restructuring and market reorientation. It considers the regional geography of the province in terms of three principal economic regions: metropolitan Vancouver, Metropolitan Victoria, and the rest of the province. It draws upon three independent surveys of the Vancouver economy over the period 1976-1991 for confirmation of Vancouver's changing economic status. It also examines Vancouver's emergence as a Pacific Rim city. Finally, it considers two major policy issues.

Structural integrity of mechanized gas metal arc welds containing root porosity : final report

by L. Malik and B.A. Graville. Georgetown, Ont. : Structural Integrity Group Inc., 1993. viii, 180 p. : ill. Bibliogr. *CANMET contract: 23440-0-9252-01-SQ.*
MICROLOG 93-04272 3 fiche

The effect of root bead porosity on structural integrity of pipeline girth welds was investigated using numerical simulations, experimental evaluations (wide cross-weld tensile tests, CVN and CTOD tests) of welds containing porosity, and by statistical modelling. The objective was to develop more rational porosity acceptance criteria instead of the current conservative and arbitrary ones, linking these to appropriate inspection techniques. The experimental phase of the program focused on mechanized gas metal arc welds in Grade 483 line pipe, made using the K-NOVA wire.

Structural requirements for air barriers : report

Ottawa : Canada Mortgage and Housing Corporation, Project Implementation Division, 1991. iv, 67 p. : ill. Bibliogr. *French ed. (Exigences structurales des pare-air : rapport) : 93-06313/1.*
MICROLOG 93-06162 1 fiche

This report presents a summary of information on the magnitude and frequency of air pressure loading on air barriers arising from wind, stack effect, and mechanical pressurization. It reviews building code provisions for these types of loads; discusses their applicability to air barrier design; reviews differences between compartmented and non-compartmented rainscreen walls and the resulting loads on air barriers; and discusses the differences between load carrying mechanisms of flexible and rigid air barrier materials. It then reviews air barrier systems employing materials such as gypsum board, polyethylene, rigid insulation, and membranes; discusses structural design philosophies for their relevance to air barrier design guidelines; and discusses limitations in the current database of structural information of air barrier materials.

Structure and significance of the value-added wood products industry in British Columbia

contractors. Forintek Canada Corp. and Jim McWilliams. Victoria : Canada-British Columbia Partnership Agreement of Forest Resource Development: FRDA II, 1993. vi, 22 p. : ill. (FRDA report ; 203) ISSN 0835-0752 ISBN 0-7726-1791-0
MICROLOG 93-07393 1 fiche

Study conducted to identify the companies producing value-added wood products in British Columbia, the products they produce, and the services they provide, and to collect information suitable for a company and product directory. A mailing list was developed from a wide range of sources for a total of 660 companies. A questionnaire was developed to obtain a profile of each operation and mailed to each company. A database was organized by industry classification and a one-page profile was composed for each company. An analysis of the product groups was conducted, covering remanufactured products, engineered building components, millwork, cabinets, furniture, pallets and containers, and other wood products.

Structure de la communauté ichtyenne intertidale de l'estuaire moyen du Saint-Laurent : cadre de référence pour le suivi à long terme de l'état de l'écosystème de l'estuaire du Saint-Laurent

par M. Gagnon, Y. Ménard et J.-M. Coutu. Québec : Ministère des pêches et des océans, Direction de la gestion des pêches et de l'habitat, Direction de la gestion de l'habitat du poisson, 1992. vii, 40 p. : ill. Bibliogr. (Rapport technique canadien des sciences halieutiques et aquatiques ; no 1870) ISSN 0706-6570
MICROLOG 93-00813 1 fiche

En 1991, pour une troisième année consécutive, les communautés ichtyennes intertidales de l'estuaire moyen du Saint-Laurent ont fait l'objet d'un suivi. Les trois premières années de ce suivi ont comme objectif d'établir un cadre de référence pour le suivi à long terme de l'état de l'écosystème de l'Estuaire. Afin de préciser le cadre de référence mis en évidence par Gagnon et al. (1991), une troisième année d'échantillonnage a été réalisée en ajoutant deux nouvelles stations au centre de l'estuaire moyen. Ce rapport reprend la démarche analytique de Gagnon et al. (1991) en y intégrant les nouvelles données de 1991.

Structure thermohaline et biologique de la couche de surface de l'estuaire maritime du Saint-Laurent

par A.F. Vézina, P. Vinet et L.D. Castonguay. Mont-Joli, Québec : Ministère des pêches et des océans, Direction des sciences biologiques, Institut Maurice-Lamontagne, 1992. v, 125 p. : ill. (Rapport statistique canadien des sciences halieutiques et aquatiques ; no 894) *CSI 21105.279.* ISSN 0706-5697
MICROLOG 93-02598 2 fiche

Ce rapport présente les profils verticaux de température, de salinité, de fluorescence in vivo et de concentration en nitrate obtenus lors de croisières d'échantillonnage à haute résolution menées dans l'estuaire maritime du Saint-Laurent, entre le 19 juin et le 14 juillet 1989. Les 255 profils retenus suite au dépouillage des données ont été réduits en six modes de variation par la méthode des fonctions empiriques orthogonales. Les trois premiers modes, qui expliquent au-delà de 55 pour-cent de la variation totale, sont cartographiés et illustrent de façon abrégée les changements drastiques dans la structure physique et biologique survenus entre des croisières espacées d'au plus une semaine. Les variations à l'échelle quasi-synoptique furent encore plus importantes que les variations prévues et les processus responsables de ces variations ne sont pas encore élucidés.

Studies of high-latitude seabirds, 3 : a model of the energy demands of the seabirds of eastern and Arctic Canada

A.W. Diamond, A.J. Gaston, R.G.B. Brown ; edited by W.A. Montevecchi. Ottawa : Environment Canada, Canadian Wildlife Service, 1993. 39 p. : ill., maps. Bibliogr. (Occasional paper ; no. 77) *Paper presented at the Population Biology and Conservation of Marine Birds Symposium.* ISSN 0576-6370 ISBN 0-662-20388 7
MICROLOG 93-04922 1 fiche

This report describes a model used to estimate the energy requirements of seabirds in eastern and Arctic Canada. The model integrates data from intensive studies at breeding colonies with extensive observations at sea, using bioenergetics equations as a bridge. It is run independently for small geographic cells, then aggregated into oceanographic zones. The basic data used in the model include the PIROP shipboard counts of birds at sea used for the Canadian Wildlife Service's atlas of seabird distribution; breeding season counts at major colonies; life table estimates of nonbreeding populations; and body mass measurements, from geographically appropriate sources where possible.

Studies of isozymes of weevils on lodgepole pine in the Kamloops area of British Columbia

by G.T. Harvey, L. MacLauchlan and P.M. Roden. Sault Ste. Marie, Ont. : Forestry Canada, Ontario Region, Great Lakes Forestry Centre, 1991. 13 p. Bibliogr. (Miscellaneous report ; no. 109) ISSN 0832-7130 ISBN 0-662-19044-0
MICROLOG 93-08302 1 fiche

Research was being conducted on *Pissodes* weevils attacking lodgepole pine in the vicinity of Kamloops, B.C. In this area, weevil attack occurs on leaders and on root collars. Another species, *Pissodes schwarzi* Hopkins, is known to feed on root collars of several hosts including lodgepole pine, but does not feed on terminal shoots. The focus of the authors' research was to study both groups in an attempt to clarify details of their life history and taxonomy, as well as aspects of the damage. The objective of the cooperative study was to measure isozymes in insects collected from leaders and from root collars to determine whether there were differences that would help clarify the taxonomic problems.

A Study of algal establishment and growth in acid mine drainage (AMD) seeps and precipitation ponds : final report

by M. Kalin and W.N. Wheeler. Toronto : Boojum Research Limited, 1992. vi, 42 p. : ill. Bibliogr. *CANMET contract: 23440-1-9010-01-SQ.*
MICROLOG 93-01557 1 fiche

Algae can frequently be found in acid mine drainage seeps but their distribution is patchy. If present in high densities, and in the entire waste stream, they could be used as polishing agents. To develop biological polishing systems, it is necessary to understand the factors controlling algal distributions. An acidic seep from an inactive coal dump in Nova Scotia was used to determine those factors that control presence or absence of algae in waste water. At this site, algal populations exist only in the immediate vicinity of the point of emergence of the seep. A diffuse seepage from a seepage collection pond harbours abundant algal populations of a similar composition with no distribution boundaries. By comparing and contrasting the physical and chemical conditions in both seeps, parameters necessary for algal survival and growth in the upper ditch could be determined.

Study of Canadian applications for Thyssen-Waas icebreaking bow

prepared for Transportation Development Centre, Policy and Coordination Group, Transport Canada ; by R. Thompson, P. Wilson. Marystown, Nfld. : Marystown Shipyard, 1990. xxiii, 294 p. : ill. Bibliogr.
MICROLOG 93-04638 4 fiche

This study investigated the potential for the integration of the Thyssen-Waas bow design into hulls of Canadian ice-class vessels. The Thyssen-Waas bow technology was reviewed and model and full-scale test results obtained to date on such vessels was summarized. The performance of the Thyssen-Waas bow form was also compared with that recorded for other ice-breaking bow forms. After a review of Canadian waters and routes, three specific routes and operating profiles were proposed, and three conceptual ship designs using the Thyssen-Waas bow form were developed to suit the proposed services. Specifications for the three concepts were drawn up, and performance predicted in each case. The economic viability of each of the three concepts was also assessed.

A Study of dichlorovos (Nuvan : 2,2 dichloroethenyl dimethyl phosphate) : a therapeutic agent for sea lice *Lepeophtheirus salmonis*

by R. Cusack and G. Johnson ; for Nova Scotia Dept. of Fisheries. S.l. : Canada/Nova Scotia Economic Regional Development Agreement, Fisheries Subagreement, 1988. 56 p. : ill., maps. Bibliogr. (ERDA report ; no. 14) ISBN 0-88871-147-6
MICROLOG 93-04321 1 fiche

Sea lice are crustacean ectoparasites of marine trout and salmon. They are a major problem of cultivated fish around the world and can lead to considerable loss. The most common treatment for sea lice is the pesticide Nuvan with dichlorovos as the active ingredient at 1 ppm for one hour. This study determined the effects of Nuvan on invertebrate species and phytoplankton that associate with sea cage operations. Larval lobsters, adult lobsters, zooplankton, mussels, periwinkles, and phytoplankton were exposed to dichlorovos at various concentrations in the laboratory and mortalities were recorded. Nuvan was released at a field site and at a fish farm while larval lobsters were suspended in the water column in areas adjacent to the release site to determine the effects of dichlorovos on larval lobster survival.

A Study of effluent control at the Canadian Salt Company, Pugwash, Nova Scotia, cost shared : final report

by Canadian Salt Company Limited and Jacques, Whitford and Associates Limited. S.l. : Canada-Nova Scotia Cooperation Agreement on Mineral Development, 1992. v, 143 p. : fold. ill., ill., maps. Bibliogr. *CANMET contract: 23440-1-9157-01-SQ.*
MICROLOG 93-01574 3 fiche

The Canadian Salt Co. Ltd. (CSCL) operates an integrated underground mine and evaporator plant facility in Pugwash, Nova Scotia. About 10 years ago, the Deep Cove tailings impoundment was designed and constructed to contain solid tailings consisting mainly of undissolved salt and anhydrite, but a recent breach of the containment area adjacent to the Pugwash river has allowed river water to flow into the tailings area at high tide and some tailings to be discharged directly to the river. The mine was directed to prepare a plan to control these tailings and other discharges to the river adjacent to the mine site. This report presents the findings of various investigations on the discharge of effluents from the CSCL brine pond, hotwell discharge and tailing effluent; addresses options available to the mine for longer term tailings storage by expanding solid wastes tailings disposal within the Deep Cove tailings impoundment area and adjacent areas; and presents a comparative analysis of various methods to discharge the clear brine effluent into the Pugwash River Basin. A numerical model of a recommended discharge arrangement was developed and analyzed.

A Study of factors affecting spoil pile stability at prairie coal mining operations, phase III : design guidelines : final report

Golder Associates. Calgary, Alta. : The Company, 1990. viii, 147 p. : fold ill., maps. Bibliogr. *CANMET contract: 23440-8-9058-01-SQ.*
MICROLOG 93-03418 2 fiche

Spoil pile instability has become a continuing problem in the prairie coal strip mining operations of Alberta and Saskatchewan. Failure of the waste spoil piles can lead to loss of coal reserves and operating inefficiency, both factors contributing to increased operating costs. This report presents the results of a joint Federal/industry study to evaluate the causes of spoil pile instability and to establish guidelines for mine design and operating procedures that will help reduce the potential for failure. The study was conducted from 1988-90 and involved three phases. This Phase III report summarizes the project and presents design and operating strategies for improving spoil pile stability in present and future mining operations, particularly those where overburden depth exceeds 30 metres.

A Study of farm employment needs

[by] Tanka Research ; commissioned by Saskatchewan Agriculture's Advisory Committee on Farm Employment Needs ; coordinated by the Human Resources Branch, Saskatchewan Agriculture. Regina : The Corporation, 1987. 77 p.
MICROLOG 93-00847 1 fiche

In 1987, a study was begun to examine farm employment needs in the province and to identify measures for meeting those needs. The first phase of the study involved two focus group sessions, the first with farm employers and the second with farm employees. The findings from the sessions were used to develop the questionnaire that would provide quantitative measurement of all areas of vital and potential concern. Phase 2 consisted of 750 telephone interviews among farm employers and employees. Of the total, 600 were randomly selected, 100 in each of the six Farm Labour Pool districts. The remainder were drawn from supplied farm lists. This report gives the results of the surveys, including demographic characteristics, general attitudes toward the farm situation, conditions of employment, employment practices, recruitment practices of employers, skills required to do the work, the need for training and attitudes toward labour legislation for farm workers.

A Study of potential potato starch yields under commercial conditions in Saskatchewan : technical/final report

Regina : Saskatchewan Agriculture, Agriculture Development Fund, 1986. 15 p. : ill. ISSN 0829-9455
MICROLOG 93-02198 1 fiche

Final report on an investigation into industrial potato cultivars for starch production potential to replace imported guar gum and other products in the potash mining industry. In 1984, eight cultivars were tested at two commercial grower sites on plots maintained by the growers. In 1985, yield performance trials were continued on the six highest yielding cultivars from the 1984 trials. In 1986, a further test was conducted to determine changes in starch deposition as tubers matured. Samples were harvested from 20 August-11 October, with five samples taken at each site. This report provides the results of the 1986 tests.

Study of residential ventilation duct energy losses

ORTECH International. Ottawa : Energy, Mines and Resources Canada, CANMET, Efficiency and Alternative Energy Technology Branch, 1992. ii, 35 p. : ill. *CANMET contract: 23440-1-942801-SQ.* ISBN 0-662-20395-X
MICROLOG 93-04258 1 fiche

Investigation of the impact of energy transfer from a conditioned air space into the ductwork of a residential heat recovery ventilator. The study was undertaken because field testing indicated poor performance for installed HRV systems. The study identifies typical installed duct configurations and quantifies the performance effects of energy losses to the HRV ducting system.

A Study of secondary students' use of audio taping to improve the effectiveness of conferencing in a problem-solving approach to the writing process

by C.J. Innes. St. Catharines, Ont. : Brock University, Faculty of Education, 1992. ix, 90 p. Bibliogr. *ONTERIS: ON06379.*
MICROLOG 93-08262 2 fiche

A study of 6 grade 11 students, in an advanced level English writing class, to determine whether audio taping during teacher conferencing would enhance the students' ability to recognize and use their own ideas during the composing process. A curricular unit based on the assumption that writing is a problem-solving activity was created. The assignment was a 10-minute lecture/demonstration with audiovisual aids. The students were interviewed before and after and the teacher kept a journal of the study.

A Study of technical means to improve the acquisition of data on motor vehicle events, phase 3 : system specification

for Transportation Development Centre, Policy and Coordination, Transport Canada. Brampton, Ont. : Atlantis Aerospace Corporation, 1992 xiii, 43 p.
MICROLOG 93-04653 1 fiche

This report presents the results of Phase 3 of a project to explore the process of motor vehicle event (MVE) data acquisition. A technical specification of a revised proof-of-concept (POC) system was produced that was based on a vehicle-portable configuration and had the added functionality of a mobile data terminal. The POC system was centered around a pen-based notepad computer and its software/hardware capability for capturing form-based data. Phase 3 updated the proposed POC system and formulated technical specifications for it; made recommendations on the project findings; and summarized the project to date.

Study of the Arctic heat sink : final report

by E.A. Ripley. Saskatoon, Sask. : National Hydrology Research Centre, Atmospheric Environment Service, Canadian Climate Centre, 1991. iv, 120 p. : ill., maps. Bibliogr. (Report ; no. 91-5)
MICROLOG 93-00371 2 fiche

This study was conducted to document the variability of the Arctic heat sink; to investigate possible effects of these variations on northern hemispheric circulation patterns; and to look for relationships between Arctic heat sink variations and sea-surface temperature anomalies. To meet these objectives, several characterizations

of the Arctic heat sink were proposed; relevant datasets for investigating these characterizations are either provided or described; and preliminary analyses of the relationships between variations in the Arctic heat sink (in accordance with these characterizations), sea-surface temperature anomalies, and circulation patterns are presented

A Study of the evaporation of petroleum oils

by M. Bobra. Ottawa : Environment Canada, Environmental Protection Directorate, 1992. x, 127 p. : ill. Bibliogr. (Report ; EE-135)
MICROLOG 93-08105 2 fiche

Evaporation is one of the dominant weathering processes that affects the behaviour of oil released into the marine environment. Characterization of evaporation is therefore of key importance to the testing of oils for environmental purposes. The objectives of this study were to collect comprehensive data on the evaporation behaviour of various oils as a function of oil thickness and to develop a rapid means to weather oil samples for testing purposes. The first section of this report examines the evaporation behaviour of eight oils exposed to different conditions. The second section describes an investigation into potential laboratory techniques for accelerating oil evaporation.

Study of the Ontario environmental protection industry

Ernst and Young (Firm). Toronto : Environment Ontario, 1992. 323 p. : ill. Bibliogr. ISBN 0-7729-9932-5
MICROLOG 93-02388 4 fiche

This report presents an extensive examination of the Ontario environmental protection industry, including a review of industry size, growth prospects, export market opportunities and competitiveness. A model for estimating the economic impact of selected environmental projects is also given. The report updates a 1988/89 study, describing the current structure and scale of the industry in Ontario; reviewing trends in legislation and the market demand for environmental products in Canada and selected foreign markets; discussing government policy impacts on the environmental protection industry; and describing the environmental impact model used. A database was developed through a mail survey of 550 companies, with a telephone follow-up, and interviews with a sample of 50 companies in various segments of the industry. Interviews were also conducted with representatives of manufacturing industries, utilities and municipalities that purchase environmental products and services in Ontario and with 20 additional industry participants and professional associations on human resource skills in the province.

A Study of tool requirements for the disabled farmer

Prairie Agricultural Machinery Institute (Canada). Regina : Saskatchewan Agriculture Development Fund, 1990. 36 p. : ill. Bibliogr. *Cover title: Tools for the disabled farmer : final report.*
MICROLOG 93-05692 1 fiche

A survey was conducted with 18 farmers who had a wide range of physical disabilities. The survey examined problems with the prosthesis and with using tools required for typical farm tasks. It provided insight into how farmers have coped using special techniques and modified tools, and explored areas where new tools or adapters need to be developed to enable these farmers to do the problem tasks more easily. This report documents the problems and needs and suggests ways in which a system could be set up to provide the needed tool development and improvements that would benefit physically handicapped farmers.

A Study of water-in-oil emulsification

by M. Bobra. Ottawa : Environment Canada, Environmental Protection Directorate, 1992. viii, 63 p. : ill. Bibliogr. (Report ; EE-132)
MICROLOG 93-08099 1 fiche

The aim of this study was to elucidate the role that physico-chemical factors play in determining an oil's susceptibility to emulsify. This was done by studying the emulsification behaviour of oils of known composition, in order to examine the importance of oil chemistry in the emulsification process. The potential application of a solubility model, using the Hildebrand-Scatchard equation, to predict the physicochemical conditions which favour water-in-oil emulsification, is discussed. Also, theories on various emulsification processes are discussed in terms of mousse formation at sea

Studying runaways and street youth in Canada : conceptual and research design issues

by A. Brannigan and T. Caputo. Ottawa : Ministry of the Solicitor General, Police Policy and Research Division, 1993. iv, 217 p. Bibliogr. (User report ; 1993-05) ISBN 0-662-20386-0
MICROLOG 93-08864 3 fiche

The primary focus for this report is provided by 5 general questions: What is the size of the runaway and street youth population? What are the demographic characteristics of these young people? What are the antecedents to running and becoming a street kid? What are the consequences of participating in street life and how does a young person get off the streets? and, What services are directed at these young people in the areas of education, health, criminal justice and social services and what gaps or overlaps exist in these services. The researchers provide an extensive review of the literature on street youth and runaways followed by a detailed overview of the most recent Canadian research which focuses specifically on the design decisions adopted in these studies. Next, a conceptual model and methodological strategies are developed Finally, the results of a pilot study (the Calgary Experience) that incorporated much of the information garnered in previous sections are presented.

Submission in response to 'The Early years consultation document'

Ontario Public School Boards' Association. Toronto : The Association, 1992. 24 p. *ONTERIS: ON05942.*
MICROLOG 93-00334 1 fiche

In this response to the Ministry of Education with respect to education in the early years, the Ontario Public School Boards' Association (OPSBA) makes a number of general points prior to discussing each of the 16 identified issues. It suggests that any consideration of educational restructuring must include a clearer definition of the 'educative,' 'social,' and 'health' responsibilities of the education system; clarification of the roles of government and school boards in policy development and implementation; coordination of activities at schools and other community social services, teacher education and inservice; integration of the early years with the formative years; early identification and assessment; stress on the importance of the role of parents; and provision by government of flexibility for school boards to implement new initiatives

Submission in response to the report of the French Language Education Governance Advisory Group

Ontario Public School Boards' Association. Toronto : The Association, 1992. 10 p. *ONTERIS: ON05945*
MICROLOG 93-01252 1 fiche

A response to the recommendations of the French language education governance advisory group. There should not be 1 governance model applied uniformly across the province. However, in times of fiscal restraint, the cost of implementation should be a major consideration. Provincial responsibilities in this area are considered, concerns with the present structure outlined, and recommendations for the future given. The Task Force has fundamental concerns with the report, which ignores the problem of fiscal restraint and proposes models which will result in duplication and fragmentation of resources. Recommendations for the government are included.

Submission to the Legislative Committee on Resource Development respecting Bill 40 : amendments to the Labour Relations Act and Employment Standards Act : Labour Relations Act reform

Ontario Public School Boards' Association. Toronto : The Association, 1992. 16 p. *ONTERIS. ON05969*
MICROLOG 93-00630 1 fiche

In this submission regarding proposed Labour Relations Act amendments, the Ontario Public School Boards' Association (OPSBA) identifies a number of concerns with respect to the following major proposals: replacement workers, combining bargaining units, contracting in, imposing the first collective agreement, release of probationary employees, application of the charter to collective agreements, and access to school property. OPSBA believes that the majority of recommendations will provide less responsibility for parties to resolve their differences and adapt to change and create more third-party interference.
ED LA ON PR

Submission to the Ministry of Labour on Bill 168 : 'changed circumstances', provision of the Pay Equity Act

Ontario Public School Boards' Association. Toronto . The Association, 1992. 2 p. *Cover title: OPSBA response to Bill 168, an act to amend the Pay Equity Act. ONTERIS: ON05957*
MICROLOG 93-07253 1 fiche

Since the OPSBA has already made submissions to the government regarding the Bill 168 proposals to amend the Pay Equity Act, this paper reinforces the OPSBA stance that the existing Act already provides an adequate mechanism for dealing with changed circumstances, and that amendments would complicate the process unduly, adding a further administrative burden.
LA ON PR

Submission to the Northern Education Project

Ontario Public School Boards' Association. Toronto : The Association, 1991. 23 p. *ONTERIS: ON05937*
MICROLOG 93-00330 1 fiche

The Northern Education Project was set up to study methods of providing educational services to small and isolated boards in Northern Ontario. In its brief, the Ontario Public School Boards' Association (OPSBA) expresses concern about the restrictive nature of the project's mandate and the decision to exclude certain areas from study. It makes 13 recommendations: expanding the mandate to incorporate school board boundary issues, Native education concerns, and isolated board funding; analyzing the role of Ministry of Education regional offices; leaving direct provision of services by regional offices as an option to Northern boards; establishing a projects-studies coordinating committee with representation from Northern boards; examining the feasibility of expanding program councils; reviewing Integrated Services for Northern Children; developing a policy for adult education; and ensuring that transportation costs for territorial students are adequate. OPSBA urges coordination and integration with other ministry studies that could affect Northern boards. The appendix presents details of the Cooperative Services Unit established as a component of the Umfreville DSA board.

Les Subventions de fonctionnement aux universités du Québec pour l'année 1992-93

avis au Ministre de l'enseignement supérieur et de la science. Sainte-Foy, Québec : Conseil des universités, 1992. iv, 58 p. Bibliogr. (Avis ; no 92.3) *CSI 67164.004.* ISSN 0709-3985 ISBN 2-550-26667-6
MICROLOG 93-01975 1 fiche

Le ministre de l'Enseignement supérieur et de la Science à demandé au Conseil des universités leur avis concernant le niveau et la répartition des subventions de fonctionnement allouées aux universités. Le présent avis est composé de 4 parties. La première partie est consacrée à l'analyse du niveau de la subvention alors que la deuxième examine plus en détail les principales modifications agissant sur la détermination du niveau de l'enveloppe des subventions de fonctionnement. La répartition des subventions de fonctionnement entre les universités est affectée et son examen constitue la troisième partie. Les changements encadrant le calcul du financement de la variation des effectifs constituent la substance de la quatrième partie de l'avis.

Le Sud dans votre assiette : l'interdépendance alimentaire mondiale

Ottawa : Centre de recherches pour le développement international, 1992. 72 p. (Collection quête d'avenir ; 4) *L'éd. anglaise (Our common bowl : global...) : 93-02056/1.* ISBN 9-88936-654-3
MICROLOG 93-02057 1 fiche (Available on fiche only)

Cette publication se penche sur le problème de la nourriture: d'où vient-elle, où en est la question, et d'où viendra-t-elle à l'avenir? On y envisage des solutions à l'équation posée par le Tableau des ressources qui trône dans le hall d'entrée du siège du CRDI à Ottawa. Ce livret, ayant pour titre 'L'interdépendance alimentaire mondiale', examine particulièrement les grands titres suivants: un garde-manger planétaire; un supermarché universel; et, la nourriture de demain.

Suivi à long terme des agresseurs d'enfants : prédicteurs de risque et résultats du traitement

par R.K. Hanson, R.A. Steffy et R. Gauthier Ottawa : Solliciteur général du Canada, Direction des affaires correctionnelles, 1992. 25 p. : ill. Bibliogr. (Rapport pour spécialistes ; 1992-02) *Titre de la couv.: Suivi des délinquants sexuels L'éd anglaise : (Long-term follow-up of child molesters...) sur la même fiche* ISBN 0-662-19346-6
MICROLOG 93-08639 1 fiche

Cette étude examine le taux de récidive à long terme de 197 agresseurs d'enfants libérés d'un établissement correctionnel entre 1958 et 1974. Le rapport résume les comparaisons effectuées entre un groupe d'agresseurs d'enfants qui a reçu un traitement et 2 groupes témoins composés de délinquants condamnés à purger leur peine dans le même établissement, mais qui n'ont pas reçu de traitement particulier contre la pédophilie. Des renseignements détaillés ont été obtenus directement des délinquants et extraits de leur dossier à l'établissement.

Suivi de la pêche au râteau hydraulique sur des stocks de myes dans la baie de Miramichi, Nouveau-Brunswick, 1992

par T. Landry et M. Ouellette. Moncton, N.-B. : Ministère des pêches et des océans, Direction des sciences, Centre des pêches du Golfe, 1993. v, 14 p. : ill. Bibliogr. (Rapport technique canadien des sciences halieutiques et aquatiques ; no 1921) ISSN 0706-6570
MICROLOG 93-07055 1 fiche

Les activités d'une pêche aux myes avec râteaux hydrauliques ont été suivies dans la baie de Miramichi, Nouveau-Brunswick, pour recueillir de l'information sur l'effort et les captures. Des activités de recherche ont été menées selon un protocole expérimental afin d'obtenir de l'information sur l'efficacité du râteau hydraulique. Une analyse des données recueillies et des renseignements disponibles dans la littérature est effectuée afin de comparer les impacts de la pêche au râteau hydraulique et de la pêche manuelle. La pêche au râteau hydraulique présente des avantages à la pêche manuelle au niveau de l'efficacité et de l'impact sur les myes non-capturées.

(613) 237-4250 FAX (613) 237-4251

Après la chute drastique des prises du crabe des neiges dans le sud-ouest du golfe du Saint-Laurent en 1989, le Ministère des Pêches et des Océans a établi un plan de pêche afin de reconstruire le stock tout en stabilisant à long terme l'industrie. Le point important du plan de pêche a été l'arrêt automatique de la pêcherie lorsque les captures en mer pour deux semaines consécutives atteignaient plus de 20 pourcent en nombre de crabes mous établie selon la dureté de la carapace. Depuis 1990, un programme intensif d'échantillonnage à bord des navires commerciaux a été établi afin d'évaluer hebdomadairement le pourcentage de crabes mous dans les captures. ce rapport a pour but de démontrer une tendance générale de la capture hebdomadaire et saisonnière des crabes mous et de discuter des effets de l'incidence de ces crabes durant la pêcherie.

Summary and interpretation of biogeochemical data for the South Saskatchewan-Lake Diefenbaker System, 1984-85

by L.H. McCarthy ; for National Water Research Institute, Environment Canada, Canada Centre for Inland Waters. Regina : Environment Canada, Conservation and Protection, Inland Waters and Lands, Western and Northern Region, Water Quality Branch, 1990. 62 p. : ill. Bibliogr.
MICROLOG 93-01699 1 fiche

The South Saskatchewan River and Lake Diefenbaker are an invaluable source of water in southern Saskatchewan. The river is a combination of three mountain streams, while the lake was created in 1967 when two dams were constructed. Because of the considerable industrial and agricultural inputs from the South Saskatchewan River flowing into Lake Diefenbaker, an investigation was initiated to assess the quality of the lake water. The study was conducted to characterize the chemicals in the water and sediment of the South Saskatchewan River, Lake Diefenbaker and the Red Deer River and to assess the toxicity of the aquatic environment using indicator organisms. The study was begun in June 1984 and completed in June 1985. This report provides the results of the study.

A Summary of sport fish surveys conducted on Lac des Mille Lacs from 1981 to 1989 with an evaluation of allowable yield estimates and some harvest control options

by M. Fruetel. Thunder Bay, Ont. : Ministry of Natural Resources, Quetico-Mille Lacs Fisheries Assessment Unit, 1990. viii, 100 p : ill. Bibliogr. (Report ; 1990-4) ISBN 0-7729-8480-8
MICROLOG 93-07494 2 fiche

Lac des Milles Lacs is a 24,101 ha reservoir located about 125 km west of Thunder Bay that supports an intensive sport fishery for walleye and northern pike. Four creel surveys were conducted from 1981-89 and in the summers of 1981 and 1983, roving creel surveys were conducted. Boat counts were conducted four or five times per day before angler interviews. An access point creel survey was conducted from June-August 1988 and from May-August 1989. Anglers were interviewed at the end of their fishing trip at two resorts located in central Lac des Milles Lacs to obtain information on catch and effort, fishing location, party size and origin, methods of fishing, current trip, and previous days trips. This report provides the results of the surveys.

The Summer season along the east coast of Hudson Bay during the nineteenth century, part III : summer thermal and wetness indices, B : the indices, 1800 to 1900

by C.V. Wilson. Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1988. viii, 88 p. : ill. Bibliogr. (Report ; no. 88-3)
MICROLOG 93-00284 2 fiche

This report marks the completion of the last phase of a project to obtain thermal and wetness indices for the summer seasons (May to October) of the nineteenth century along the east coast of Hudson/James Bay. The series are based on weather and proxy weather data from the Hudson's Bay Company Post Journals, correspondence and annual reports for Little Whale River, Great Whale, Fort George and Eastmain. The thermal indices represent an estimate of the seasonal temperature anomaly compared to the reference period 1941-70 at Great Whale, Fort George and Eastmain. The wetness indices are based on the number of days with reported precipitation (supported by other weather and proxy information) compared to modern frequency distributions.

Sump pump study

CH2M Hill Engineering Ltd. Edmonton : Alberta Municipal Affairs, Innovative Housing Grants Program, 1991. x, 186 p. : ill. Bibliogr. ISBN 0-88654-370-3
MICROLOG 93-01420 3 fiche

In the City of Edmonton and Strathcona County, bylaws prohibiting the discharge of foundation drain systems into sanitary sewer systems were enacted for new or extensively renovated residences. Sump pump systems discharging effluent to the surface are the most common ways of complying with these enactments. This study of sump pump systems for single-family and multi-family units identified the common problems and inconveniences of the existing system, determined which issues may be resolved or mitigated in the design stage, and field tested system modifications and methods of improving system performance.

Sunlight and skin cancer : the occupational health concern

by J.A. Baxter. Hamilton, Ont. : Canadian Centre for Occupational Health and Safety, 1990. 6 p. Bibliogr. ISBN 0-660-13619-8
MICROLOG 93-00650 1 fiche

Skin cancer is the most common form of cancer. Fortunately, most cases are easily cured without serious consequences. Sunlight is a leading cause of skin injury and skin cancer. This publication summarizes how sunlight can damage the skin and increase the risk of skin cancer. It also outlines precautions to prevent hazardous exposure. It describes how sunlight affects the skin, and the types of skin cancer that are linked to sunlight exposure. It also specifies factors that affect a person's risk, workers that are at risk, and how the risk of skin cancer from sunlight can be reduced.

Supervisory Officer's Qualifications Program : program development guideline

Toronto : Ministry of Education, 1990. 12 p. : ill. *ONTERIS: ON05630.*
MICROLOG 93-00610 1 fiche

This conceptual framework is intended as a guide for the development of an appropriate preparatory program for individuals wishing to become certified as supervisory officers. The model identifies 4 areas considered essential components of a preparatory program: personal and professional development; leadership and management skills; school system policies and issues; and practical supervised leadership activities.

Supplement to the awards guide, effective September 1992

Natural Sciences and Engineering Research Council of Canada. Ottawa : The Council, 1992. 26 p. *Bilingual (Supplément au guide des subventions...). CSI 22264.005.*
MICROLOG 93-04194 1 fiche

The supplement is to be used jointly with the 1991 NSERC Awards guide. It contains changes made since Sept. 1991 to the procedures, rules and regulations governing awards programs. Since revised paragraphs have not been reproduced in their entirety, it is essential to consult both the guide and this supplement. The main publication provides information on the various types of grants available with regulations in effect as of September 1, 1991. Background information is given on the functions of the Council and the system of grants in aid of research and awards administered, regulations governing applications for grants, description of grants, and financial administration and use of grant funds.

Supplement to the estimates, fiscal year ending March 31, 1994

British Columbia. Ministry of Finance and Corporate Relations. Victoria : The Ministry, 1993. 119 p. *CSI 37106.007.* ISSN 0712-4597
MICROLOG 93-06553 2 fiche

This publication provides supplementary detail on proposed voted, special account and special fund expenditure for all special offices, ministries and other appropriations of the Government of British Columbia. In the Estimates, voted expenditure is classified for each vote and sub-vote by group accounts. These group accounts represent broad functional categories of expenditure (salaries and benefits, operating costs, asset acquisitions, grants and contributions, other expenditures and recoveries). Each group account is comprised of several specific components of expenditure referred to as standard objects of expenditure. This publication provides detail on voted and special account expenditure at the standard object of expenditure level.

MICROLOG 93-03795 1 fiche

This research assesses current issues with regard to present approaches to meeting the needs of individuals still remaining in institutions and identifies the critical factors necessary for successful community living for everyone. In view of the diversity of needs within each group, the discussion centres around those factors that the respondents believe to play significant roles in successful placements. It discusses various models and argues that no model is appropriate for all or most individuals with challenging behaviours or complex medical needs, and that individualized planning is the only suitable approach.

Supports for individuals with challenging behaviour and complex medical needs : a literature review and annotated bibliography

Joan Jamieson, principle researcher ; CBI Consultants, research associates. Victoria . Ministry of Social Services, Research, Evaluation and Statistics Branch, Corporate Services Division, 1992. 31 p. Bibliogr.
MICROLOG 93-03794 1 fiche

Exemplary programs of community support for persons with challenging behaviour and complex medical needs are developed by following what are referred to as 'best practices' or 'promising procedures'. This document describes the components of such programs. It also provides a detailed description of two examples of exemplary community supports Finally, it contains an annotated bibliography of selected articles on community supports for individuals with challenging behaviour and complex medical needs.

Suppression of power line harmonic interference in HF surface-wave radar (U)

by H. Leong. Ottawa : Defence Research Establishment Ottawa, 1992. xi, 24 p. : ill. Bibliogr. (Report ; no. 1137)
MICROLOG 93-02842 1 fiche

Experimental high-frequency surface-wave radar (HFSWR) data was collected in summer 1989 for a set of time series of the radar's sea echoes from individual range gates to study the characteristics of sea clutter, noise and possible targets. This report presents a new process based on optimizations in which the received radar signal is modelled as sea clutter plus modulation of the sea clutter by the power line harmonics.

Supreme Court Rule 54 : reciprocally enforceable judgments : minor report

Vancouver, B.C. : Ministry of Attorney General, Law Reform Commission of British Columbia, 1992. 24 p. (Report ; LRC 126) *Cover title: Report on Supreme Court Rule 54 : reciprocally enforceable judgements.* ISSN 0843-6053 ISBN 0-7718-9296-9
MICROLOG 93-01711 1 fiche

Rule 54 of the Rules of Court stipulates the procedure to be followed in obtaining registration of an out-of-province judgment under the two reciprocal enforcement measures contained in the Court Order Enforcement Act. Previous Commission reports have commented on certain deficiencies in Rule 54 and concerns surrounding its operation. This report sets out a revised version of the Rule and recommends its adoption. It includes the Draft Rule 54 recommended for adoption by the Law Reform Commission, the Supreme Court Rule 54, and the Court Order Enforcement Act, part 2.

Sur la trace de nos pas : un cadre de référence pour l'examen environnementale du Plan directeur régional

Ottawa : Municipalité régionale d'Ottawa-Carleton, Service de l'urbanisme, 1992. iii, 24 p. : ill. Bibliogr. *L'éd. anglaise (Tracing our steps...) sur la même fiche. CSI 89160.220.*
MICROLOG 93-02705 1 fiche

Ce rapport présente un cadre de référence pour l'examen environnemental du Plan directeur régional. Il souligne la complexité de l'entreprise et propose des thèmes à considérer dans le cadre de notre façon d'aborder l'examen environnemental. Le rapport a pour objet d'explorer les liens existant entre les forces environnementales, sociales et économiques à Ottawa-Carleton. Il se penche particulièrement sur les premières empreintes de pas, le XXe siècle et termine en abordant quelques questions.

Sur le chemin de la réforme : rapport final

Ontario. Comité provincial des services communautaires de santé mentale. Sous-comité de la stratégie de mise en oeuvre. Toronto : le Sous-comité, 1991. 27 p. *L'éd. anglaise (The Road to reform : final report) sur la même fiche.* ISBN 0-7728-0290-2
MICROLOG 93-08437 1 fiche

Le Sous-comité de la stratégie de mise en oeuvre a été mis sur pied pour aider les conseils régionaux de santé (CRS) et d'autres organismes de planification, et pour conseiller le Ministère de la santé sur la mise en oeuvre des recommandations du rapport 'Renforcer le soutien communautaire à la population : planification de la santé mentale en Ontario.' Le Sous-comité était constitué de patients, de membres de leur famille, de professionnels, de fournisseurs de services communautaires de santé mentale et de représentants des CRS, des hôpitaux et des ministères de la santé, des services sociaux et communautaires et du logement. Ce rapport final porte sur les activités telles les suivantes: orientation et aide technique, le manuel de planification, la Direction des services communautaires de santé mentale, la Direction des établissements de santé mentale, les plans quinquennaux, la participation des patients, la stratégie de formation et le processus d'examen des plans. Ensuite, comme orientations futures, on traite de la politique et la direction, la stratégie de financement, la dévolution des responsabilités, la collaboration interministérielle, des ressources humaines et la base de données.

Surface fluxes and stresses in general circulation models

by S.J. Lambert and G.J. Boer. Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1988. ii, 183 p. : ill., maps. Bibliogr. (Report ; no. 88-1)
MICROLOG 93-00222 2 fiche

The coupling of atmospheric general circulation models (AGCMs) to oceanic general circulation models (OGCMs) requires that each behaves appropriately in the uncoupled mode. The atmosphere-ocean fluxes of energy and momentum developed in a collection of 12 AGCMs were obtained from around the world and compared to climatological estimates of these terms. Averaged data for January and July or the December-February and June-August seasons for precipitation, evaporation (or latent heat flux), sensible heat flux, the two components of the surface stress, and the net radiative flux across the surface were collected. To deal with the data in an uniform way and to permit calculations of intermodel statistics, the data are interpolated to a standard 4 x 5 degree grid for subsequent processing and display. Model quantities are compared with climatological estimates of atmosphere/ocean fluxes based on observations.

Surfactant qualities of forest fire fighting foams

by E. Stechishen. Chalk River, Ont. : Forestry Canada, Petawawa National Forestry Institute, 1990. 2 p. : ill. (PNFI technical reports ; 8) *French ed. (Caractéristiques tensioactives de mousses...) : 91-07084/1.* ISSN 1180-2618 ISBN 0-662-18241-3
MICROLOG 93-08719 1 fiche

Forest fire suppression foams owe much of their effectiveness to an ability to wet the fuels they contact. Components of these foam concentrates are surface active agents (or surfactants) which, when added to water, reduce the solution's surface tension. This facilitates more rapid spreading of the liquid over a surface and increases its penetration. The 'Standard on Wetting Agents' specifies that a solution's surface tension must be reduced below 33 mN/m to be effective for fire suppression. Surface tension measurements are not precise values 'Apparent surface tension' measurements of solutions ranging from 0.01 per cent by volume to 1.0 per cent were carried out for the four foam products currently in use in Canada.

Surficial geology and till geochemistry (Au, As, Sb, Hg, Bi, Cu, Pb, Zn, Ag, Mn, Fe, Co, Ni, Mo) of Atholville (21 O/15) map area and part of Escuminac (22 B/1) and Oak Bay (22 B/2) map areas, New Brunswick

by A.G. Pronk and M.A. Parkhill. Fredericton : Dept. of Natural Resources and Energy, Minerals and Energy Division, 1988. i, 7 p. : maps. Bibliogr. (Geological notes series ; PM 88-10) *Fold. maps not filmed.* ISSN 0838-4320
MICROLOG 93-03741 1 fiche

The Atholville, Escuminac, and Oak Bay map areas were chosen as part of the till geochemistry/surficial mapping project because the bedrock geology of the area is similar to that of the Upsalquitch Forks area to the south where gold occurrences are known. The gold in till map of the Upsalquitch Forks area shows a trend of elevated gold values that may extend into the Atholville area. No extensive geochemical studies have been conducted in the area except for a regional stream sediment survey, and little exploration activity had taken place. This report describes the glacial history and deposits and the geochemistry patterns and their implications for exploration.

Surficial geology surveys on the Scotian Shelf : compilation of maps from government, industry, university and foreign sources

by D. Plasse. Ottawa : Environmental Studies Revolving Funds, 1986. v, 74 p. : fold. maps. Bibliogr. (Environmental Studies Revolving Funds report ; no. 029) ISBN 0-920783-28-7
MICROLOG 93-05695 2 fiche

An index was compiled of over 200 surficial geology surveys conducted on the Scotian Shelf and the coordinates for about 7,000 sample stations and 70,000 line km of shallow seismic profiles were plotted on four separate basemaps. Sources for the compilation include the Government of Canada, the oil and gas industry, various universities, and foreign agencies. For each survey, an index sheet summarized the cruise number, survey period, vessel, chief scientist, number of survey lines, total line kilometres, government agencies and contractors who performed the survey, and the availability of initial cruise reports. Details on geophysical, sampling, and navigation equipment were also obtained. A page-sized track plot, and coordinates for samples and seismic lines were included with most cruise summaries.

A Survey of perceived risks

by G. Lafond and A. Gosselin. Ottawa : Emergency Preparedness Canada, 1986. 28 p. Bibliogr.
MICROLOG 93-01480 1 fiche

The study of perceived risks is of great importance to policy makers in assessing the acceptability of risks. Emergency Preparedness Canada is therefore interested in finding out methods of ranking and prioritizing perceived risks in a way which is simple to use and which provides reliable consensus values However, on doing research into risk perception and studies on resources allocation to various mitigation measures, it is suggested that risks are not evaluated in a consistent manner by laypersons and experts alike. This document contains survey work which is an attempt to assess and compare two alternate approaches to perceived risk measurement.

A Survey of pesticide use and bird activity on selected golf courses in British Columbia

by I.E. Moul and J.E. Elliott. Delta, B.C. : Environment Canada, Canadian Wildlife Service, Pacific and Yukon Region ; Victoria Ministry of Environment, Lands and Parks, Integrated Management Branch, 1992. viii, 103 p. : ill. Bibliogr. (Technical report series ; no. 163) ISSN 0831-6481 ISBN 0-662-20212-0
MICROLOG 93-07581 2 fiche

This study was conducted in response to a perceived conflict between the use of agricultural chemicals for turf maintenance on golf courses in British Columbia and the health and wellbeing of the wildlife found on these golf courses. The report describes the bird communities found in the various habitats offered by golf courses, the turf care chemical use on golf courses, and if birds are at risk through toxic exposure to chemicals. Birds were counted and observed on eight golf courses located from Vancouver to South Langley in the lower Fraser Valley region of B.C. The sites were chosen to represent a range of potential wildlife habitat from very open and sparsely foliated courses to others with large areas of trees and hedgerows.

Survey of technical information transfer to sub-trades : draft final report

Scanada Consultants Limited. Ottawa : Canada Mortgage and Housing Corporation, Project Implementation Division, 1992. ii, 21 p. : ill. *CSI 22118 229*
MICROLOG 93-01316 1 fiche

Canada Mortgage and Housing Corp. and the Ontario New Home Warranty Program have been producing literature and videos and delivering workshops to home builders for several years to familiarize the house construction industry with innovations and methods to help prevent or reduce construction problems, and to positively influence the quality of houses being produced. To determine the effectiveness of these information efforts, a survey of house building sub-trades was ordered. The survey was conducted across Canada, with percentage distribution as follows 40.6 in Ontario, 12.2 in the Atlantic region, 22 in Quebec, 14.7 in the Prairies, and 10.5 in British Columbia. Sites were chosen based on residential construction activity. This report documents the findings of the 1991 survey of 407 construction workers, including independent one-man subcontracting businesses, sub-tradesmen working for subcontractors or directly for builders, and large construction companies' site supervisors and foremen.

Surveys of forest health in young stands in British Columbia

by N. Humphreys and G.A. Van Sickle Victoria : Canada-British Columbia Partnership Agreement of Forest Resource Development. FRDA II, 1992. v, 17 p. : ill Bibliogr. (FRDA report ; 190) ISSN 0835-0752 ISBN 0-7726 1666-3
MICROLOG 93-07395 1 fiche

During 1991, Forestry Canada's Forest Insect and Disease Survey examined young stands throughout British Columbia and assessed insect and disease levels and damage. The stands were treated under the Canada-B.C. Forest Resource Development Agreement and examined by B.C. silviculture crews in 1989/90 for establishment and survival. The surveys identified those plantations or managed stands in which significant or potential damage was present; maintained a shared database of incidence and intensity of accurately identified insect and disease pests; periodically provided a statement on the health and management of young forests for Forestry Canada's annual report; located and provided information on sites suitable for long-term research; and identified possible training needs and opportunities to improve pest recognition and assessment. Sites in the Pacific and Yukon regions were examined between June and October 1991 and more than 41 disease and 109 insect samples were submitted for identification.

Surveys of marbled murrelets during the breeding season on the central coast of British Columbia, 1991

by L. Pretash, R. Burns and G.W. Kaiser Canadian Wildlife Service, Pacific and Yukon Region, 1992. iii, 98 p. : ill., maps. Bibliogr. (Technical report series ; no. 160) ISSN 0831-6481 ISBN 0-662-20000-4
MICROLOG 93-03716 2 fiche

Little is known about the breeding biology of marbled murrelets in British Columbia because of difficulty in locating nests and catching the birds. This project determined the distribution and abundance of the birds in Mussel and Kynoch Inlets on the central mainland coast of B.C., and to evaluated nesting habitat in that area. This report presents results of additional studies of marbled murrelets undertaken on the central coast in the late spring and early summer of 1991 to provide more complete and intensive at-sea counts, to develop a method of capturing murrelets on the water, and to identify potential nesting populations and habitats.

Sustainability and prosperity : the role of infrastructure

by D. Fields and J. Ruitenbeek. Ottawa : National Round Table on the Environment and the Economy ; Institute for Research on Public Policy, 1993. 66 p. Bibliogr. (Working paper ; no. 11) *At head of title: Sustainability and prosperity program.*
MICROLOG 93-06377 1 fiche

This paper highlights the changing role of infrastructure as Canada enters an era characterized by increased globalization of outlook, decentralization of production and decision-making, and rapidly merging technological media in the communications and information technology industry. The primary purpose of the paper is to identify a number of key issues and tensions that permeate infrastructure planning in the search for an economically prosperous and environmentally and socially sustainable society. The paper concludes with a discussion of the following themes: doing more for less; the role of economic signals and full cost accounting, decentralized decision-making; the role of the private sector; public involvement; and management of research and development.

Sustainable agriculture : economic perspectives and challenges : summary of a workshop

by R. Thomas. Ottawa : Science Council of Canada, 1992. 18, 20 p. *Bilingual (L'Agriculture durable : perspectives...).* ISBN 0-662-19504-3
MICROLOG 93-07945 1 fiche

This report provides a supplement to the formal proceedings covering the economic debate on agricultural sustainability. It highlights the challenges faced in integrating the issues of sustainability, environmental rights, and intergenerational equity into traditional economic thought, and discusses the need to develop new policies and implement institutional change. The workshop was part of a major study to investigate how science and technology can be managed to achieve an agricultural system that is economically and environmentally sustainable. The workshop brought together more than 100 economists, farmers, and government officials. 40 papers covered topics from environmental impacts to policy directions.

Sustainable development and cost benefit analysis

by D. Pearce, E. Barbier and A. Markandya. Hull, Que. : Canadian Environmental Assessment Research Council, 1988. 36 p. Bibliogr. (Manuscript report ; MR24-88) *Paper for the Workshop on Integrating Economic and Environmental Assessment.*
MICROLOG 93-06480 1 fiche

While sustainable development is the acknowledged subject of much recent development thinking, little headway appears to have been made in terms of a rigorous definition of the concept. This paper suggests a simple definition of sustainable development; elaborates a set of minimum conditions for development to be sustainable, the conditions being based on the requirement that the natural capital stock be subject to non-negative change; and to show that these sustainability conditions can be integrated into, and modify, one of the most powerful economic paradigms at project and programme levels, namely the welfare economic underlying cost-benefit analysis. The text of this paper sets out the basic ideas and reasonings.

Swimming speeds and distribution of underyearling chinook salmon *Oncorhynchus tshawytscha* in response to hypoxia and simulated riverine and estuarine conditions

by G.E. Piercey...et al. West Vancouver, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, West Vancouver Laboratory, 1992. vii, 56 p. Bibliogr. (Canadian data report of fisheries and aquatic sciences ; no. 889) ISSN 0706-6465
MICROLOG 93-08991 1 fiche

This study examines the behavioural responses of juvenile chinook salmon in riverine and vertically stratified estuarine conditions and to hypoxia within a water column simulator. Swimming speeds, schooling behaviour and distribution were quantified in relation to the simulated conditions through the analyis of time-lapse video tape recording. Temporal changes were examined by conducting a series of experiments encompassing the period of natural downstream migration, estuarine residence, and entry into sea water. This report presents data generated from these analyses together with graphical examples of the responses of underyearling salmon to the imposed conditions.

Symposium sur l'évaluation des technologies de la santé : compte rendu

Symposium sur l'évaluation des technologies de la santé (1989 : Québec, Québec). Québec : Gouvernement du Québec, Ministère de la santé et des services sociaux, Direction des communications, 1989. 116 p. : ill. Bibliogr.
MICROLOG 93-04858 2 fiche

Cet article traite des principes et des motifs qui sous-tendent aujourd'hui l'évaluation des technologies dans les domaines de la santé et de la médecine. On y décrit trois catégories d'études évaluatives qui ont trait au développement et à la diffusion des innovations technologiques, à l'évaluation des moyens techniques courants et à l'examen d'interventions visant à modifier la façon dont les technologies sont utilisées. Une approche systémique de l'évaluation est proposée. Les motifs à la base de l'évaluation des technologies incluent le risque d'erreur relié à la dispensation des soins médicaux, les problèmes éthiques engendrés par les technologies qui accroissent la longévité mais non la qualité de la vie, la croissance des dépenses de santé et les pressions politiques.

Symposium sur les bovins laitiers : opportunité et réalité, le défi d'aujourd'hui

Symposium sur les bovins laitiers (16e : 1992 : Saint-Hyacinthe, Québec). Québec : Gouvernement du Québec, Ministère de l'agriculture, des pêcheries et de l'alimentation, Conseil des productions animales du Québec, 1992. 152 p. : ill. Bibliogr. ISBN 2-551-12928-1
MICROLOG 93-08858 2 fiche

Le 16e symposium sur les bovins laitiers a effectué un retour à Saint-Hyacinthe, capitale de l'agro-alimentaire. Ce document présente le compte rendu de ce symposium. Certains points sont traitée tels la médecine préventive, la santé des onglons et l'alimentation durant la période de tarissement. On s'attarde également sur le progrès génétique réalisé au fil des ans, la position vis-à-vis les autres pays, et les futurs choix en amélioration génétique. On propose ensuite de réfléchir sur les critères économiques qui caractérisent une entreprise. Finalement, on présente l'expérience d'un producteur en ce qui a trait à la location et le forfait de son établissement en production laitière.

A Synopsis of the policy framework for the delivery of Parks and Recreation services in Calgary -- Rev.

compiled by Penny Remmer. Calgary, Alta. : Calgary Parks and Recreation, Planning, Design and Marketing Division, Planning Section, 1993. 405 p. : ill. (Background on business research series ; report no. 2) *On cover: Policy.*
MICROLOG 93-06457 4 fiche

The purpose of this report is to research current legislative requirements and municipal policies which affect the services and programs delivered by Calgary Parks and Recreation. The further intent is to assess the impact of the relevant regulations and requirements within the framework of the Five Year Business Plan. It outlines in detail the matter of enabling provincial legislation affecting the everyday operations of Calgary Parks and Recreation, where the Department is the regulator or interpreter of the legislation.

A Synthesis of research rationale for the development of a creative art journal to be implemented by teachers of children suspected of sexual abuse

by S. Colavecchia. St. Catharines, Ont. : Brock University, Faculty of Education, 1991. iv, 89 p. Bibliogr. *ONTERIS: ON06109.*
MICROLOG 93-05961 1 fiche

Physical or emotional pain, confusion, anger, fear and grief often limit the school learning experience. Behavioural problems can result. A creative art journal can assist in sorting out feelings which lead to problem behaviour and negative emotions. Students who are encouraged to express their feelings build a bond of trust with their teachers, thus allowing for a more educative experience. Children who trust their teachers are more likely to let both left and right cerebral learning take place. Research has lead to the question of why an art journal is not a component of journal writing and self-disclosure. This lack in Circular 14 inspired the creation of a journal to be used with children who are suspected victims of sexual abuse.

Tables des marées et courants du Canada, 1993 : Côte Atlantique

Ottawa : Ministère des pêches et des océans, 1992. xli, 315 p. : ill., cartes géogr. *Bilingue (Canadian tide and current tables...). CSI 21105.049.* ISBN 0-660-57429-2
MICROLOG 93-02868 4 fiche

Ce document présente les tables des marées et courants du Canada et plus particulièrement pour la côte de l'Atlantique et la baie de Fundy. Les tables fournissent l'heure et la hauteur prédites de la pleine mer et de la basse mer correspondant aux mouvements verticaux de la marée. Ces tables sont nécessaires pour déterminer la profondeur de l'eau sous la quille des bateaux ou sur les hauts-fonds, pour le mouillage et pour établir l'heure à laquelle il convient de tirer une embarcation sur la berge. L'heure et la hauteur de toutes les pleines et basses mers quotidiennes aux ports de référence sont prédites et présentées dans les tables quotidiennes. Dans certains ports de référence où le comportement de la marée est complexe et non directement indiqué par les tables quotidiennes, la marée est aussi présentée sous forme analogique par des calendriers graphiques. L'heure et la hauteur de la plein mer et de la basse mer aux ports secondaires sont présentées sous forme de tableaux donnant les écarts par rapport à un port de référence

A Tabu search heuristic for the vehicle routing problem -- Rev.

by M. Gendreau, A. Hertz and G. Laporte. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 37 p. Bibliogr. (Publication ; no. 777)
MICROLOG 93-05278 1 fiche

This paper describes TABUROUTE, a new tabu search heuristic for the vehicle routing problem with capacity and route length restrictions. The algorithm considers a sequence of adjacent solutions obtained by repeatedly removing a vertex from its current route, and reinserting it into another one. This is done by means of a generalized insertion procedure developed previously. During the course of the algorithm, infeasible solutions are allowed. Numerical tests are performed on a set of benchmark problems.

Taking action : a union guide to ending violence against women

written by Deborah Prieur and Mary Rowles ; with assistance from Jan Barnsley. Vancouver, B.C. : Women's Research Centre ; B.C. Federation of Labour, 1992. 52 p. : ill. ISBN 0-9692145-9-6
MICROLOG 93-01078 1 fiche (Available on fiche only)

Each year one in eight Canadian women is battered by the man with whom she lives, one in four Canadian women is sexually assaulted during her lifetime, the majority of women in our society have been harassed on the job or in public, and two in five girls are sexually abused. This document contains information about the issues, examples of work that unions have already begun, and recommendations for some simple actions that can be taken by locals, by labour councils, and by provincial or national union bodies.

Taking the health initiative in Canada's green plan

Ottawa : Health and Welfare Canada, 1993. 10, 10 p. *At head of title: APHE, Action plan on health and the environment. Bilingual (Prendre l'initiative de la santé...).*
MICROLOG 93-05018 1 fiche

The Action Plan focuses on four areas of activity, reflecting the concerns expressed during the public consultation process: regulation and monitoring; protecting groups at risk; facilitating individual and community action; and making contributions to international initiatives. Within these four areas the Department of Health and Welfare has embarked on specific initiatives. This document outlines these initiatives and the actions that will contribute to Canada's attempt to become the world's most environmental and health conscious country by the year 2000.

Tandem mass spectrometric analysis of phosphate esters

by P.A. D'Agostino and L.R. Provost. Ralston, Alta. : National Defence, Defence Research Establishment Suffield, 1993. 43 p. Bibliogr. (Suffield report ; no. 581)
MICROLOG 93-06477 1 fiche

A homologous series of nC1-nC4 phosphate esters (trimethyl phosphate, triethyl phosphate, tripropyl phosphate and tributyl phosphate), often used as chemical simulants for chemical warfare agents, were selected as representative organophosphorus compounds for MS/MS characterization under EI conditions. The daughter spectra for the principal EI ions of each phosphate ester were acquired by stepping the CAD cell energy from 1 eV to 100 eV in 1 eV increments at three CAD cell pressures. This report summarizes the daughter spectra acquired for the four phosphate esters under the different CAD cell conditions, suggests CAD cell conditions for these or similar organophosphates and addresses analytical MS/MS concerns such as short and long term reproducibility and GC-MS/MS sensitivity and specificity.

Tank car thermal response analysis : thermohydraulics of an externally heated pressure liquefied gas tank : an experimental study

by U.K. Sumathipala, J.E.S. Venart and F.R. Steward. Ottawa : Transport Canada, Policy and Coordination Group, 1991. xxiii, 302 p. : ill. Bibliogr.
MICROLOG 93-03579 4 fiche

Boiling liquid expanding vapour explosions (BLEVEs) occur when a pressure-liquefied gas tank is burst and the fluid is ejected to the atmosphere. As the liquid is exposed to a lower pressure it boils violently, causing an explosion which destroys the container. This report describes the continuing program of research at the University of New Brunswick involving small scale experiments and collaborating associations. To study the thermohydraulics behaviour of a partially-filled pressure-liquified gas tank engulfed in fire and devise test protection strategies for transport and storage containers, an experimental apparatus simulating (under controlled conditions) the postulated incident was utilized. The tank was fitted with windows for visual observation and photography. Measurements were taken of wall temperatures and lading temperatures as well as tank pressure, tank mass and efflux thrust exerted by the PRV discharge.

Tank car thermal response analysis, phase II : an overview

by J.E.S. Venart. Montreal : Transport Canada, Policy and Coordination, Transportation Development Centre, 1992. viii, 34 p. : ill.
MICROLOG 93-04806 1 fiche

This study involved the simulation, analysis, modelling, and verification of fire induced heat transfer to tanks containing such hazardous materials as liquified gases, LPG, propane and other fluids. The time dependent behaviour of the contents (pressure, temperature, level, mass), pressure relief valve(s) (mass flowrate, discharge - single, vapour or liquid, or two-phase), and tank (temperature) were simulated with analytical/numerical models and verified experimentally to determine whether full sized tanks exposed to accidental pool or torch fire will explode or BLEVE (boiling liquid expanding vapour explosion). Aspects of the study addressed the thermal and thermohydraulic response of the contents and containers with discharges through a crack, a PRV, or both.

Tanker self-help spill recovery systems

prepared for Transportation Development Centre, Policy and Coordination Group, Transport Canada. Calgary, Alta. : Monenco Consultants Limited, 1991. xvii, 157 p. : ill., maps. Bibliogr.
MICROLOG 93-01466 2 fiche

Project to investigate the circumstances in which oil spills occur from tankers at sea by analyzing available historical oil spill data. The shipborne technologies that the ship could use to control and recover the spill were identified and evaluated based on their practicality and effectiveness under various accident scenarios. The recommended system is based on having the tanker owner/operator demonstrate the capability to lighter a specified volume of oil, including a specified capacity of onboard storage for internal oil transfer, and having an emergency response plan including system training.

Taradale area (NTS 42F/NW), districts of Algoma, Cochrane, and Thunder Bay

by J.F. Gartner and D.F. McQuay. Toronto : Ministry of Natural Resources, Ontario Geological Survey ; Ministry of Northern Affairs, 1980. iii, 15 p. : map. Bibliogr. (Northern Ontario engineering geology terrain study ; 29) *Fold map not filmed* ISSN 0709-4671 ISBN 0-7743-4305-2
MICROLOG 93-02314 1 fiche

This report contains an inventory of regional engineering terrain conditions in the Taradale area, districts of Algoma, Cochrane and Thunder Bay. Information was obtained mainly through aerial photographs checked with published and unpublished literature documenting previous field visits and observations. In summer 1978, roads in the area were traversed and observed terrain conditions recorded as further verification of office studies. The report describes the geological setting and engineering terrain units, including bedrock, moraine, glaciofluvial, glaciolacustrine, alluvial and organic landforms.

Teachers' perceptions : the initiation phase of a change process, Dufferin-Peel, 1990-91

by J.P. Moloney. St. Catharines, Ont. : Brock University, Faculty of Education, 1991. ix, 104 p. : ill. Bibliogr. *ONTERIS: ON06105.*
MICROLOG 93-05963 2 fiche

The Dufferin-Peel Roman Catholic Separate School Board initiated a new reporting process for kindergarten to grade 8 in the 1990-91 school year. This process was piloted in 12 of the Board's schools. The project involved surveying all pilot school teachers, interviewing approximately 60 volunteer teachers from the 12 schools and inviting volunteer teachers to complete an implementation survey. Results from all 3 data-gathering techniques were assessed and interpreted. The focus was on teachers' perceptions of the initiation phase of this change process. This led to recommendations to support the 2nd year of the pilot and future expansion of the new reporting process in Dufferin-Peel.

Technical and commercial considerations in selecting NOx reduction technology for utility boilers

by W.F. Van Nieuwenhuizen, M. Karmali and E.J. Campobenedetto. Montreal : Canadian Electrical Association, 1993. 11 p. *Presented at Electricity '93 : distribution power quality.*
MICROLOG 93-05196 1 fiche

Changes in legislation worldwide require that nitrogen oxide emission rates from large, utility, fossil-fuel fired steam generators be reduced. In many jurisdictions, allowable NOx emission rates have been reduced to such an extent that post-combustion NOx control technologies are necessary to achieve the required NOx concentrations in the flue gas being discharged to the atmosphere. To understand the changing marketplace, Babcock & Wilcox undertook a technical and economic evaluation of technologies commercially available for the reduction of NOx.

Techniques d'exploitation souterraine des gisements métallifères filoniens, phase II, vol. 1 : recueil des méthodes d'abattage

par C. Bourgoin, M. Laflamme et S. Planeta. S.l. : Entente auxiliaire Canada-Québec sur le développement minéral 1985-1991, 1991. xiii, 133 p. : ill. (Rapport ; LRM 93-019 (I)) *Sur la couv : Volet technologique. En tête du titre: Projet de recherche et développement.*
MICROLOG 93-06878 2 fiche

Ce recueil décrit de nombreuses méthodes d'abattage en souterrain pertinentes aux gisements filoniens. Les méthodes conventionnelles ainsi que des méthodes améliorées et innovatrices y sont présentées. Le premier chapitre traite: de la définition de gisement filonien et de la problématique qui se rattache à l'exploitation, des critères de sélection des méthodes d'abattage; de la classification des méthodes d'abattage en fonction de paramètres (pendage, épaisseur, irrégularités, réserves, compétence du terrain, géométrie, et dilution du minerai. Les méthodes d'abattage sont décrites dans les deux chapitres suivants. Chaque méthode est décrite en tenant compte des rubriques suivantes: application, travaux préparatoires, abattage du minerai, déblaiement du minerai, soutènement, et conclusion sous forme d'un sommaire des variantes ainsi que leurs avantages et inconvénients.

Techniques d'exploitation souterraine des gisements métallifères filoniens, phase II, vol. 3 : annexes : étude de la dilution, revue documentaire, bibliographie

par C. Bourgoin, M. Laflamme et S. Planeta. S.l. : Entente auxiliaire Canada-Québec sur le développement minéral 1985-1991, 1991. v, 162 p. : ill. Bibliogr. (Rapport ; LRM 93-019 (III)) *Sur la couv.: Volet technologique. En tête du titre. Projet de recherche et développement.*
MICROLOG 93-06865 2 fiche

Ce volume regroupe quatre annexes servant de complément d'information des travaux réalisés au cours de la phase II du projet sur les techniques d'exploitation souterraine des gisements filoniens. L'annexe A présente la liste des mines, des manufacturiers et des centres de recherche visités au cours de la phase II au Canada, aux Etats-Unis, en Europe, ainsi qu'en Afrique du Sud. L'évaluation de l'impact de la dilution sur l'exploitation minière souterraine fait partie de l'annexe B. Celle-ci regroupe un article soumis au Congrès annuel de l'ICM (1990) ainsi qu'un logiciel intégrant les notions de l'article L'annexe C, Analyse numérique de l'exploitation des gisements filoniens par la modélisation, fait suite à un sous-contrat octroyé au Département de génie mécanique. En ce qui a trait à l'annexe D, elle regroupe la liste des références documentaires reliées aux gisements de petite taille et répertoriées dans le cadre de ce projet.

Techniques for barehand work on Hydro-Québec's 735-kV lines

by J.-P. Bellerive. Montreal : Canadian Electrical Association, Transmission Section, 1992. 9 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06259 1 fiche

Energized-line barehand work on 735 kilovolt lines began at Hydro-Quebec in 1965 with the commissioning of the first transmission line from the Manic-Outardes hydroelectric complex. A study of conventional techniques had shown that it would be difficult to use live-line methods with insulating sticks. Since the 735 kilovolt energized line technique was first applied, continuous improvements have been made to the methods to decrease the effort required of line workers and optimize job completion times. General information is presented concerning the techniques of energized-line work performed on Hydro-Quebec's 750 kilovolt lines. Insulator replacement, conductor work, and safety measures are discussed.

Techniques to reduce thermal ice forces acting on dams

by P.J. Hassan. Toronto : Ontario Hydro, Research Division, 1992. iii, 45 p. : ill. Bibliogr. (Report ; no. 92-98-K)
MICROLOG 93-03311 1 fiche

Design reviews of existing concrete dams identified a number of structures that do not meet standards for ice loading conditions. Upgrading these structures would be costly and ice loads are not sufficiently understood to justify the use of lower ice load values. This report presents each method of reducing or eliminating ice loads on dams, along with available information on case histories, estimated costs, advantages, and disadvantages. Recommendations for potential application of selected methods at Ontario Hydro dam sites are also presented.

Technological progress and efficient use of electricity : development plan 1993 : proposal

Montreal : Hydro-Quebec, 1992. 27 p. (Working documents) ISBN 2-550-26757-5
MICROLOG 93-07981 1 fiche

This document describes the high-performance construction materials, appliances and accessories, as well as the electrotechnologies, new electricity uses and new energy sources that could penetrate the Quebec market beyond the year 2000. Much of this document is therefore forward-looking; rather that highlighting any currently marketed technology, it focuses on technologies that are in the testing stage or taking shape in the creative minds of researchers, as well as technologies already developed or under development.

La Technologie et les biens immobiliers au cours des années 90 : Conférence '91 : exposés présentés

Comité consultatif du Conseil du trésor sur les biens immobiliers. Conférence (4e : 1991 : Ottawa, Ont.). Ottawa : Comité consultatif du Conseil du trésor sur les biens immobiliers, 1992. vi, 304, vi, 287 p. : ill. *Bilingue (Technology and real property in the 1990s...).*
MICROLOG 93-04326 7 fiche

En novembre 1991, le Comité consultatif du Conseil du Trésor sur les biens immobiliers tenait sa quatrième conférence annuelle sur la gestion des biens immobiliers fédéraux, sous le thème de 'La technologie et les biens immobiliers au cours des années 90'. Bon nombre des communications présentées à la conférence de 1991 portaient sur les dossiers d'actualité pour les gestionnaires de biens immobiliers dans les années 90, notamment sur les applications de la technologie dans les domaines de la construction et de la gestion immobilière. Ce document présente le compte rendu des exposés présentés lors de la conférence.

Les Technologies de l'information au gouvernement du Québec, 1988-89 : données statistiques en informatique : bilan et perspectives

Québec : Gouvernement du Québec, Ministère des communications, Direction générale des technologies de l'information, 1990. 57 p. : ill. ISBN 2-551-08376-1
MICROLOG 93-07827 1 fiche

Ce document présente une analyse statistique détaillée des investissements en informatique au gouvernement du Québec. Il s'agit d'un document complémentaire au douzième rapport annuel intitulé 'Les technologies de l'information au gouvernement du Québec: bilan et perspectives', lequel fait état du bilan des réalisations et des grandes préoccupations gouvernementales en matière de technologies de l'information. Ce document vise avant tout la clientèle intéressée à obtenir des chiffres sur les investissements en informatique dans l'administration publique québécoise. Les nombreux tableaux statistiques qui y sont présentés permettent de suivre l'évolution des coûts de l'informatique au gouvernement et dans chacun des organismes qui participent à la collecte de l'information. Le rapport regroupe les informations touchant les organismes du secteur public et, pour une deuxième année consécutive, les organismes à budget non voté.

Les Technologies de pointe au Canada : analyse des données récentes sur leur utilisation

par D.G. McFetridge. Ottawa : Groupe Communication Canada, Edition, 1992. viii, 67 p. Bibliogr. *L'éd. anglaise (Advanced technologies in Canada : an..) : 93-01371/1. CSI 22215.274F.* ISBN 0-660-93942-8
MICROLOG 93-01372 1 fiche

Cette étude fait partie d'une série de plusieurs travaux commandés par le Conseil économique du Canada dans le cadre d'un projet de plus grande envergure consacré à la compétitivité et à la performance commerciale. Le projet a pour but d'étudier les raisons pour lesquelles l'industrie canadienne a affiché des performances aussi médiocres au cours des vingt dernières années et de les comparer à celles d'autres pays industrialisés ou nouvellement industrialisés. Cette étude vise deux objectifs. Le premier consiste à déterminer les caractéristiques des entreprises de fabrication qui, au Canada, recourent à des technologies manufacturières de pointe afin de voir si leur adoption se heurte à des obstacles susceptibles d'être atténués par des modifications de la politique publique. L'étude a ensuite pour but de comparer les taux respectifs de pénétration des technologies manufacturières de pointe dans des secteurs choisis aux Etats-Unis et au Canada.

Telecommunications, enabling Ontario's future : the report

Ontario. Advisory Committee on a Telecommunications Strategy. Toronto : Ministry of Culture and Communications, 1992. v, 86 p. ISBN 0-7778-0186-8
MICROLOG 93-03383 1 fiche

This report documents the conclusions of the Advisory Committee on a Telecommunications Strategy for Ontario, established in March 1992 to develop a strategic direction and action plan for Ontario. The report outlines a framework for Ontario that will allow economic growth, competitiveness and sustained employment; a dynamic telecommunications sector that includes manufacturing, software, services, the information provision industry and research and development; and the strategic application of telecommunications by the Ontario Government. Methods of initiating action, including codetermination and cooperative action, accelerating growth in applications development and use, creating a positive environment for information technology industry growth, investing in people, helping communities develop, ensuring that technology serves people, and using the government as a model are discussed. Further details on proposed initiatives, including the use of a number of existing organizations, are also given.

Téléprotection numérique : un aperçu des résultats d'essais pratiques

par G. Grignon. Montréal : Association canadienne de l'électricité, 1992. 10 p. Bibliogr. *Bilingue (Digital teleprotection : an outline of...). Présenté à la Conférence de l'Association canadienne de l'électricité sur la génie et les opérations.*
MICROLOG 93-06113 1 fiche

La téléprotection a été effectuée à peu près exclusivement par des systèmes dont l'information était transmise par glissement de fréquences audibles dans une voie téléphonique standard. Hydro-Québec s'est engagée dans un programme d'amélioration de la qualité du réseau électrique de transport. Ce plan comprend la construction de nouveaux postes et l'implantation de la compensation série sur le réseau. Cette étude porte sur la caractérisation de l'environnement EM dans un poste électrique lors d'un défaut électrique et sur la vérification de l'immunité de la chaîne de télécommunications, numérique et analogique, utilisée pour les options nouvelles de téléprotection, ainsi que celles déjà en service. Un objectif était aussi de préciser les exigences futures de compatibilité électromagnétique, lors de la spécification et de l'achat de systèmes de télécommunications et aussi d'établir ou de réviser les pratiques d'installation et de mise en service. Ce document décrit le programme d'études et d'essais et donne quelques résultats et des conclusions.

Tendances de la société en Ontario francophone

par E. Legault. Toronto : TVOntario, Planification et recherche en développement, 1989. xii, 141 p. Bibliogr. (Document de travail ; 89-6) *ONTERIS: ON05803*
MICROLOG 93-00323 2 fiche (Available on fiche only)

Vise à faciliter le processus de planification des Services de la programmation française, en identifiant les tendances sociales qui influeront sur l'évolution de la communauté franco-ontarienne, au cours de la prochaine décennie. Les tendances sont regroupées en 7 unités qui sont divisées en 2 parties; les tendances générales et celles qui touchent particulièrement les Franco-Ontariens. Pour chaque tendance identifiée, on retrouve: la dynamique (les forces sociales qui agissent sur une situation donnée) et la problématique (les difficultés inhérentes à une situation). Chaque unité finit par l'identification des implications pour les clientèles cibles. Les tendances de la société en Ontario francophone sont: les tendances démographiques, les tendances politiques; les tendances économiques et le monde du travail; les tendances culturelles; les tendances en éducation; les tendances sociales et la qualité de la vie; ainsi que les tendances sociales: la condition des femmes.

La Tenue d'une Commission parlementaire sur les thérapies alternatives : proposition

Québec : Direction générale des ressources professionnelles, Recherche et planification, 1992. 5 p.
MICROLOG 93-06978 1 fiche

Ce document présente une proposition sur la tenue d'une commission parlementaire sur les thérapies alternatives. Les questions abordées sont: comment reconnaître les thérapeutes par une législation adéquate, comment assurer qu'une formation minimale est dispensée d'autant plus qu'elle relève essentiellement du secteur privé, et y-a-t-il lieu d'exiger un code de déontologie?

Terms of reference for the proposed Pine Coulee Project environmental impact assessment

Edmonton : Alberta Environment, 1991. 19 p.
MICROLOG 93-02243 1 fiche

This document advises the government and the public of the information to be presented by the Alberta Public Works, Supply and Services for an environmental impact assessment (EIA) of the proposed Pine Coulee project, an offstream storage reservoir to provide flow augmentation in Willow Creek by storing water during periods of high flow and releasing it during periods of natural flow to meet instream and consumptive demands. The EIA is to identify and assess the significance of expected impacts from the operation of the project to present mitigative measures and procedures to alleviate or minimize adverse effects. The EIA will contain measures to be taken for public participation; give a project overview and need; provide environmental information and historical and archaeological resources information;

Terms of trade and real exchange rates : the Canadian evidence

by R.A. Amano and S. Van Norden. Ottawa : Bank of Canada, 1993. v, 38 p. : ill. Bibliogr. (Working paper ; 93-3) ISSN 1192-5434 ISBN 0-662-20393-3
MICROLOG 93-06849 1 fiche

This paper presents empirical evidence linking the Canada- U.S. real exchange rate with terms-of-trade variables. Using recently developed econometric methods for nonstationary data, it finds that the real exchange rate is cointegrated with terms-of-trade variables, and that causality runs from the terms of trade to the exchange rate. It then constructs a simple exchange rate equation that satisfies several specification tests and performs better than a random walk in post-sample forecasting experiments.

Testing for homogeneity in temperature time series at Canadian climate stations

by D.W. Gullett, L. Vincent and P.J.F. Sajecki. Downsview, Ont. : Atmospheric Environment Service, Canadian Climate Centre, 1990. iv, 43 p. : ill. Bibliogr. (Report ; no. 90-4)
MICROLOG 93-00188 1 fiche

Description of a procedure based on the earlier work of Mitchell (1961) and others for testing for homogeneity in seasonal maximum and minimum temperature time series. The method involves comparing a base station time series with a parallel areally representative reference series created from selected nearby auxiliary stations. Differences between the two series are computed and the resulting difference series is tested statistically in a five-year sequential process for equality of means using the student's t-test. The series are graphed, station histories examined, and the results of the statistical tests analyzed in light of these, to further assess the climatological significance of the inhomogeneities identified. A summary report is prepared for each station, addressing such factors as station longevity, data completeness, and data homogeneity.

Testing of five and seven-vane Darlington pump impellers : summary of key results on pressure pulsation and vibration

by R.T. Hartlen. Toronto : Ontario Hydro, Research Division, 1992. iii, 44 p. : ill. (Report ; no. 92-261-K)
MICROLOG 93-04370 1 fiche

Considerable laboratory testing of Darlington Pressurized Heat Transport pumpsets was conducted during 1991 and 1992. The tests addressed a variety of objectives covering the original five-vane and the replacement seven-vane impellers. This report focused on the unsteady hydraulic behaviour. Key data are presented covering the head-flow characteristic of the pump, including the clear evidence of a discontinuity at low flow; the pressure pulsations at vane-passing frequency, including the effect of flow rate; and the broadband low-frequency roughness at reduced flow. Pumpset vibration is also covered.

Testing of recyclable materials for Industry, Science and Technology Canada

by J.C. Hole. Ottawa : Canada Centre for Mineral and Energy Technology, Mineral Sciences Laboratories, 1991. 30 p. (Report ; MSL 91-16(CR))
MICROLOG 93-00502 1 fiche

Recyclable materials are by-products of processing and fabrication in the mineral processing and metals industries, and are destined for further processing, often at a site other than the place of origin. CGSB Standard 164-GP-IMP was adopted to regulate the transport of recyclable materials to and from processors in these industries. The standard was originally designed to regulate the solid waste materials destined for transport to and disposal in a landfill site. Canadian recycling industries expressed concerns that this standard may be unsuitable for recyclable materials. This investigation was conducted to gather more information on this matter, using 26 samples of recyclable materials ranging from homogeneous powders of various colours to powders mixed with lumps, metallic pieces, heterogeneous metallic scrap, and large metallic chunks collected from Canadian industries. This report describes the results obtained from applying the standard to these materials, as well as a brief outline of issues important to the sampling of heterogeneous materials.

Thermal runaway in insulators

by R.P. Loose. Montreal : Canadian Electrical Association, 1993. 10 p. : ill. *Presented at Electricity '93 : distribution power quality.*
MICROLOG 93-05176 1 fiche

The insulation component of a transmission line is a major contributor to the performance and reliability of the line. Flaws in the insulators that are not usually detectable can place both the line and the linemen at risk. It is therefore of the utmost importance that maintenance personnel understand insulator failure modes so that appropriate corrective action can be taken before the line is forced out of service. This paper examines the effects that high voltage and high temperatures have on insulator aging, causing early failure.

Copies of these documents are available from:
Micromedia Ltd., 240 Catherine St., Suite 305, Ottawa ONT K2P 2G8
(613) 237-4250 FAX (613) 237-4251

Description of a feasibility study on the effectiveness of thermographic infrared techniques for the nondestructive evaluation of nonmetallic materials used in electric power generation and distribution. The study developed a system that would apply a thermal pulse to the material and measured and recorded the thermal response of the material to the pulse with time, thus detecting changes in the character of the material or defects present below the material's surface. The study explains the thermographic inspection technique using conventional heat transfer theory and describes the specialized equipment used to apply and measure the material's response to the heat pulse. Finite difference modelling of the heat pulse on various significant materials such as cross-linked polyethylene, polyvinyl chloride, silicone rubber, fibreglass reinforced plastic, and styrene butadene rubber was performed to determine detection limits.

Thésaurus des sciences et des technologies de l'information

conception et réalisation: Denis Beauchemin. Laval, Québec : Ministère des communications du Canada, Centre canadien de recherche sur l'informatisation du travail, 1992. 149, 164 p. *Bilingue (Thesaurus of information...).* ISBN 0-660-57098-X
MICROLOG 93-01822 4 fiche

Ce document présente le thésaurus des sciences et des technologies de l'information. On a adopté le mode de présentation alphabétique, accompagné d'une liste hiérarchique des termes qui présentent des relations hiérarchiques entre eux. Le thésaurus est imprimé tête-bêche, de sorte que l'on peut le consulter en prenant soit le français, soit l'anglais comme langue de départ. Quelle que soit la langue que l'on choisisse comme langue de départ, on trouvera d'abord la liste alphabétique de tous les termes du thésaurus, descripteurs et non-descripteurs, avec leur équivalent dans l'autre langue et les relations établies avec les autres termes du thésaurus. Finalement, cette liste alphabétique est suivie d'une liste hiérarchique des termes du thésaurus.

Thesaurus of information sciences and technologies

editor: Denis Beauchemin. Laval, Que. : Dept. of Communications of Canada, Canadian Workplace Automation Research Centre, 1992. 164, 149 p. *Bilingual (Thésaurus des sciences et...).* ISBN 0-660-57098-X
MICROLOG 93-01822 4 fiche

In 1987, the Integrated Service of Information Resources (ISIR) of the Canadian Workplace Automation Research Centre began to set up a bibliographic data base to manage and make usable its documentation collection. To successfully process the information relevant to the various subject fields, the ISIR had to develop a controlled documentation language that eventually became this thesaurus. Terms are arranged alphabetically in English and French with equivalents in the other language and relationships to other terms in the thesaurus. A hierarchical list is also included. Subject fields include computer science, telecommunications, optics, acoustics and graphics and their specific information-processing applications (production, conversion, storage, distribution and access).

Thessalon area (NTS 41J/SW and part of 41K/SE), District of Algoma

by D.F. VanDine. Toronto : Ministry of Natural Resources, Ontario Geological Survey ; Ministry of Northern Affairs, 1980. iv, 16 p. : maps. Bibliogr. (Northern Ontario engineering geology terrain study ; 97) *Fold. maps not filmed.* ISSN 0709-4671 ISBN 0-7743-4373-7
MICROLOG 93-02929 1 fiche

This report contains an inventory of regional engineering terrain conditions in the Thessalon area, District of Algoma. Information was obtained mainly through aerial photographs checked with published and unpublished literature documenting previous field visits and observations. In fall 1977, roads in the area were traversed and observed conditions recorded as further verification of office studies. The report describes the geological setting and engineering terrain units, including bedrock, glaciofluvial, glaciolacustrine, organic and alluvial landforms. An example of a derived map for sand and gravel resources is included.

Thin wall foundation testing

University of Alberta. Dept. of Civil Engineering. Edmonton : Alberta Municipal Affairs, Innovative Housing Grants Program, 1992. viii, 74 p. : ill. Bibliogr. ISBN 0-88654-378-9
MICROLOG 93-04132 1 fiche

In Alberta, house foundations are generally constructed as 200 mm thick concrete walls resting on strip footings that in turn rest on undisturbed soil below the frost line. Minimal reinforcement is employed,and generally consists of parallel horizontal bars at the top of the wall to minimize cracking. This project tested, in actual field-constructed conditions, the practical performance of a 150 mm unreinforced concrete wall under varying lateral loads as would be imposed by differing soil types. The project also determined lateral load characteristics for various soil types typical to Alberta; confirmed the behaviour of the foundation wall as a function of lateral load, and compared measured and calculated lateral loads to the equivalent fluid pressure specified as a performance criteria in the Alberta Building Code. Project work took place in Strathcona County, east of Edmonton, from October 1990 to March 1992.

Third-year assessment of prescribed burning on forest productivity of some coastal British Columbia sites

by W.J. Beese. Victoria : Canada-British Columbia Partnership Agreement of Forest Resource Development: FRDA II, 1992. vii, 38 p. : ill. Bibliogr. (FRDA report ; 181) ISSN 0835-0752 ISBN 0-7726-1566-7
MICROLOG 93-02991 1 fiche

Prescribed burning is a widely used forest management tool, yet its long-term effects on site productivity are not well understood. MacMillan Bloedel Ltd. (MB) and Forestry Canada began a cooperative study of the effects of prescribed burning on tree growth and site nutrition in 1985. This study quantifies the impacts of prescribed fires of differing intensity on organic matter and soils and measures tree growth and nutrition, plant succession, soil erosion, and soil nutrients associated with these impacts. Two low-impact spring burns, two high-impact fall burns, and two unburned controls were replicated on three sites west of Port Alberni on central Vancouver Island. Some spring plots were accidentally reburned during an adjacent fall burn.

Thompson River water quality assessment and objectives

Victoria : BC Environment, Water Management Division, 1992. 6 p. ISBN 0-7726-1708-2
MICROLOG 93-04738 1 fiche

Summary of the water quality of the mainstem Thompson River and proposals for water quality objectives that would protect existing and future water uses. The geographic limits of the study include the South Thompson River and its tributaries between Little Shuswap lake and the confluence with the North Thompson at Kamloops, the North Thompson downstream from McLure, and the lower Thompson River to its confluence with the Fraser River, including Kamloops Lake. Designated water uses through the drainage basin include protection of aquatic life, irrigation, livestock watering and wildlife water supply, recreation, and industrial water supply.

Three-phase load flow analysis of unbalanced power systems

by W. Xu. Montreal : Canadian Electrical Association, Engineering and Operating Division, Power System Planning and Operating Section, Insulation Coordination Subsection, 1992. 12 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06103 1 fiche

Voltage and current unbalance in power systems has become one of the concerns in power quality control. 3-phase load flow analysis is essential for the investigation of the unbalance problems. In this paper, the unique problems and their solutions associated with 3-phase load flow analysis, as compared to single-phase load flow analysis, are discussed. A 3-phase load flow program MHLF developed on the basis is presented. Field test results are used to verify the accuracy of the MHLF program and also to demonstrate the importance of modelling 3-phase component responses in unbalanced load flow analysis.

Ties beyond trade : labor and environmental issues under the NAFTA

Jonathan Lemco and William B.P. Robson, editors. Toronto : Canadian-American Committee, 1993. vi, 161 p. (CAC ; 61) ISBN 0-88806-315-6
MICROLOG 93-04856 2 fiche

Much attention has been devoted to the implications of the North American Free Trade Agreement (NAFTA) for economic growth, employment gains and losses, and the growth of regional trading blocs. But there is growing interest in issues well outside the traditional realm of trade agreements. This document contains papers on the following topics: a social charter for North America; trade negotiations, social charters, and the (NAFTA); the social side to free trade; the case for linking a right to adjustment with the NAFTA; a sceptical view of the social charter; and implications of a social charter for the NAFTA.

To develop a circuit to produce high manganese concentrate at the Scully Mine : final report

by P. Cleyle. S.l. : Canada-Newfoundland Mineral Development Agreement, 1992. 35 p. : ill. *CANMET contract: 23440-1-9189-01-SQ.*
MICROLOG 93-04271 1 fiche

The average manganese content of the orebody at the Scully Mine is over 2.0 percent. At present, selective mining must be carried out to produce concentrates at 1.15 and 2.0 percent. The competitive position of Wabush Mines would be greatly enhanced if the manganese content of the final concentrate could be lowered, since the majority of customers would prefer a content of 0.80 percent. Recent developments in rare earth magnets have enabled the development of high capacity dry drum-type separators. A pilot scale test circuit at Wabush Mines has shown the capability to reject manganese to tailings at

To improve recovery of the spiral plant at the Scully Mine : final report

by P. Cleyle. S.l. : Canada-Newfoundland Co-operation Agreement on Mineral Development, 1991. 20 p. : ill. *CANMET contract: 23440-0-9230-01-SQ.*
MICROLOG 93-04263 1 fiche

A new design of wash water distributor was installed on the cleaner spirals of mill line no. 4 that allowed a reduction in the variance of washwater flowrates across a spiral bank, enabling greater control of metallurgical performance than the old wash water header system. A comparative study was performed using mill line no. 3 as the standard. The test program first operated both lines under identical conditions to determine if the new distributors would produce a spiral concentrate of superior grade, then the rougher spirals of line no. 4 were opened up to send more iron to the cleaner spiral to produce higher recoveries while attempting to maintain silica grade equal to that of line no. 3. This report gives the results of the tests.

Tolérance de la graminée endémique *Deschampsia Cespitosa*, étudiée dans le cadre d'une colonisation éventuelle des terrils

par T.C. Hutchinson et R.M. Cox. Ottawa : Affaires indiennes et du Nord Canada, Programme des affaires du Nord, 1985. v, 53 p. : ill. Bibliogr. (Etude environnementale ; no 21) ISBN 0-662-94722-3
MICROLOG 93-05006 1 fiche

On propose, dans cette étude, d'évaluer la capacité de la graminée Deschampsia cespitosa à recoloniser des terrils de nature chimique très variée. Dès son apparition en 1974, cette graminée a manifesté une capacité d'invasion spectaculaire et s'est propagée dans la région de Sudbury contaminée par des métaux. Deux des principaux obstacles à la croissance des végétaux que l'on a examinés dans cette étude sont a) l'acidité des stériles, et b) leur toxicité chimique, surtout due à des concentrations élevées d'élément phytotoxiques comme le plomb, le zinc, le cadmium, le nickel et le cuivre.

Tommy Atkins : le soldat britannique traditionnel en garnison au Canada, de 1759 à 1870

par C.M. Whitfield. Ottawa : Environnement Canada, Parcs Canada, Direction des lieux et des parcs historiques nationaux, 1981. 229 p. : ill. Bibliogr. (Histoire et archéologie ; 56) *L'éd. anglaise (Tommy Atkins : the British soldier...) : 85-2248/3.* ISSN 0227-3551 ISBN 0-660-90848-4
MICROLOG 93-03861 3 fiche

Tommy Atkins est le nom que l'on donne au soldat britannique traditionnel en garnison au Canada de 1759 à 1870. Sa présence avait des répercussions sur la vie économique et sociale de tous les villages où il était en garnison, mais les historiens canadiens l'ont jusqu'à présente ignoré. Cette étude tente de peindre son profil psychologique, d'expliquer sa vie de tous les jours et de dégager les éléments qui influençaient son comportement. On s'est d'abord intéressés à l'administration qui essayait de réglementer chaque minute de la vie de Tommy Atkins et qui apporta de grands changements à son style de vie au cours de la période qui nous intéresse. On a ensuite examiné deux aspects de sa vie, l'alcool et la désertion, qui le mettaient en conflit avec cette administration. Le quatrième chapitre, consacré à la discipline, passe en revue les façons dont l'administration assignait les punitions. Enfin, on a étudié les deux autres méthodes auxquelles l'administration avait recours pour le conserver dans le droit chemin, soit la religion et les bibliothèques.

Top management program, farm management initiatives : final report

by T. Thorson. Regina : Agriculture Development Fund, 1992. 7 p.
MICROLOG 93-00954 1 fiche

Cost competitiveness is one of the major issues currently facing the agriculture industry. This document identifies the first step in determining cost competitiveness. It describes the Top Management Program's whole farm simulation computer programs that determine actual cost of production for each crop grown on a farm. It also includes a summary of the report and background information and objectives. It describes the experimental methods, the results, conclusions, the impact on Saskatchewan agriculture, the technology transfer, personnel, and equipment.

Toponymy survey, Kent County : final report

W.M.S. Associates Ltd. Fredericton : Geographic Information Corporation, 1991. 32, 32 p. *Bilingual (Sondage toponymique, comté de Kent...).*
MICROLOG 93-03737 1 fiche

There is apparently varying public opinion on the name of Cap-des-Caissie/Caissie Cape, New Brunswick. This report gives the results of a survey of the permanent residents in the community to determine the preferred place name. The study investigated the most appropriate survey mechanism, disseminated information on the proposed approach, and surveyed area residents on their views about the various place name alternatives. A mail-back survey was used to determine the preference.

Toquart local resource use planning backgrounder

Port Alberni, B.C. : Port Alberni Forest District, 1992. 16 p.
MICROLOG 93-04734 1 fiche

In 1974 federal and provincial government agencies and the University of British Columbia carried out an integrated resource study on the Toquart watershed. This new review is being conducted because significant changes have taken place since then, including development of the drainage and increased accessibility; new legislation, policies, and guidelines; and new perspectives. The new planning process identifies and examines resource values in relation to existing and potential resource uses, critical areas or sensitivities for each resource, and potential conflict areas between resources; and establishes management strategies and performance standards to minimize the negative impact of other resource issues. This background document describes physical, climatic, and vegetation characteristics; wildlife, forest harvesting; estuarine resources; mineral potential and mining; aboriginal use; recreation and landscape; and timber resources. Recommendations are included for the fisheries, forest recreation and landscape, biodiversity, and the estuary.

Toronto central waterfront transportation corridor study

IBI Group. Toronto : Royal Commission on the Future of the Toronto Waterfront, 1991. 121 p. : ill., maps. (Report ; 15) ISBN 0-662-19248-6
MICROLOG 93-01751 2 fiche

This study sets out a range of transportation options; identifies the environmental, land-use, urban design and economic opportunities and concepts they help make possible; and assesses the required financial resources and related risks involved. It proposes a Stage I program aimed at achieving those opportunities in a cost-effective manner. The combined land-use, transit system, road network and environmental concept that could subsequently evolve would be comparable with various treatments of the Gardiner-Lake Shore facility, and the anticipated consequences of these are described. The Stage I program is designed to leave open the more promising options for the central section of the Gardiner-Lake Shore facility.

Toronto Leaside TS : ground grid integrity tests

by R.P. Pillai. Toronto : Ontario Hydro, Research Division, 1992. 28 p. : ill. (Report ; no. 92-56-K)
MICROLOG 93-02994 1 fiche

Toronto Leaside Transformer Station was built in 1928. Subsequent to a potential transformer failure at the station in April 1990, a task force was established to review the effectiveness of equipment and facilities at the station. One of the items in the task force report identified the need to evaluate the effectiveness of the station ground system. This report describes the ground grid integrity tests using dc current injection that were conducted at the station to evaluate the continuity of the grounding interconnections. Simple models were developed to interpret the measured resistances and separate tests using a new method based on monitoring the magnetic field produced by off-frequency test currents were conducted at randomly selected locations at the station.

Tourism 2000, a vision for the future : a strategy for tourism in Alberta

Edmonton : Alberta Economic Development and Tourism, 1993. 36 p
MICROLOG 93-08890 1 fiche

This report outlines an initiative designed to address the need for a provincial tourism strategy that will help the province and the industry meet the challenges of the 1990s and beyond. The vision and strategy provide the framework for achieving tourism's goals through a partnership and shared responsibility among industry, government and Albertans. The report puts Alberta's tourism industry in perspective, describing assets, economic benefits and quality of life. It then describes a vision for the tourism industry. Tourism challenges deals with issues such as tourism as a government priority, tourism and the environment, human resources, creating a positive investment climate, regulations and regulatory process, research and planning, infrastructure, marketing, and product development. The report also offers conclusions.

Tourism's value to British Columbia

Victoria : Ministry of Tourism and Ministry Responsible for Culture, Industry Research Branch, 1993. 7 p. : ill.
MICROLOG 93-08745 1 fiche

British Columbia's economy is in a period of transition. While the province has historically depended on resource extraction and harvesting for its economic base, this is now broadening to include strong service, knowledge-based and value- added manufacturing and processing industries. This document provides a contextual framework for tourism's role in that transition. It also seeks answers to questions regarding how the visitor to the province is defined, which sectors provide goods and services to the visitor, and how the economic value of tourism is defined.

Toward a more realistic immigration policy for Canada

by D. Stoffman. Toronto : C.D. Howe Institute, 1993. 16 p. Bibliogr. (Backgrounder)
MICROLOG 93-06861 1 fiche

The author of this document calls for a lowering in the annual intake of immigrants and a return to the time when Canada had more control over the skills levels of the immigrants it received. In effect, that would mean decreasing the number who enter under the family category and increasing the number brought in under the points system. The author argues that Canada has no coherent, well-communicated immigration policy and that there has not been an open and honest debate about the type and amount of immigrants Canada should accept.

Town of Devon botanical theme concept plan design document

Edmonton Metropolitan Regional Planning Commission. Edmonton : The Commission, 1991. 12 p. : fold. map, maps.
MICROLOG 93-03860 1 fiche

In the fall 1990, the Town of Devon requested the Edmonton Metropolitan Regional Planning Commission to produce a conceptual plan to assist the Town in the implementation of its downtown plan and its Botanical Garden Theme. This report constitutes compliance with the terms of reference and the programme document. The report describes the site and the objectives; the concept development; the design, including conceptual rows, and the promenade; interpretive signage; and funding and implementation.

Town of Gibbons general municipal plan

Edmonton : Edmonton Metropolitan Regional Planning Commission, 1992. ix, 71 p. : ill., maps.
MICROLOG 93-08962 1 fiche

Gibbons is a small town located approximately 10 kilometres northeast of Edmonton. This document presents the general municipal plan for the town. It presents some history, as well as looks at the future. It gives a regional setting and its pattern of development. Plan goals, a developmental concept, Plan components, and the Plan's implementation and review are included.

Township of Saugeen : stabilization of granular base material with base course stabilizer

by C. Seeley and R.C. Aquin. Downsview, Ont. : Ministry of Transportation, Engineering Materials Office, 1991. 13 p. (Materials information report ; MI-151) *On cover: Municipal roads demonstration projects.*
ISBN 0-7729-9230-4
MICROLOG 93-07668 1 fiche

Low volume township roads are subjected to heavy loading from trucks resulting in damage to road bases and to bituminous surfaces. The damage can be reduced by stabilizing or increasing the granular thickness. A trial of base stabilization was done on a section of gravel road 800 m long. It was stabilized by a Caterpiller RR-250 Road Reclaimer and a new product, Base Course Stabilizer (BCS). BCS is a mixture of ammonium lignosulphonate (Tembind), SS-1 emulsified asphalt and water in equal parts. The objectives of the project were to see if there was equipment available that could accurately proporation and mix the BCS and to determine the costs.

Toxic deposition monitoring network data listing for organochlorine pesticides and polychlorinated biphenyls in air and precipitation, 1989 and 1990

Ontario. Atmospheric Research and Special Programs Section. Toronto : Ministry of the Environment and Energy, Air Resources Branch, 1992. ii, 132 p. Bibliogr. (Report ; ARB-107-92) ISBN 0-7778-0341-0
MICROLOG 93-05417 2 fiche

The toxic deposition network was established in late 1987 to monitor for polychlorinated biphenyls (PCBs), organochlorine pesticides (OCs), trace metals, polycyclic aromatic hydrocarbons (PAHs), and polychlorinated dibenzo-dioxins and dibenzo-furans (PCDD/PCDFs) in air and precipitation. This report gives the 1989 and 1990 air and precipitation monitoring results for PCBs and OCs. Data from the site at Shallow Lake are incomplete because the site was closed in October 1990. Trace metal data are reported as part of the APIOS monitoring program.

Toxicité aigue du thiocyanate et du cyanate pour la truite arc-en-ciel

par M.R. Speyer et P. Raymond. Ottawa : Affaires indiennes et du Nord Canada, Programme des affaires du Nord, 1984. xiii, 49 p. : ill. Bibliogr. (Étude environnementale ; no 47) ISBN 0-662-94168-3
MICROLOG 93-05005 1 fiche

Cette étude, subventionnée conjointement par le ministère des Affaires indiennes et du Nord canadien et la société Noranda Inc., consiste à effectuer une série d'épreuves biologiques statiques pour analyser l'effet de la température et du pH sur la toxicité du cyanate et du thiocyanate pour la truite arc-en-ciel. On a aussi cherché à dégager des tendances en ce qui concerne l'effet de la dureté de l'eau sur la toxicité du cyanate et du thiocyanate. Les stocks de poissons ont été conservés à 6 degrés celsius ou à 13 degrés celsius avant les épreuves biologiques réalisées respectivement à 5 et à 12 degrés celsius.

Toxicity of municipal wastewater to two species of fish, the cladoceran *Daphnia magna*, and the mollusc *Anodonta grandis*

by J.W. Moore...et al. Edmonton : Alberta Environmental Centre, 1992. vii, 44 p. Bibliogr. ISBN 0-7732-1061-X
MICROLOG 93-00703 1 fiche

Study to determine the toxicity of influent and effluent from 10 large municipal wastewater treatment plants, representing three process types, in Alberta. Both acute and chronic toxicity were determined using rainbow trout and Cladocera and molluscs and fathead minnow were also used in acute toxicity tests. Histopathologic evaluation of tissues was conducted following exposure of the fish to the wastewater. Plants evaluated included Bonnybrook at Calgary, Camrose, Capital Region and Goldbar at Edmonton, Fort McMurray, Grande Prairie, Lethbridge, Medicine Hat, Red Deer, and Wetaskiwin. To assess the effect of season and temperature on the plants' ability to reduce toxicity, samples were generally collected during the winter and the summer. Heavy metal and ammonia-N analyses were conducted on each sample. Prior to implementation of the toxicologic procedure, each sample was amended to remove ammonia-N; in addition, all samples were aerated to eliminate the possibility of suffocation of test species.

Tracers for fine sediment transport in Humber Bay, Lake Ontario

by J.P. Coakley and D.J. Poulton. Burlington, Ont. : Canada Centre for Inland Waters, National Water Research Institute, 1990. 38 p. : maps. Bibliogr. (NWRI contribution ; 90-03)
MICROLOG 93-07468 1 fiche

Several physical and chemical attributes of bottom sediments in Humber Bay, Lake Ontario were investigated as tracers of medium- and long-term transport patterns for fine-grained contaminated sediments entering the Bay. These are: concentrations of trace pollutants and their ratios, the spatial distribution of an artificial cesium-containing tracer material, introduced in 1987; and selected grain-size statistics. The investigation focused on three possible point sources: Humber River, the Humber Sewage Treatment Plant outfall, and the Western Gap outlet from Toronto Harbour.

Track structure research II, task 1

prepared for CN Rail and Transportation Development Centre, Policy and Coordination Group, Transport Canada ; by J.O. Igwemezie, S.L. Kennedy and J. Tiessinga. Kingston, Ont. : Queen's University, Canadian Institute of Guided Ground Transport, 1991. xiv, 104 p. : ill. (CIGGT report ; no. 90-11) ISBN 0-88911-099-9
MICROLOG 93-06411 2 fiche (Available on fiche only)

Defects on the surface of a wheel result from a combination of contact fatigue damage and train operation. These defects produce dynamic loads that are detrimental to track components. To measure and report these dynamic loads, CN acquired flat wheel detectors that are calibrated using monotonically increasing static loads. This report presents the results of a field study of a flat wheel detector site on CN's main line at Vandorf on the Bala subdivision. The test program involved a dynamic calibration of the flat wheel detectors and a work train test at speeds ranging from 2 mph (3.2 km/h) to 62 mph (100 km/h).

Trade in services between the US and Canada : status and prospects

by J.W. Harrington. Buffalo, NY : State University of New York at Buffalo, Canada-United States Trade Center, 1989. 30 p. Bibliogr. (Occasional paper ; no. 2)
CSI 97945.202.
MICROLOG 93-03394 1 fiche

International trade in services may be viewed in several ways including as an attempt by the generators of specialized skills and information to exploit those skills and information over as wide a market as possible. This paper focuses on this view of information-based services provided internationally between and within companies. It explores the bases for this view and for this type of trade, and categorizes the barriers to trade in services. It also inspects United States-Canada service trade: its volume, composition, trends, and bases. It studies relevant provisions of the bilateral Free Trade Agreement of 1988 for economic implications for either country and its regions.

Training and mobility

Ottawa : Secretary of State of Canada, Public Service 2000, Task Force on Career Development, 1990. 47 p. *French ed. (Formation et mobilité) on the same fiche.*
MICROLOG 93-06263 2 fiche

The Task Force on Career Development is one of the eight departmental task forces created by the Under Secretary of State in the spirit of PS 2000. When the Task Force was established, special attention was given to representation. All target groups, professional categories, sectors and regions were represented. However, anglophones and support staff were underrepresented, when considering departmental ratios. It was decided that a one-time intensive working session, spread over a two-day period, would permit a more thorough study of the subject matter and foster better communications between members. Fifty of the 70 Task Force members participated in the working session, 14 of whom were from Regional Operations. The eighteen proposals that appear in the document are the product of these discussions and of the conscientious work of the participants during the two-day session.

Training simulator at Point Lepreau Nuclear Generating Station

by D.L. Stafford. Montreal : Canadian Electrical Association, Thermal and Nuclear Power Section, Nuclear Power Subsection, 1991. 33 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06243 1 fiche

Simulators are rapidly becoming the tool of choice when training is required on complex or hazardous processes or where the cost of training on the actual equipment is either very expensive, dangerous or impractical. Simulators are now being used extensively in numerous industries, ranging in size from relatively simple process simulators to very large complete plant simulations typical of nuclear power simulators. An overview is presented of the Point Lepreau nuclear simulator and the reasons for its purchase. The simulator is an exact duplicate of the plant control room, and responds in all aspects as if connected to the actual plant. The simulator's intended usage, capabilities and depth of modelling, process modelling, valves and motors modules, logic modules, electrical systems modelling, simulation capbilities, lessons learned during commissioning, and use of fossil-fired simulators are discussed.

Training social workers in a feminist approach to conjugal violence : summary of the action-research

Ann Pâquet-Deehy, Maryse Rinfret-Raynor, Ginette Larouche ; with the collaboration of Marie-France Ouimet on the text ; translated by Elaine Lalande. Montreal : University of Montreal, Faculty of Arts and Science, School of Social Work, 1992. 20, 23 p. Bibliogr.
Bilingual (Apprendre à intervenir...). ISBN 2-921041-11-1
MICROLOG 93-06467 1 fiche

This research summary is intended for the use of persons working with women who experience conjugal violence. It summarizes the data connected with the subjective experiences of fifteen social workers in training to learn a new feminist intervention model for battered women. The training experience, as well as the action-research which was conducted at the same time, are based on a feminist intervention model for working with battered women developed by social worker Ginette Larouche. The 'Guide to Intervention with Battered Women' was widely distributed throughout the social affairs network. The action-research was intended to develop and improve the model.

Le Traitement des joueurs et joueuses problèmes et pathologiques du Nouveau-Brunswick : points de vue pour instaurer des services

[par] Baseline Market Research ; avec Rachel A. Volberg. Fredericton : Ministère des finances, 1992. 28 p. Bibliogr. *L'éd. anglaise (The Treatment of problem...) sur la même fiche.*
MICROLOG 93-04423 1 fiche

Ce rapport sur le traitement des jeux d'argent pratiqués par des joueurs à problèmes et pathologiques vise à fournir un cadre pour aider le gouvernement du Nouveau-Brunswick à planifier des services pour les personnes affectées de la province. Les recommandations qui se trouvent à la fin du document se basent sur des informations provenant de chercheurs d'Australie, d'Europe, de Nouvelle-Zélande et des Etats-Unis, ainsi que sur des renseignements fournis par des professionnels en traitements de la santé mentale, d'abus de drogues et d'alcool du Nouveau-Brunswick. Le rapport est divisé en plusieurs sections, dont une analyse des méthodes, un examen de la littérature sur le traitement des jeux d'argent pratiqués par des joueurs à problèmes et pathologiques et un résumé de l'organisation des services de traitement de la santé mentale et des accoutumances au Nouveau-Brunswick. Il se termine par des recommandations portant sur les efforts à faire pour prévenir et traiter ce problème dans la province.

Transfer of the uranium decay products, polonium-210 and lead-210, through the lichen-caribou-wolf food chain in northern Canada

by P.A. Thomas. Hull, Que. : Canadian Environmental Assessment Research Council, 1991. vi, 18 p. Bibliogr. (Manuscript report ; MR18-91)
MICROLOG 93-05386 1 fiche

Study to investigate the accumulation and transfer of polonium-210 and lead-210 in the Arctic food chain lichen-caribou-wolf in the Northwest Territories. With the participation of the hunters of Baker Lake, caribou and wolf samples were collected and analyzed for polonium. The level of polonium-210 was determined in lichen, several caribou tissues, and several wolf tissues. Transfer coefficients were derived between trophic levels in the food chain and the Po-210:Pb-210 ratios for lichens and selected tissues in caribou and wolf were determined.

Transfers of soluble inorganic elements in a boreal balsam fir forest

by G. Robitaille and R. Boutin. Sainte-Foy, Que. : Forestry Canada, Quebec Region, Laurentian Forestry Centre, 1990. v, 34 p. Bibliogr. (Information report ; LAU-X-94E)
French ed. (Transferts d'éléments inorganiques...) : 91-00348/1. ISSN 0835-1570
ISBN 0-662-17986-2
MICROLOG 93-04162 1 fiche

This report establishes in part the geochemical and biogeochemical transfers found in a boreal balsam fir forest and compares the results with those described in the literature on similar ecosystems. The results are interpreted in terms of catchment sensitivity to current levels of acid deposition. The report describes the results of seven years of observation (June to October) on the nutrient solution chemistry found in incident precipitation, throughfall, stemflow, and soil solution below the roots for a boreal balsam fir forest ecosystem. Data on nutrients leaving the catchment are also included. The study site is the Lake Laflamme catchment

Transformateur de chaleur

Centre de recherche industrielle du Québec. Ottawa : Energie, mines et ressources Canada, Direction de la technologie de l'efficacité énergétique et des énergies de remplacement, 1991. 69 p. : ill. Bibliogr.
CANMET contract: 23440-09507. ISBN 0-662-97770-X
MICROLOG 93-00493 1 fiche

Le but de cette étude est de concevoir un transformateur de chaleur à absorption de type expérimental. Dans la première section du rapport, une utilisation cible est identifiée puisque les conditions d'opération liées à cette utilisation ont une grande influence sur la détermination des caractéristiques du prototype. La seconde et la plus importante partie du rapport couvre la conception du transformateur de chaleur. L'aboutissement en est la production de spécifications pour chacune des composantes du système. La simulation par modèle numérique est abordée dans la dernière section du rapport. Il s'agit d'une brève introduction aux besoins futurs dans ce domaine et de recommandations pour les combler.

Transit equilibrium assignment : a model and solution algorithms -- Rev.

by J.H. Wu, M. Florian and P. Marcotte. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 25 p. : ill. Bibliogr. (Publication ; no. 721) (Publication ; no. 756)
MICROLOG 93-05457 1 fiche

This paper proposes a model for the transit equilibrium assignment problem (TEAP) and develops two algorithms for its solution. The behaviour of the transit users is modeled by using the concept for hyperpaths on an appropriate network that is obtained from the road network and the transit lines by a transformation that makes explicit the walk, wait, in-vehicle, transfer, and alight arcs. The TEAP is stated and formulated as a variational inequality problem, in the space of hyperpath flows, and then solved by the linearized Jacobi method and the projection method. The global convergence of these two algorithms for strongly monotone arc cost mappings is proven and the implementation of the algorithms and computational experiments are presented as well.

Transit services for people with disabilities in the Vancouver regional transit service area : discussion paper

Victoria : BC Transit, 1992. 12 p. : ill.
MICROLOG 93-00537 1 fiche

BC Transit provides a range of transportation services for people with disabilities: handyDART, accessible buses, Skytrain, Seabus, and Taxi Savers. The purpose of the public meetings held in September and October, 1992, is to get feedback from people with disabilities and others about these services and how they might be better tailored to meet all passengers' needs. This paper addresses three broad topics: an overview of current services, trends and issues affecting these services, and policies and plans for the future.

This document contains a set of guidelines that show how all forms of urban development and redevelopment can be made more accessible by public transit. The guidelines are a distillation of transit-friendly land use planning and urban design practices, drawing from experience in Ontario and elsewhere in North America and abroad. They were reviewed and refined with input from professional urban planners, transit organizations, municipalities, environmentalists, developers and the building industry. They cover land use planning, including urban structure, activity nodes and corridors, location of specialized uses, and phasing of development; physical design, including urban form, layout of arterials and collectors and local roads, streetscape design and design of specialized uses; and process and incentives, including consultation, planning documents, transit priority measures, and parking supply and pricing.

Transmission line compaction at Ontario Hydro

by D.G. Havard...et al. Montreal : Canadian Electrical Association, 1993. 18 p. : ill. Bibliogr. *Presented at Electricity '93 : distribution power quality.*
MICROLOG 93-05173 1 fiche

In the early 1970s, public pressures for aesthetically pleasing transmission lines led to the development of several compact line concepts, one of which was built near Toronto. The new designs were based on shorter strings of semiconducting glaze insulators and the anticipated success of a novel galloping control method. During the late 1980s, the need to reconductor and upgrade lines within narrow rights-of-way renewed interest in compact lines. This paper describes several examples of compact designs achieved by applying new technical developments.

Transportation and land use optimization : land use utility value assessment using geographic information systems

by J.-P. Rodrigue. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 16 p. : ill., maps. Bibliogr. (Publication ; no. 859)
MICROLOG 93-01789 1 fiche

The utility value of land use is a unit of measurement of the value of a specific land use zone in relation to the whole urban system. It is the potential socioeconomical output value of the land use of an area and is defined according to concepts of accessability level, socioeconomic level and spatial interactions. With the utility value, it is easier to assign transportation resources more efficiently to land use zones and solve the transportation and land use optimization problems. A Geographic Information System is used to assign the utility value of land use in Shanghai.

Transportation and territorial development in Singapore Extended Metropolitan Region

by J.-P. Rodrigue. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 15 p. Bibliogr. (Publication ; no. 861)
MICROLOG 93-01784 1 fiche

This paper identifies transportation factors affecting territorial development in the Singapore Extended Metropolitan Region and addresses the idea of urbanization. The paper first presents the location of Singapore in the international transportation system by underlining the current effects of global factors in Singapore's transportation system. An assessment of the territorial development of the Singapore Extended Metropolitan Region is then undertaken and a discussion is conducted of transportation and land use development strategies for Singapore. The paper concludes with the role of transportation in the territorial development of extended metropolitan regions in general and of Singapore in particular.

Transportation and the environment : case studies from selected countries

J. Jones and C. Schwier ; with research assistance from A. Pignal ; prepared for Transport Canada, Economic Research Branch, Policy and Coordination. Kingston, Ont. : Queen's University, Canadian Institute of Guided Ground Transport, 1991. viii, 59 p. : ill., maps. Bibliogr. (CIGGT report ; no. 91-5) *CSI 97964.200.* ISBN 0-88911-093-X
MICROLOG 93-06525 1 fiche (Available on fiche only)

This study focused on foreign approaches to mitigating environmental impacts generated by the transportation sector, with particular attention to measures to curb air pollution.

The study presents data on emissions trends since 1970 in member countries of the Organization for Economic Cooperation and Development; and surveys the approaches developed to combat emissions of both traditional pollutants (lead, carbon monoxide, particulates, volatile organic compounds) and greenhouse gases (carbon dioxide, methane, chlorofluorocarbons). Five case studies were undertaken to find lessons concerning both keys to success and reasons for failure in attempts to reduce emissions from the transportation sector.

Transportation services between Canada and Mexico

by S.C.W. Blake. Ottawa : External Affairs and International Trade Canada, 1991. 46 p.
MICROLOG 93-01459 1 fiche

This market guide contains descriptive and statistical information as well as mode by mode analysis of transportation links between Canada and Mexico. It was prepared to provide an overview of transportation services between the two countries and to highlight unique circumstances that new exporters to Mexico should be aware of when making decisions to move merchandise south. Modes of transportation include trucking, rail, marine, air and freight forwarding. Also included are warehouse facilities, Mexican transport entities and insurance. A list of Canadian freight forwarders with warehouses in Mexico and of Mexican warehouse companies is also included

Transportation services between Canada and Mexico -- 2d ed.

by C. Oikawa, D. Pelkola and D. White. Ottawa : External Affairs and International Trade Canada, 1993. 45 p. Bibliogr.
MICROLOG 93-08088 1 fiche

This publication is one in a series devoted to Canadian exporters with regard to the international distribution and transportation of their goods. The series is designed for exporters who are intent on enhancing their competitiveness and efficiency in the international marketplace. It is designed to assist the exporter by describing transportation connections. It contains descriptive and statistical information on Canada's trade with Mexico, and highlights the major changes that NAFTA brings to the transportation industry.

Transverse mixing coefficients in the North Saskatchewan River

by G. Van Der Vinne ; for Alberta Environment. Edmonton : Alberta Research Council, Environmental Research and Engineering Dept., 1992. iv, 32 p. : ill. Bibliogr. (Report ; no. SWE-92/01)
MICROLOG 93-02115 1 fiche

The North Saskatchewan River has been used for the disposal of both industrial and municipal wastes for many years, although increased awareness and knowledge of the environmental impacts of many of the wastes has led to more rigorous regulation and monitoring of effluent discharges, thus creating a demand for more accurate information. This report defined the transverse mixing characteristics of the North Saskatchewan River by searching the literature for transverse mixing information; estimating the transverse mixing coefficients from previous longitudinal dispersion experiments by calibrating a two-dimensional dispersion model; and comparing the transverse mixing coefficients obtained from the above sources with the hydraulic characteristics at the time of the measurements.

Trap ownership and use in Nova Scotia

by B. Sabean. Halifax : Dept. of Natural Resources, 1993. 9 p. (Technical note ; no. 72)
MICROLOG 93-06415 1 fiche

Technical note reporting the results of a mail survey sent to 1,452 individuals who had purchased a fur harvester's license in the 1991/92 season. A total of 819 usable responses were received. Results gave the number of trappers owning each type of trap, the number of each type owned in total, the number of trappers who used each type, and the total number used.

La Traumatologie routière : la mort évitable

par M.-F. Joly et A. Rannou. Montréal : Université de Montréal, Centre de recherche sur les transports, 1992. 25 p. : ill. Bibliogr. (Publication ; no. 830)
MICROLOG 93-01785 1 fiche

Dans le contexte de la traumatologie, la question de la mort évitable se pose. Comment peut-on la définir? Peut-on l'évaluer? Ce rapport présente une revue analytique et synthétique de la littérature sur ce sujet qui est l'objet de nombreuses discussions. Les fondements du concept, les méthodes employées pour l'évaluation, les principales recherches qui ont été faites sur le sujet sont détaillées. Un tableau synoptique illustre les principaux résultats.
